KRWG-TV
Quarterly Program Topic Report

April-June 2024
KRWG-TV is the PBS station located in Las Cruces, New Mexico. We are licensed by New Mexico State University and our offices are located on NMSU’s Las Cruces campus. KRWG-TV is proud to be the only television station in southern New Mexico. We also provide unique services in the El Paso, Texas/Las Cruces, New Mexico service area.

Through meetings with citizens and community leaders, partnerships with area newspapers and other organizations, and extensive production of news and public affairs programming, the staff of KRWG-TV has determined the following issues are of primary importance to our coverage area:

Health/Welfare/Safety – While the over-all crime rate is no higher than the national average, poverty and a higher than average teenage population contribute to a gang and crime problem. Poverty also results in health and welfare issues including an above average social services caseload and a high number of welfare cases handled by the local hospital.

Culture – The mix of Hispanic/Native American/ and Anglo cultures provide many positive attributes to life in southern New Mexico. Cultural and historical understanding is of great importance.

Business - With an above-average unemployment rate and a below-average income level, the status of the business/agricultural community in southern New Mexico is crucial. Concern over the constant issue of defense spending at the federal level is ongoing in this area due to the presence of several military and NASA installations. Dona Ana County is also actively seeking new businesses and a strong infrastructure exists near the Santa Teresa Border Crossing to boost border trade.

Politics/Public Affairs – Southern New Mexico and the United States have a wide variety of contentious political issues that are of constant interest to the citizens of the involved communities.

Education – With a constantly growing population of children, many of whom use Spanish as their primary language, the school systems in the KRWG-TV viewing area are constantly trying to provide facilities and teachers to meet this growing school age population with limited funds. New Mexico is one of the poorest per-capita states in the nation, which results in a chronic shortage of funds for local education.

Water/Environment – KRWG-TV is located in a desert with two major sources of water: the Rio Grande River and an aquifer that supplies drinking water to Las Cruces and surrounding areas in the Mesilla Valley. Water is the lifeblood of the region and conflicts are escalating over the requirements of a growing urban population and agriculture.

What does it take to live "happily ever after" during your retirement years? How can you grow old in the home you know and love without going broke and without burdening your family? These are the questions elder law attorney and retirement planning expert Rajiv Nagaich answers in The Path to Happily Ever After. Drawing on his own family’s experiences and those of thousands of clients during his 20+ years as an elder law attorney, Rajiv shines the spotlight on a problem no one else is addressing. Americans who follow traditional retirement planning advice are almost certain to experience their worst nightmares after a health crisis. A staggering 70% of American retirees are forced into institutional care. Just as many go broke due to unplanned care costs and become a burden on family members. In The Path to Happily Ever After, Rajiv explains why this tragic trifecta happens so often and how to avoid it. Rajiv’s groundbreaking new approach to retirement planning—LifePlanning—delivers a master plan that seamlessly coordinates health, housing, finances, legal, and family issues in retirement. This integrated planning process makes it possible to avoid being forced to move after a health crisis, avoid losing assets to unplanned care costs, and avoid becoming a burden on loved ones. In The Path to Happily Ever After, Rajiv explains the essential planning steps and, most importantly, how to develop the framework for these elements to work in concert toward the goals that matter most. Rajiv’s formula for retirement planning has helped thousands of Americans find their path to happily ever after.

Correspondent:
Jeff Proctor
Guests:
Neal Hitch, senior curator, Museum at Bethel Woods
Lisa Law, photographer

This week on New Mexico in Focus, Our Land’s Laura Paskus sits down with a special roundtable to discuss all things food — why it costs so much, why so much of it gets thrown away and the social justice issues associated with access. Laura begins by asking the group why more than 100,000 tons of food is wasted each year in Albuquerque. Then, the roundtable discusses possible solutions to food waste, considering everything from smaller serving sizes at restaurants to composting expired produce at home. Laura steps back for the final segment and explores how food waste has taken a toll on our planet and how fixing that problem is essential in our attempt to address climate change.

