

BUT WHY

A Learning Guide

Best for Kindergarten to Grade 3

But Why is a podcast led by you, kids! It's a big interesting world out there. Kids all over the world send us questions, and we find the answers. We've created these learning guides to be used in a classroom setting or at home. Listen to each episode and use this guide to deepen your understanding of what you've heard.

How Do Apples Grow?

BIG QUESTION: Why do apples have stems? - Anni, 3

Apples have many varieties, including some with unique names like "Cortland." These apple trees are all cloned off the original tree near Cortland, New York. If you could create and name your own apple variety what would it be called? Draw or write about your new apple variety.

Draw or write
in the box.

K (Know). This podcast reminds me of:

W (Want to know). I want to know:

L (Learned). In the podcast I learned:

Ask an expert. Who?

Find a safe source. Where?

What will you ask?

What other questions do you have about this topic? How will you find the answer?
