“There are literally two Americas. One America is overflowing with the milk of prosperity and the honey of opportunity... the habitat of millions of people who have food and material necessities for their bodies; and culture and education for their minds; and freedom and human dignity for their spirits...

But tragically and unfortunately, there is another America. This other America has a daily ugliness about it that constantly transforms the ebulliency of hope into the fatigue of despair...In this America millions of people find themselves living in rat-infested, vermin-filled slums. In this America people are poor by the millions.