Executive Producer Jeff Proctor speaks with Neal Hitch, senior curator at the Museum at Bethel Woods, about an oral history project on Woodstock 55 years after the event. Photographer Lisa Law joins the conversation to share her experiences from the historic music festival and to explain why Santa Fe is a perfect place to gather more stories.

The Supreme Court Case Challenging the Rights of the Unhoused
Correspondent:
This week on New Mexico in Focus, KUNM News Director Megan Kamerick sits down for a two-part discussion on Daymon Ely’s proposed plan to address homelessness in Albuquerque. In part one, Megan asks the special roundtable about the benefits and drawbacks of a big, coordinated effort from City Hall, like the one Ely is leading. In the second half, Megan asks what needs to change to get the solutions conversation away from politics and moving towards people’s needs.

James Freeman, a person who once lived on the streets of Albuquerque and is now a director at HopeWorks, gives his thoughts on the proposal. He also goes in depth on his experience living homeless.

This week on New Mexico in Focus, we look ahead to Gov. Michelle Lujan Grisham's special session in July. Executive Producer Jeff Proctor asks Senior
Public Safety Adviser Benjamin Baker which bills we can expect to see at the session. In the first of a two-part discussion, Senior Producer Lou DiVizio asks our roundtable guests to explore the deeper questions around what the governor calls public safety legislation and consider whether any of it will pass. Later, our roundtable guests examine the political stakes of this summer's session falls flat.

Earlier this year, 10th graders from Thoreau High School wrote to media outlets and officials across the state, drawing attention to a recommended cleanup plan from the federal government.

Across the Navajo Nation, contaminated uranium mines have been polluting the air and water and making people sick for generations. As part of a plan to finally clean up more than a million cubic yards of contaminated uranium and radium waste at just one of those sites, the U.S. Environmental Protection Agency has proposed relocating the waste to private land within the town of Thoreau. Relocating it to the Red Rocks Disposal Facility would move the uranium off the lands of the Navajo Nation, but as the students point out, the town of Thoreau is predominantly Navajo.

This spring, a representative from the EPA met with the students, who listened to a presentation and interviewed him for their podcast. Our Land Senior Producer Laura Paskus visited Thoreau High School in May and then invited the teens into the studio in Albuquerque to talk about what they’re learning, and who they’re hoping will listen.

This week on New Mexico in Focus, Our Land’s Laura Paskus sits down with a special roundtable to discuss all things food — why it costs so much, why so much of it gets thrown away and the social justice issues associated with access. Laura begins by asking the group why more than 100,000 tons of food is wasted each year in Albuquerque. Then, the roundtable discusses possible solutions to food waste, considering everything from smaller serving sizes at restaurants to composting expired produce at home. Laura steps back for the final segment and explores how food waste has taken a toll on our planet and how fixing that problem is essential in our attempt to address climate change.

Executive Producer Jeff Proctor speaks with Neal Hitch, senior curator at the Museum at Bethel Woods, about an oral history project on Woodstock 55 years after the event. Photographer Lisa Law joins the conversation to share her experiences from the historic music festival and to explain why Santa Fe is a perfect place to gather more stories.

Arturo Sandoval on How Colonization and Capitalism are Connected
This week on New Mexico in Focus, Our Land’s Laura Paskus sits down for a two-part discussion with Arturo Sandoval, one of the organizers of the first Earth Day in 1970. In the first half of their conversation, Sandoval tells us about his role in putting together the first event and takes a step back to look at how it has since changed. Later, the two talk broadly about the concept of colonization, how it has defined the world around us and observe how it is intertwined within capitalism.

In 2016, the pueblo of Santa Ana paid $30 million for 60,000 acres of their own ancestral lands — land that had been privatized and then grazed for more than a century. Now, they're using traditional knowledge and western science to protect Tamya Kwii Kee Nee Puu for traditional uses. In this preview of an Our Land Special, airing on NMPBS on April 25, Laura Paskus visits Tamaya Kwii Kee Nee Puu.

Executive Producer Jeff Proctor talks to Melanie Majors, executive director of the New Mexico Foundation for Open Government, about new allegations of state transparency law violations against Bernalillo County commissioners. During their interview, Proctor asks why public business should always be conducted with the door open.

