

KRWG
Las Cruces, NM
PBS Quarterly Program Topic Report
July 1, 2025 – September 30th, 2025

KRWG-TV is the PBS station located in Las Cruces, New Mexico. We are licensed by New Mexico State University and our offices are located on NMSU's Las Cruces campus. KRWG-TV is proud to be the only television station in southern New Mexico. We also provide unique services in the El Paso, Texas/Las Cruces, New Mexico service area.

Through meetings with citizens and community leaders, partnerships with area newspapers and other organizations, and extensive production of news and public affairs programming, the staff of KRWG-TV has determined the following issues are of primary importance to our coverage area:

Health/Welfare/Safety – While the over-all crime rate is no higher than the national average, poverty and a higher than average teenage population contribute to a gang and crime problem. Poverty also results in health and welfare issues including an above average social services caseload and a high number of welfare cases handled by the local hospital.

Culture – The mix of Hispanic/Native American/ and Anglo cultures provide many positive attributes to life in southern New Mexico. Cultural and historical understanding is of great importance.

Business - With an above-average unemployment rate and a below-average income level, the status of the business/agricultural community in southern New Mexico is crucial. Concern over the constant issue of defense spending at the federal level is ongoing in this area due to the presence of several military and NAS installations. Dona Ana County is also actively seeking new businesses and a strong infrastructure exists near the Santa Teresa Border Crossing to boost border trade.

Politics/Public Affairs – Southern New Mexico and the United States have a wide variety of contentious political issues that are of constant interest to the citizens of the involved communities.

Education – With a constantly growing population of children, many of whom use Spanish as their primary language, the school systems in the KRWG-TV viewing area are constantly trying to provide facilities and teachers to meet this growing school age population with limited funds. New Mexico is one of the poorest per-capita states in the nation, which results in a chronic shortage of funds for local education.

Water/Environment – KRWG-TV is located in a desert with two major sources of water: the Rio Grande River and an aquifer that supplies drinking water to Las Cruces and surrounding areas in the Mesilla Valley. Water is the lifeblood of the region and conflicts are escalating over the requirements of a growing urban population and agriculture.

Episode Title: Decoding da Vinci
Length: 60 minutes
Airdate: 9/3/2025 8:00:00 PM
Service: PBS
Format: Other
Segment Length: 00:00:00

How was Leonardo da Vinci able to think so far "outside the box" that he envisaged developments in engineering, astronomy, and anatomy that were only realized centuries later? The list of da Vinci's "firsts" is astonishing: he asserted that "the sun does not move" more than a generation before Copernicus; he reasoned that fatty deposits in narrowed arteries were caused by an unhealthy diet; he drew the first designs for a parachute, armored car, machine gun, diving suit, helicopter, and a flying machine that anticipates the modern hang glider, not to mention history's first humanoid robot. His inventions and insights have come down to us through his notebooks, each page packed with a profusion of ingenious ideas and breathtaking drawings but revealing little about his personal life or character. As a result, the man behind the Mona Lisa and a host of futuristic inventions remains a shadowy figure. Now, NOVA joins Walter Isaacson, author of the acclaimed recent biography, on a journey to Italy to explore the impact of da Vinci's art on his science and his science on his art.

"Take no prisoners. Fight to the bitter end." Those were everyday words to combat troops on both sides at the end of World War II in the Pacific. And they led to an unprecedented orgy of slaughter. In this provocative, thorough examination of the final months of the war, this film looks at the escalation of bloodletting from the vantage point of both the Japanese and the Americans. As the film will show, most of the Emperor's inner circle was determined to continue the war even after losses in the Philippines in February 1945 cut off Japan's supply lines. And though he was warned that the country, brought to its knees by the conflict, might erupt in a Communist revolution, Emperor Hirohito believed that one last decisive battle could reverse Japan's fortunes. The Americans, for their part, were startled by the intensity and determination of the Japanese defenders in the South Pacific. From the U.S. capture of the Mariana Islands, through the firebombing of Tokyo and the dropping of the atomic bomb, this program chronicles the dreadful and unprecedented loss of life and the decisions made by leaders on both sides that finally ended the war.

