† Race data reflect what is reported by the vaccination providers. Due to a known technical issue, vaccinations of multi-race residents are being over-counted. We are working to correct this.

<sup>^</sup>Due to the Pfizer and Moderna vaccines requiring two doses, the Total Doses Administered does not reflect the number of residents who have been vaccinated.

<sup>\*</sup>Residents Initiating Vaccination includes those who have received at least one dose of the Pfizer or Moderna vaccines and those who have received the Johnson & Johnson vaccine.

Note that the vaccinations administered for the counties **excludes** those administered for residents of Kansas City within the county. These numbers are mutually exclusive.