Guests:
Neal Hitch, senior curator, Museum at Bethel Woods
Lisa Law, photographer

This week on New Mexico in Focus, Our Land's Laura Paskus sits down with a special roundtable to discuss all things food — why it costs so much, why so much of it gets thrown away and the social justice issues associated with access. Laura
begins by asking the group why more than 100,000 tons of food is wasted each year in Albuquerque. Then, the roundtable discusses possible solutions to food waste, considering everything from smaller serving sizes at restaurants to composting expired produce at home. Laura steps back for the final segment and explores how food waste has taken a toll on our planet and how fixing that problem is essential in our attempt to address climate change.

Executive Producer Jeff Proctor speaks with Neal Hitch, senior curator at the Museum at Bethel Woods, about an oral history project on Woodstock 55 years after the event. Photographer Lisa Law joins the conversation to share her experiences from the historic music festival and to explain why Santa Fe is a perfect place to gather more stories.

This week on New Mexico in Focus, Our Land’s Laura Paskus sits down for a two-part discussion with Arturo Sandoval, one of the organizers of the first Earth Day in 1970. In the first half of their conversation, Sandoval tells us about his role in putting together the first event and takes a step back to look at how it has since changed. Later, the two talk broadly about the concept of colonization, how it has defined the world around us and observe how it is intertwined within capitalism.

In 2016, the pueblo of Santa Ana paid $30 million for 60,000 acres of their own ancestral lands — land that had been privatized and then grazed for more than a century. Now, they’re using traditional knowledge and western science to protect Tamya Kwii Kee Nee Puu for traditional uses. In this preview of an Our Land Special, airing on NMPBS on April 25, Laura Paskus visits Tamaya Kwii Kee Nee Puu.

Executive Producer Jeff Proctor talks to Melanie Majors, executive director of the New Mexico Foundation for Open Government, about new allegations of state transparency law violations against Bernalillo County commissioners. During their interview, Proctor asks why public business should always be conducted with the door open.

Thoreau Teens Oppose Radioactive Dump
Correspondent: Laura Paskus
Guests: Reagan Russette, Thoreau High School
MiaBella Burrola, Thoreau High School
Ezekiel Gonzales, Thoreau High School

This week on New Mexico in Focus, we look ahead to Gov. Michelle Lujan Grisham’s special session in July. Executive Producer Jeff Proctor asks Senior Public Safety Adviser Benjamin Baker which bills we can expect to see at the session. In the first of a two-part discussion, Senior Producer Lou DiVizio asks our roundtable guests to explore the deeper questions around what the governor calls public safety legislation and consider whether any of it will pass. Later, our roundtable guests examine the political stakes of this summer’s session falls flat.

Earlier this year, 10th graders from Thoreau High School wrote to media outlets and officials across the state, drawing attention to a recommended cleanup plan from the federal government.

Across the Navajo Nation, contaminated uranium mines have been polluting the air and water and making people sick for generations. As part of a plan to finally clean up more than a million cubic yards of contaminated uranium and radium waste at just one of those sites, the U.S. Environmental Protection Agency has proposed relocating the waste to private land within the town of Thoreau.
Relocating it to the Red Rocks Disposal Facility would move the uranium off the lands of the Navajo Nation, but as the students point out, the town of Thoreau is predominantly Navajo.

This spring, a representative from the EPA met with the students, who listened to a presentation and interviewed him for their podcast. Our Land Senior Producer Laura Paskus visited Thoreau High School in May and then invited the teens into the studio in Albuquerque to talk about what they’re learning, and who they’re hoping will listen.

