KRWG-TV
Quarterly Program Topic Report

July-September
2022
KRWG-TV is the PBS station located in Las Cruces, New Mexico. We are licensed by New Mexico State University and our offices are located on NMSU’s Las Cruces campus. KRWG-TV is proud to be the only television station in southern New Mexico. We also provide unique services in the El Paso, Texas/Las Cruces, New Mexico service area.

Through meetings with citizens and community leaders, partnerships with area newspapers and other organizations, and extensive production of news and public affairs programming, the staff of KRWG-TV has determined the following issues are of primary importance to our coverage area:

**Health/Welfare/Safety** – While the over-all crime rate is no higher than the national average, poverty and a higher than average teenage population contribute to a gang and crime problem. Poverty also results in health and welfare issues including an above average social services caseload and a high number of welfare cases handled by the local hospital.

**Culture** – The mix of Hispanic/Native American/ and Anglo cultures provide many positive attributes to life in southern New Mexico. Cultural and historical understanding is of great importance.

**Business** - With an above-average unemployment rate and a below-average income level, the status of the business/agricultural community in southern New Mexico is crucial. Concern over the constant issue of defense spending at the federal level is ongoing in this area due to the presence of several military and NASA installations. Dona Ana County is also actively seeking new businesses and a strong infrastructure exists near the Santa Teresa Border Crossing to boost border trade.

**Politics/Public Affairs** – Southern New Mexico and the United States have a wide variety of contentious political issues that are of constant interest to the citizens of the involved communities.

**Education** – With a constantly growing population of children, many of whom use Spanish as their primary language, the school systems in the KRWG-TV viewing area are constantly trying to provide facilities and teachers to meet this growing school age population with limited funds. New Mexico is one of the poorest per-capita states in the nation, which results in a chronic shortage of funds for local education.

**Water/Environment** – KRWG-TV is located in a desert with two major sources of water: the Rio Grande River and an aquifer that supplies drinking water to Las Cruces and surrounding areas in the Mesilla Valley. Water is the lifeblood of the region and conflicts are escalating over the requirements of a growing urban population and agriculture.

The series humanizes mental health conditions through inspiring personal stories and interviews with leading researchers and experts, who provide the latest information about diagnosis and treatment. As Dr. Borenstein explains, "Everyone is touched by psychiatric conditions, either themselves or a loved one. Our goal is to share cutting edge information from experts along with personal experiences from people who have overcome psychiatric conditions. Now, more than ever, it is important to reduce stigma and encourage people who have a psychiatric condition not to suffer in silence but to seek help. I want people to know that with help, there is hope."

He operates one of the world's largest natural health websites: www.DrAxe.com. He has hosted two previous fundraising programs based on his bestselling books Eat Dirt and Keto Diet. In The Collagen Diet, Dr. Axe highlights the health benefits of collagen, a protein made in the body but which diminishes with age. Because it's also absent from the typical western diet, many Americans suffer with the consequences of a collagen deficit: achy joints, sagging skin and inflammation, a precursor to chronic disease. Dr. Axe shows viewers how to get more collagen in their diets and effective ways to support the body's ability to make it. Collagen is the most abundant protein in the body. Beyond skin it's found in nails, bone, cartilage, tendons, muscles, the gut lining, the discs that cushion vertebrae, blood vessels, and the outer layer of organs. Because it's woven into so many tissues, it plays a vital role in countless aspects of health. In fact, new research is showing that collagen may help regenerate new tissue, aid in gut repair, boost the immune system, and even increase lifespan.

KETO Diet with Dr. Josh Axe  
*Saturday, 8/13 @ 8am; Thursday, 8/18 @ 1030pm; Friday, 8/19 @ 430am & Saturday, 8/20 @ 330pm (90min)*

Following his very successful first program, Dr. Josh Axe returns to public television in an entertaining new presentation to share cutting-edge health and nutrition advice based on his new book *The Keto Diet.*

In his familiar upbeat style, Dr. Axe puts his own fresh spin on the widely successful and well-researched keto diet. Unlike many fad diets that come and go with very limited rates of long-term success, the ketogenic diet (or “keto diet”) has been practiced for more than nine decades and is based upon a solid understanding of physiology and nutrition science.

The program showcases delicious food and recipe options. It includes a demonstration of how to make Dr. Axe’s preferred keto-friendly, gut-healing smoothie recipe. Dr. Axe clearly outlines the great benefits of the keto diet beyond fasting and weight loss: reduced risk for type 2 diabetes, reduced risk of heart disease, resistance to brain and neurological disorders, and more.

The keto diet works for a high percentage of people and it targets several key, underlying causes of weight gain, including hormonal imbalances. This is especially true of insulin resistance coupled with high blood sugar levels. The keto diet also ends the cycle of restricting and binging on empty calories that so many dieters struggle with. That cycle is often a result of hunger, which is not a factor on the keto diet, as the list of approved, satiating foods is long.

The keto diet doesn’t rely on counting calories, limiting portion sizes, resorting to extreme exercise or requiring lots of willpower. This low-carb diet takes an entirely different approach to weight loss and health. It works because it changes the very fuel source the body uses to stay energized: namely, it triggers a switch from burning glucose (or sugar) to burning dietary fat.

CULTURE  
Esta Es Mi Casa-This Is My Home  
*Sunday, 9/18 @ 6pm; Monday, 9/19 @ 12am & Thursday, 9/22 @ 530am (30min)*  
Starting in the 1930s and continuing for decades, farmers in the Red River Valley of North Dakota and Minnesota depended on Hispanic field workers-laborers from Texas and Mexico. OUR AMERICAN FAMILY: THE BARRERAS From the darkness of a coal mine in New Mexico to vibrant beauty under the California sun, Our American Family: The Barreras Family provides a compelling narrative of unwavering commitment to family. Life in the remote company-owned town of Madrid in the 1920s and ’30s was a mixture of hard, dangerous work offset by the joy of baseball and celebrations. With the closing of the mine in the early ’40s, the extended family re-established itself in southern California by living frugally and powerfully supporting one another through challenges.

