Casey,

So good to talk with you yesterday. You and the team are doing a tremendous job and you have an early-tested leader whom is really proving her ability. I'm privileged to help anyway I can.

I'm connecting you with John Miller, Executive Liaison Officer to the Mississippi River Commission, regarding the Mayor's intervention August 15, 8:30am, on the Motor Vessel Mississippi at the St. Louis Riverfront. Three portions characterize a possible agenda for her address: 1) welcome; 2) St. Louis City priorities; 3) larger Mississippi River Comprehensive Plan recommendations via combined mayoral efforts across the corridor. Total time is approximately 7 minutes. MRCTI is here to assist with remarks, logistics, and on-the-ground coordination that morning.

An additional intervention is offered for the 12:30pm lunch that same day with General Peoples and other MVD leadership.

We have worked with John for a while and he is excellent in coordinating these interventions (see below and attached).

I'll be standing by for anything that is required to confirm.

Colin Wellenkamp
Executive Director
Mississippi River Cities & Towns Initiative

From: Miller, John L USARMY CEMVS (USA) <John.L.Miller@usace.army.mil>

The Mississippi River Commission will make its annual low-water inspection trip from 15-22 August 2024. On behalf of Brigadier General Kim Peeples, President of the Mississippi River Commission, I invite you or a member of your team to make a statement during the Public Meeting to be held in the St. Louis District on board the Motor Vessel MISSISSIPPI. Please pre-register your attendance by completing the RSVP request, at the link below, by August 8th, 2025.

The public meetings provide an open forum for anyone with an interest in the Mississippi River or its tributaries to have a greater voice in shaping how our rivers are managed. I encourage you to submit your written and signed testimony for inclusion in the Official Proceedings of the Mississippi River Commission.

I hope you will be able to join Brigadier General Peeples, members of the Mississippi River Commission, and the St. Louis District staff at the St. Louis Public Meetings. I look forward to seeing you on board the Motor Vessel MISSISSIPPI.

**Sincerely,
Andy J. Pannier
Colonel, Corps of Engineers
District Commander**