Title: Molly of Denali – This series follows the adventures of Molly, a feisty and resourceful Alaska Native girl, as she helps her parents run the Denali Trading Post in their Alaskan village. Viewers are introduced to the rich history and modern-day experience of family life in the heart of the Alaskan tundra through the eyes of Molly, her parents, and her friends. Designed to help kids develop skills around informational text such as using a map and following an instruction manual, this is the first nationally distributed children’s series in the U.S. to feature an Alaska Native lead character.
**Title: Elinor Wonder Why** – This animated series for preschoolers aims to encourage children to follow their curiosity, ask questions when they don’t understand and find answers using science inquiry skills. The main character Elinor, the most observant and curious bunny rabbit in Animal Town, introduces kids ages 3-5 to science, nature and community through adventures with her friends Ari, a funny and imaginative bat, and Olive, a perceptive and warm elephant. As kids explore Animal Town, they meet all kinds of interesting, funny, and quirky characters, each with something to teach us about respecting others, the importance of diversity, caring for the environment, and working together to solve problems.

**KRWG Airdate and Time:** Tuesday, 6/11 at 7am & 3pm; Wednesday, 6/12 & Friday, 6/14 at 1130am; Friday, 6/21 at 11am (60min)

**Title: Nature Cat** – NATURE CAT follows Fred, a house cat who dreams of exploring the great outdoors. In each episode, once his family leaves for the day, Fred transforms into Nature Cat, "backyard explorer extraordinaire." Nature Cat can't wait to get outside for a day of backyard nature excursions and bravery, but there's one problem: He's still a house cat with no instincts for nature. Like many of today's kids, Nature Cat is eager and enthusiastic about outside activities, but is at times intimidated by them. With the help of his animal friends, Nature Cat embarks on action-packed adventures that include exciting missions full of nature investigation, "aha" discovery moments and humor, all while inspiring children to go outside and "play the show."

**KRWG Airdate and Time:** Monday, 4/22 & Thursday, 4/25 at 12pm; Tuesday, 4/30 at 7am & 4pm (60min)

**Title: Nature Cat: Nature Cats Nature Movie** – Nature Cat and his pals realize they've come to the end of their Nature Curiosity List. Meanwhile, Sir
Galahad gives himself the title of King and moves into a barren castle and steals pieces of nature to make his castle look more beautiful. Oh no!

**KRWG Airdate and Time:** *Sundays at 730am (30min)*

**Title:** Cyberchase: Math rules in the animated adventure series CYBERCHASE. CYBERCHASE energizes kids ages eight to eleven with math power. Full of cyber-mysteries with eye-popping animation and a sly comic flair, the daily series features the voices of Christopher Lloyd and Gilbert Gottfried. CYBERCHASE sends the message that math is fun - it's about problem solving and, boy, does it come in handy. When the dastardly villain Hacker (Lloyd) launches a mad mission to conquer the virtual universe, Motherboard calls upon three earth kids for help. They are Jackie, Matt and Inez - the culturally diverse heroes of CYBERCHASE - who, along with the wise-cracking cyber-bird Digit (Gottfried), travel from their real-world realm to the colorful virtual vistas of cyberspace, where they vanquish the bad guys in an all-out battle of wits. Each episode takes the kids on a thrilling adventure driven by a different math concept - from tackling time in ancient Egyptian tombs to cracking codes in creepy caves or making sense of numbers in a fractured fairy tale world.

**KRWG Airdate and Time:** *M-F @ 1130am except 1/1 & 2/8 (30min)*

**Title:** Pinkalicious & Peterrific - Pinkalicious imagines creative possibilities everywhere she looks. Get creative with Pinkalicious, Peter and all their friends in Pinkville!

**KRWG Airdate and Time:** *M-F at 9am except 4/1 & 4/11 (30min)*

**Title:** DANIEL TIGER’S NEIGHBORHOOD

Daniel Tiger’s Neighborhood is a new, beautifully-textured animated series from PBS KIDS for preschoolers aged 2-4, based on the legacy of Fred Rogers. Its cast are the children of his original and much-loved Neighborhood of Make-Believe characters. A young Daniel Tiger is joined by his friends’ O the Owl, Katerina Kittycat, Prince Wednesday and Miss Elaina. Together, through imagination, creativity and music they learn the key social skills necessary for school and for life.

**KRWG Airdate and Time:** *M-F at 11am except 4/9 & 4/26 (30min)*

**Title:** Donkey Hodie - Donkey Hodie follows the adventures of a little yellow donkey who dreams big. With perseverance, great pals, and a laugh along the way, there's nothing she can't do! Hee-haw!

