

Bint the
Builder

By: Ben

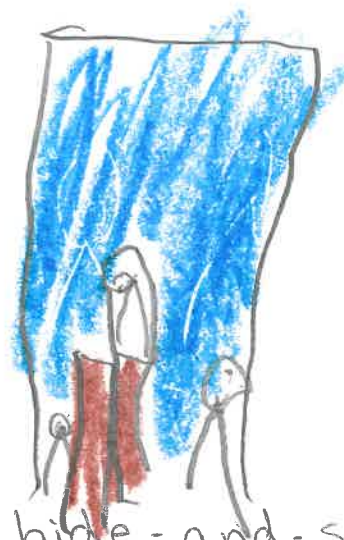

H

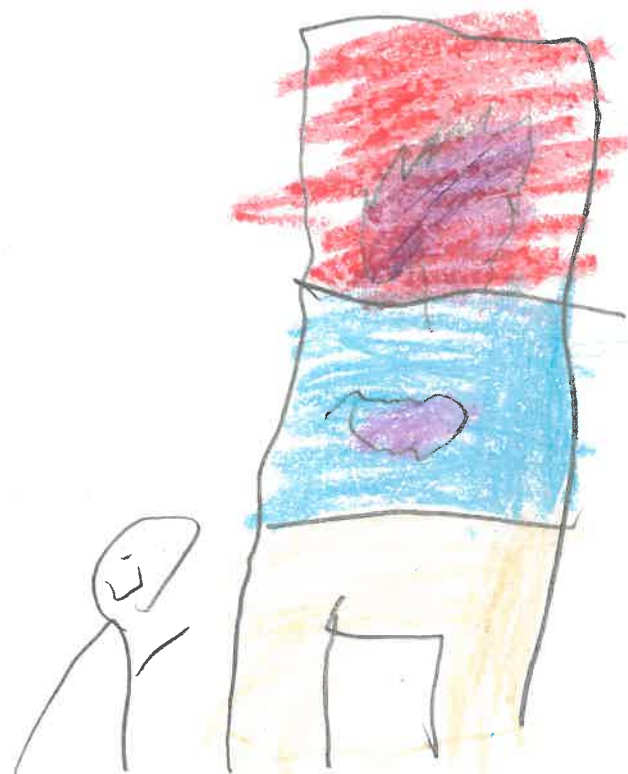

Bin the Builder builds 10,000 buildings every day. He builds fun buildings, boring buildings, and cool buildings.

Bin meets people and the people are nice to him. People come to his buildings to play.

They play hide-and-seek at
the fun buildings.

They draw pictures at the
cool buildings.

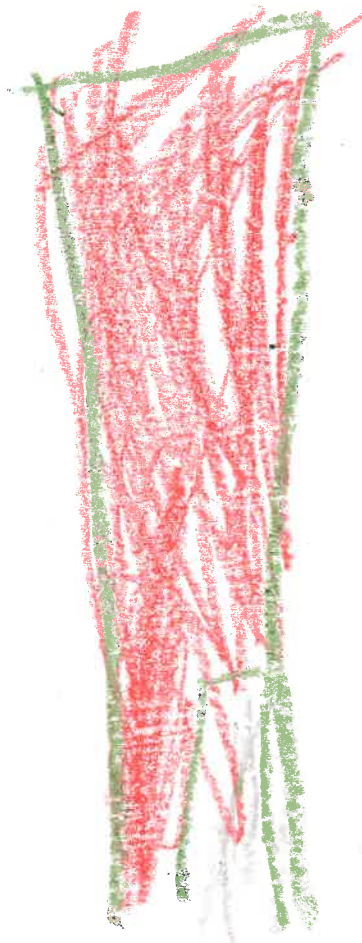

They walk around and buy boring things at the boring buildings like wood and plants.

After he is done building, Bin meets someone really nice who is a builder too. Her name is Maria.

Maria and Bin build really fun buildings together that have drawings on them.

The people feel happy. They
love the buildings and everyone
wants to go inside all at once.

They all have to stay in a
line and wait their turn.
In the building, they all play.

The End
