# Andrus for Idaho HISTORY HARVEST STATIONS

## ORAL HISTORY

This station involves a 30-45 minute long-form interview with you and a volunteer! You'll sign up on a list, get assigned a time, and volunteers with prepared questions will pull you into a private room and ask you general questions that allow you to tell your story in your own words. With your permission, interviews will be recorded and added to the archival record.

## MAIN STAGE

Stop by the main room to listen to speakers and experts sharing their experiences working with and for the governor.

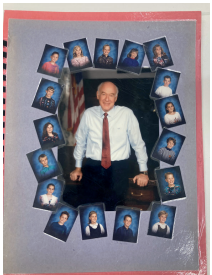

## CECE STORIES

Have a story about Governor Andrus but don't want to sit for a full 30 minute interview? Join us in a quick booth to record your 5 minute "Cece Story." Share a memorable thought or humorous anecdote to add to the archive.

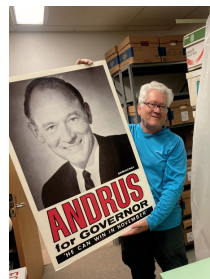

## FILMS

Sit back, grab some popcorn, and watch a compilation of film footage about Idaho's environmental past—potato commercials, interviews about salmon, news reports on wildfires and other topics. Do the videos spark a conversation or a memory? Share that with us!

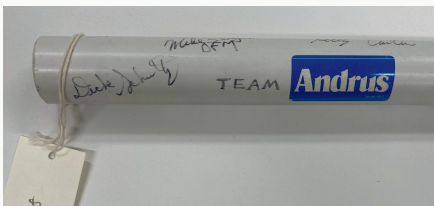

## PHOTO ALBUM

Help us identify people and places in our pictures! Screens with scrolling pictures and binders with printed pictures will be available for attendees to annotate what they remember about the people and places and events in the photographs.

## ANDRUS CENTER

Peruse programs and reports from 30 years of public dialogue facilitated by the Andrus Center. Suggest topics for future conferences and tell us what you remember about events you attended!

## SCANNING

Did the Governor write you a letter? Bring it in and share with us what it meant to you! Do you have a scrapbook or collage about a favorite place that relates to your relationship with Andrus? Bring it in and explain why it is meaningful to you. Expect an intake form for details, a permission form, and a ticketing process to make sure your items get back to you. We will have flat document scanners as well as a 3D artifact scanner available.

If you are not prepared to have your story recorded or objects digitized this weekend, you can always share your story and knowledge by connecting with us via our website, [boi.st/history-harvest](http://boi.st/history-harvest).