**KRWG Airdate and Time:** *M-F at 1030am (30min)*

**Title:** Work It Out Wombats! - Work It Out Wombats! follows a playful trio of marsupial siblings -- Malik, Zadie, and Zeke -- who live with their grandmother (named Super!) in a fantastical treehouse apartment complex. The Treeborhood is home to a diverse and quirky community of neighbors who just happen to be wombats, snakes, moose, kangaroos, iguanas, fish, tarsiers, and eagles! Each day
drops a new challenge into the Wombats' laps, requiring them to find, debug, fix, order (then re-order) -- and create, test, and re-create when things don't go according to plan. But thanks to their creativity and collaborative spirit, their sense of family, and the role they play within the larger Treeborhood community -- as problem-solvers, friends, and neighbors -- the Wombats always win the day. With an educational focus on computational thinking, Work It Out Wombats! introduces preschoolers to a way of thinking that enables them to solve problems, express themselves, and accomplish tasks using the practices, processes, and ideas at the core of computer science, laying important groundwork for success in school and life.

**KRWG Airdate and Time:** Sundays at 7am ended 4/28 (30min)
**Title: Infinite Art Hunt** – Freddie is on a mission to become a great artist. With the help of her cousin Ty and their Grandma Tilly, an eccentric art teacher with friends all over town, the kids go on art quests around their neighborhood. The cousins learn about art spaces (big and small), hear from local makers, and get a chance to create original pieces for themselves. THE INFINITE ART HUNT invites elementary school-age viewers to join Freddie on a virtual field trip covering a range of artistic mediums and styles, from public art and sculpture gardens to museums and airports.

**KRWG Airdate and Time:** Sundays at 7am beginning 5/5 (30min)

**KRWG Airdate and Time:** Saturdays at 730am ended 6/15 (30min)
**Title: Albie's Elevator** – Join Albie, a fictional macaroni and cheese-colored puppet, as she explores her big feelings and navigates friendships with the help of her neighbors! Albie operates the elevator in her building and explores a variety of problems by asking the neighbors she meets to help her find solutions. Each episode follows Albie and her neighbors as they talk with a variety of creative and artistic friends who offer insight to help Albie work through the problem she is facing. This half-hour series features two unique stories per episode. Geared towards 2- to 5-year-old children, ALBIE’S ELEVATOR teaches social-emotional skills through a fun, arts-focused lens with learning at the helm.

**KRWG Airdate and Time:** Saturdays at 730am beginning 6/22 (30min)
**Title: Reading League’s Reading Buddies** – What do a dog, a girl, and a robot have in common? First and foremost, Dusty, Dott, and Alphabott are best friends. But they are also reading buddies! Dusty loves to talk, but learning to read is a new skill. With the help of Dott and Alphabott, he discovers that it can be so much fun! Along the way, the friends practice letters, sounds, and reading words, get letters from their globe-trotting friend Otto, practice social skills, and so much more. We hope you’ll become a Reading Buddy!

**KRWG Airdate and Time:** Saturdays at 7am (30min)
Title: MISTER ROGER'S NEIGHBORHOOD – The soothing voice of Mr. Rogers continues to comfort children telling them that there will always be someone to take care of them and helping them feel good about themselves. Ages 2-5.

KRWG Airdate and Time: M-F at 4pm except 4/8 & 4/30 (30min)
Title: ODD SQUAD – ODD SQUAD is a PBS KIDS live-action media property designed to help kids ages 5-8 learn math. The show focuses on two young agents, Olive and Otto, who are part of the Odd Squad, an agency whose mission is to come to the rescue whenever something unusual happens. A math concept is embedded in each of their cases, as Olive and Otto work together to problem-solve and save the day in each episode. ODD SQUAD is created by Tim McKeon (Foster's Home for Imaginary Friends, Adventure Time, The Electric Company) and Adam Peltzman (The Electric Company, The Backyardigans, Wallykazam!) and produced by Sinking Ship Entertainment and The Fred Rogers Company.

