Supplemental Outreach Activities

During the current reporting period, New England Public Media engaged in the following Supplemental Outreach activities:

1. Internship Programs

NEPM provides paid internship opportunities for students in News and with the organization's Education department. Internships are offered for a minimum of one semester, or during summer break, with hours ranging from 10-40 hours per week. Each internship has its own application deadline, and a separate pool of applicants is considered for each period. During the reporting period, information on available internships is posted on the Career Page of the NEPM website, on websites of the participating colleges and on Handshake. Interested students are required to complete an application indicating their area of interest along with a cover letter and resume.

Interns are exposed to core functions of their department and are supervised by members of the department. During this reporting period, NEPM hosted seven interns in News, and one in Education. News interns were students at the University of Massachusetts Amherst, Mt. Holyoke College, Hampshire College, Springfield College and Bay Path University while the Education intern attended Bay Path University.
