

DRAWING
WITH
MR. J

This challenge will help your child explore feelings and creativity through drawing and reflection.

Watch:

WOSU CLASSROOM:
Drawing with Mr. J: Fruit
Dance Party

Mr. J invites you to draw along as they identify how basic emotions, like happiness, show on our faces when we are having fun or trying something new. After watching the video, what did you notice?

- What dance moves make you happy?
- What are some ways you show you are happy?
- How does it make you feel to see someone else happy?

Do:

It's your turn to draw and explore feelings! Create Your Own "Fruit Dance Party" drawing. Grab something to write with and something to draw on. Make your own Fruit Party Dance group using any fruit you like or fruit you see around the house.

- Look for simple shapes in your fruit to help you draw.
- Add expression and emotion onto the faces and bodies of your fruit.

Chat:

After drawing your Fruit Dance Party:

- What emotions did you draw and why do they feel this way?
- How might knowing how others feel help you be a good friend?