KRWG Airdate and Time: M-F at 10am (30min)
Title: SESAME STREET – SESAME STREET has garnered more than 100 awards, including 101 Emmys, two Peabodys, four Parents’ Choice Awards and an Action for Children’s Television Special Achievement Award. The series delivers academic and social education that prepares kids for grade school. Since its premiere, the show’s base curriculum has been set by academic research on preschoolers. Encore episodes focus on music and art and how these tools can be used to develop the whole child - the cognitive, social, emotional and physical attributes. In addition, "Elmo's World," which looks at the world through the eyes of a three-year-old, continues as a featured segment. Themes include birthdays, pets, teeth, families, games and more. Ages 2-5.

KRWG Airdate and Time: M-F at 330pm except 4/23. (30min)
Title: Xavier Riddle and the Secret Museum– Inspired by the best-selling kids book series, Ordinary People Change the World, by New York Times bestselling author Brad Meltzer and illustrator Christopher Eliopoulos, XAVIER RIDDLE AND THE SECRET MUSEUM follows the adventures of Xavier, Yadina and Brad as they tackle everyday problems by doing something extraordinary: traveling back in time to learn from real-life inspirational figures like Marie Curie, Harriet Tubman and Jackie Robinson when they were kids. Each adventure will help young viewers make the connection between the skills that made these historical figures heroes and those same qualities within themselves, helping them discover that they, too, can change the world.

KRWG Airdate and Time: Tuesday, 4/16 at 830am; Friday, 4/16 at 3pm & Friday, 4/26 at 1030am (60min)
Title: Dinosaur Train: Nature Trackers Adventure Track - Get ready for some fun as Mr. Conductor and his nephew Gilbert lead Buddy, Tiny, Shiny, Don and all of their friends on explorations with the Nature Trackers Adventure Camp! Throughout their journeys, the group will find their courage as they race down rivers, have a snowball fight as they climb a tall mountain, ride a zipline
over a dense rainforest canopy and even hike down a canyon to dig for fossils, all
the while learning about nature and singing lots of wonderful songs that everyone
can enjoy and sing along with! Learning about nature has never been this much
fun!

**Title: Wild Kratts** - "Wild Kratts" joins the adventures of Chris and Martin
Kratt as they encounter incredible wild animals, combining science education
with fun and adventure as the duo travels to animal habitats around the globe.
Each adventure explores an age-appropriate science concept central to an
animal's life and showcases a never-before-seen wildlife moment, all wrapped up
in engaging stories of adventure, mystery, rescue, and the Kratt brothers' brand
of laugh-out-loud-comedy that kids love. Real-life Chris and Martin introduce
each "Wild Kratts" episode with a live action segment that imagines what it would
be like to experience a never-before-seen wildlife moment, and asks, "What if...?"
The Kratt brothers transition into animation and the adventure begins, bringing
early-elementary school children into the secret lives of extraordinary creatures,
many of which have never been animated before -- including Tiger quolls, Draco
lizards, and Caracals!

How Food Waste Contributes to Climate Change
Correspondent:
Laura Paskus
Guests:
Sandra West, sustainable waste specialist, City of Albuquerque
This week on New Mexico in Focus, Our Land’s Laura Paskus sits down with a special roundtable to discuss all things food — why it costs so much, why so much of it gets thrown away and the social justice issues associated with access. Laura begins by asking the group why more than 100,000 tons of food is wasted each year in Albuquerque. Then, the roundtable discusses possible solutions to food waste, considering everything from smaller serving sizes at restaurants to composting expired produce at home. Laura steps back for the final segment and explores how food waste has taken a toll on our planet and how fixing that problem is essential in our attempt to address climate change.

Executive Producer Jeff Proctor speaks with Neal Hitch, senior curator at the Museum at Bethel Woods, about an oral history project on Woodstock 55 years after the event. Photographer Lisa Law joins the conversation to share her experiences from the historic music festival and to explain why Santa Fe is a perfect place to gather more stories.