June 24th, the U.S. Supreme Court ruled on Dobbs v. Jackson Women’s Health Organization. Micaela Lara Cadena - Abortion Care in New Mexico
June 24th, the U.S. Supreme Court ruled on Dobbs v. Jackson Women’s Health Organization. Rather than ruling strictly on that case and upholding the state law that would limit abortion rights to 15 weeks of pregnancy, the Supreme Court overturned the landmark 1973 Roe versus Wade ruling. Women simply aren’t granted a right to have an abortion by the U.S. Constitution, according to the majority opinion written by Justice Samuel Alito. It returns the decisions made on abortion law to the states. About half of U.S. states have already, or are expected to limit abortion rights. Some, like Texas will not even keep exceptions for rape or incest. Today, we’re joined by New Mexico State Representative Micaela Lara Cadena, who was instrumental in the State Legislature’s effort to maintain abortion rights in New Mexico.

**Title:** DANIEL TIGER’S NEIGHBORHOOD  
**Daniel Tiger’s Neighborhood** is a new, beautifully-textured animated series from PBS KIDS for preschoolers aged 2-4, based on the legacy of Fred Rogers. Its cast are the children of his original and much-loved Neighborhood of Make-Believe characters. A young Daniel Tiger is joined by his friends’ O the Owl, Katerina Kittycat, Prince Wednesday and Miss Elaina. Together, through imagination, creativity and music they learn the key social skills necessary for school and for life.
Every Daniel Tiger’s Neighborhood episode offers a parenting strategy. The clip below is from an episode about first experiences—a visit to the doctor and a ‘look around’ visit to school. The parenting strategy being modeled shows that by talking to children in advance about what to expect, parents can ease any apprehension they may be feeling. As in all Daniel stories, the strategy is offered as a musical ‘jingle’ – in this case “When we do something new, let’s talk about what we’ll do!”

Building on the landmark PBS series Mister Rogers’ Neighborhood, Daniel Tiger’s Neighborhood is a new series for a new generation of children. Launching in fall 2012 on PBS KIDS, the series tells engaging stories about the life of a preschooler and is accompanied by cross-platform games and activities for the very youngest children, together with online resources for parents and teachers. Daniel was developed by The Fred Rogers Company, and brings together a group of today’s leading creators of children’s media and educational technology. The series tells its engaging stories using musical strategies grounded in Fred Rogers’ landmark curriculum: its songs give parents and children a concrete way to practice important school-readiness skills together.

Gene Grant talks with District 4 Councilor Brook Bassan about what made her change her mind on the issue. Gene also asks the Line Opinion Panel if they see any realistic solutions to this issue in the near future. Plus, the panel discusses a troubling update on the staffing crisis at Bernalillo County’s Metropolitan Detention Center, and jails across the state. The panel also weighs in on recent actions from the Ronchetti campaign to block a journalist’s access to a rally. We ask the question: who gets to decide who is and isn’t legitimate media?

Gene talks with three key members of the New Mexico Shakespeare Festival about this year’s shows at Veterans Memorial Park in Albuquerque. There are six more shows this season, with the final performance scheduled for September 3.

NMPBS Chief Engineer Jason Quinn explains the damage done to a key piece of infrastructure during the Hermit’s Peak/Calf Canyon Fire. The Our Land crew documents
the destruction in the Mora area, and shows how losing such a seemingly small piece of broadcast technology can have a major impact on the community it serves.

OUR AMERICAN FAMILY: THE BARRERAS From the darkness of a coal mine in New Mexico to vibrant beauty under the California sun, Our American Family: The Barreras Family provides a
compelling narrative of unwavering commitment to family. Life in the remote company-owned town of Madrid in the 1920s and ‘30s was a mixture of hard, dangerous work offset by the joy of baseball and celebrations. **NEWS 22**  
*Tuesday-Thursday at 6:30pm beginning 9/20 (30min)*  
Student produced nightly news show for Southern New Mexico and West Texas.
Through meetings with local community leaders, review of area newspapers and other publications, and production of daily newscasts (Monday-Friday), the staff of KRWG-FM/KRXG-FM has determined that the following issues are of primary importance to the citizens within our coverage area:

1. **Arts, Entertainment, and Culture** – The mix of Hispanic/Native American/ and Anglo cultures provide many positive attributes to life in southern New Mexico. However, this same mix results in an on-going undercurrent of conflict among the cultures. Cultural and historical understanding is of on-going importance in this area. The area includes a diverse mix of arts and entertainment, including local musicians and performance venues and efforts to build a film industry.

2. **Business, Economic Development, Environment** - With an above-average unemployment rate and a below-average income level, the status of the business/agricultural community in southern New Mexico is an important issue. Concern over the constant issue of defense spending at the federal level is ongoing in this area due to the presence of several military and NASA installations. Dona Ana County is also actively seeking new businesses and a strong infrastructure exists near the Santa Teresa Border Crossing, which is also a source of news and related issues. Environmental concerns are often at odds with economic development pressures.

3. **Local Public Affairs** and Education– Southern New Mexico has very intensive governance and political issues that are of constant interest to the citizens of the involved communities, which include a variety of elected and appointed officials. The area is also making efforts to improve education and has a variety of elected school boards.

Stories placed in these three main categories are broadcast on local newscasts each weekday (Monday-Friday) at 645, 745, 845, 1644, 1748, and 1844.

Story descriptions and broadcast time(s) are listed on the upcoming pages by topic area.