In New Mexico, the rate of gun deaths increased 76% from 2013 to 2022 according to everystate.org. The increase nationwide was 36%. In an average year in the state, 507 people die and 821 are wounded by guns. Victoria L. Sanchez lost her son Cody in a tragic shooting in 2020. He was 23 years old. Victoria joins us on “Fronteras: A Changing America” to talk about how she moved forward in her grief and how she helps others do the same.

9/11 Fronteras 1523 - "Birth of the Acid Western"

24:05

The late Orville Wanzer was a Brooklyn-raised NMSU English professor and pioneering filmmaker from the 60's, 70s, and 80s. His film “The Devil’s Mistress” was the first film made in Las Cruces, the first independent film made in New Mexico by a local, and was an early version of the “acid western” sub-genre.

9/18 Fronteras 1524 - Las Cruces Police Chief

25:45

Join Scott Brocato on Fronteras: A Changing America as he sits down with Las Cruces Police Department Chief Jeremy Story. Chief Story will discuss crime reduction in Las Cruces, the Young Park shooting six months later, the decision to use police with high-powered weapons to protect protesters in Albert Johnson Park in June, the prevalence of the synthetic opioid Carfentanil, and more.

9/25 Trails of Enchantment 203 - Carlsbad Caverns, Sunspot Solar Observatory, MV

Bosque State Park

24:09

In this next installment of Trails of Enchantment we explore Carlsbad Caverns, check out what they have at the Sunspot Solar Observatory, then take a stroll down to the Mesilla Valley Bosque state park and end our travels at the El Paso Holocaust Museum and study center.

9/27 Music Spotlight 609 - Sage Gentlewing

24:30

On this episode of Music Spotlight we feature Sage Gentlewing who claims to be old enough to have opened for Janis Joplin but current enough to have opened for artists such as Jason Mraz and Lucas Nelson. He was a nominee for Best Adult Contemporary Artist of the Year for the Phoenix Music Awards and a winner of the Producers Choice Awards for that same event. His song “James Dean’s Crash Site” won for “Best Song, Best Production, and Best Performance of an Original Song” at the New Mexico Music Awards in the Americana category. We’re pleased to welcome singer-songwriter Sage Gentlewing.

KRWG-FM Las Cruces, New Mexico
KRXG-FM Silver City, New Mexico
Quarterly Program Topic Report
3rd quarter, 2025

Through meetings with local community leaders, review of area newspapers and other publications, and production of daily newscasts (Monday-Friday), the staff of KRWG-FM/KRXG-FM has determined that the following issues are of primary importance to the citizens within our coverage area:

1. *Arts, Entertainment, and Culture* – The mix of Hispanic/Native American/ and Anglo cultures provide many positive attributes to life in southern New Mexico. However, this same mix results in an on-going undercurrent of conflict among the cultures. Cultural and historical understanding is of on-going importance in this area. The area includes a diverse mix of arts and entertainment, including local musicians and performance venues and efforts to build a film industry.

2. *Business, Economic Development, Environment* - With an above-average unemployment rate and a below-average income level, the status of the business/agricultural community in southern New Mexico is an important issue. Concern over the constant issue of defense spending at the federal level is ongoing in this area due to the presence of several military and NASA installations. Dona Ana County is also actively seeking new businesses and a strong infrastructure exists near the Santa Teresa Border Crossing, which is also a source of news and related issues. Environmental concerns are often at odds with economic development pressures.

3. *Local Public Affairs and Education*– Southern New Mexico has very intensive governance and political issues that are of constant interest to the citizens of the involved communities, which include a variety of elected and appointed officials. The area is also making efforts to improve education and has a variety of elected school boards.

Stories placed in these three main categories are broadcast on local newscasts each weekday (Monday-Friday) at 645, 745, 845, 1644, 1748, and 1844.

Story descriptions and broadcast time(s) are listed on the upcoming pages by topic area.