“Questions Remain for July's Special Session”
Host: Lou DiVizio
Segments:

State Senior Public Safety Adviser on July's Special Session
This week on New Mexico in Focus, we look ahead to Gov. Michelle Lujan Grisham’s special session in July. Executive Producer Jeff Proctor asks Senior Public Safety Adviser Benjamin Baker which bills we can expect to see at the session. In the first of a two-part discussion, Senior Producer Lou DiVizio asks our roundtable guests to explore the deeper questions around what the governor calls public safety legislation and consider whether any of it will pass. Later, our roundtable guests examine the political stakes of this summer’s session falls flat.

Earlier this year, 10th graders from Thoreau High School wrote to media outlets and officials across the state, drawing attention to a recommended cleanup plan from the federal government.

Across the Navajo Nation, contaminated uranium mines have been polluting the air and water and making people sick for generations. As part of a plan to finally clean up more than a million cubic yards of contaminated uranium and radium waste at just one of those sites, the U.S. Environmental Protection Agency has proposed relocating the waste to private land within the town of Thoreau. Relocating it to the Red Rocks Disposal Facility would move the uranium off the
lands of the Navajo Nation, but as the students point out, the town of Thoreau is predominantly Navajo.

This spring, a representative from the EPA met with the students, who listened to a presentation and interviewed him for their podcast. Our Land Senior Producer Laura Paskus visited Thoreau High School in May and then invited the teens into the studio in Albuquerque to talk about what they’re learning, and who they’re hoping will listen.

This week on New Mexico in Focus, Our Land’s Laura Paskus sits down with a special roundtable to discuss all things food — why it costs so much, why so much of it gets thrown away and the social justice issues associated with access. Laura begins by asking the group why more than 100,000 tons of food is wasted each year in Albuquerque. Then, the roundtable discusses possible solutions to food waste, considering everything from smaller serving sizes at restaurants to
composting expired produce at home. Laura steps back for the final segment and explores how food waste has taken a toll on our planet and how fixing that problem is essential in our attempt to address climate change.

Executive Producer Jeff Proctor speaks with Neal Hitch, senior curator at the Museum at Bethel Woods, about an oral history project on Woodstock 55 years after the event. Photographer Lisa Law joins the conversation to share her experiences from the historic music festival and to explain why Santa Fe is a perfect place to gather more stories.

**NEWS 22**  
*Tuesday-Thursday at 6:30pm ended 5/2 (30min)*  
Student produced nightly news show for Southern New Mexico and West Texas.
Through meetings with local community leaders, review of area newspapers and other publications, and production of daily newscasts (Monday-Friday), the staff of KRWG-FM/KRXG-FM has determined that the following issues are of primary importance to the citizens within our coverage area:

1. **Arts, Entertainment, and Culture** – The mix of Hispanic/Native American/ and Anglo cultures provide many positive attributes to life in southern New Mexico. However, this same mix results in an on-going undercurrent of conflict among the cultures. Cultural and historical understanding is of on-going importance in this area. The area includes a diverse mix of arts and entertainment, including local musicians and performance venues and efforts to build a film industry.

2. **Business, Economic Development, Environment** - With an above-average unemployment rate and a below-average income level, the status of the business/agricultural community in southern New Mexico is an important issue. Concern over the constant issue of defense spending at the federal level is ongoing in this area due to the presence of several military and NASA installations. Dona Ana County is also actively seeking new businesses and a strong infrastructure exists near the Santa Teresa Border Crossing, which is also a source of news and related issues. Environmental concerns are often at odds with economic development pressures.

3. **Local Public Affairs and Education** – Southern New Mexico has very intensive governance and political issues that are of constant interest to the citizens of the involved communities, which include a variety of elected and appointed officials. The area is also making efforts to improve education and has a variety of elected school boards.

Stories placed in these three main categories are broadcast on local newscasts each weekday (Monday-Friday) at 645, 745, 845, 1644, 1744, and 1844.

Story descriptions and broadcast time(s) are listed on the upcoming pages by topic area.

3. Government, Community Affairs and Education— Southern New Mexico has very intensive governance and political issues that are of constant interest to the citizens of the involved communities, which include a variety of elected and appointed officials. The area is also making efforts to improve education and has a variety of elected school boards.
