9:30pm Ready Jet Go!

Asteroids, Meteors, and Meteorites/Mindy's Meteorite Stand

Asteroids, Meteors, and Meteorites - Sean is determined to beat his mystery competitor at a video game of "Astro-Tracker." When Face 9000 tells the kids about the Asteroid Belt, Sean realizes that the best way to learn about asteroids is to see them for himself. Celery flies them out to space, and the kids learn the difference between an asteroid, a meteor, and a meteorite. Worried at first, Sean learns that only the rare asteroid (called a meteorite) makes it all the way to Earth, so he

decides that he'll become really good at "Astro-Tracker" to prepare for the future when he can be on a team of scientists who track rogue asteroids. Curriculum: Asteroids are small solar system bodies that orbit the Sun. Asteroids are similar to comets but do not have a visible coma (fuzzy outline and tail) like comets do. A meteor is a small asteroid that burns up as it passes through the Earth's atmosphere. A meteorite is a piece of asteroid that survives falling through the Earth's atmosphere and collides with the Earth's surface. Mindy's Meteorite Stand - When Mindy and Sunspot are digging in the yard, they discover a unique rock that Mindy is convinced is a meteorite. The kids conduct a series of tests to find out and amazingly the rock passes each test. "Meteorite fever" grips the neighborhood, as Mindy sets up a stand so people can see her meteorite, and bring her rocks to assess. In the end, a DSA scientist confirms that Mindy's rock actually isn't a meteor... but, wait, the random rock Mindy's sitting on is! Curriculum: Meteorites are pieces of space rocks (asteroids) that break up when they hit the Earth's atmosphere and fall in small pieces. Meteorites are older than any rock from Earth, and share certain characteristics: density (high), attraction to a magnet, and

rust.

10pm Super Why!

Solar System Bake-off! - Mindy and Carrot are entering a cooking competition and are making desserts representing the different planets of the Solar System. But they hit a bump when they can't remember if Saturn is cold on the inside and hot on the

outside... or the other way around. Jet, Sydney, and Sean fly with Celery out to Saturn to find out before the competition begins, so Mindy and Carrot can finish their entry in time! Curriculum: The planets in our solar system can be divided into two categories -- terrestrial (inner planets) and gas (outer planets). Saturn is a gas planet that seems to have a hot solid inner core of iron and rocky material surrounded by an outer core probably composed of ammonia, methane, and water. Kid-Kart Derby - Jet builds an electric engine from scratch for the annual soapbox derby competition, but Mitchell, determined to win the derby, is suspicious that Jet is using some alien technology. Curriculum: An ion drive engine is a very fuel-efficient engine for space vehicles. Ion beams are capable of propelling spacecraft at up to 10 times faster than ships propelled by chemical rockets.

10pm Super Why!

The Princess Who Loved Mud

Pig's big brothers are building houses with their blocks, but Pig wants to build something different. To solve this problem, the Super Readers jump into the musical book *The Princess Who Loved Mud*, where they meet Princess Reece. She'd rather jump in the mud than have tea parties and dance, but the other princesses don't like

mud at all. The Super Readers will have to help Princess Reece find a way to be herself while playing with her friends. Educational Objectives: To learn that it's okay for kids to be unique and play in their own way. Kids will sing the alphabet and identify the letters D, I, R, and T. They'll practice the magic of spelling and learn the word UNIQUE. Then they'll use the power to read to change the story and save the day.

Size Me Up

Hacker plans to launch a new virus at Motherboard - one that will crash her hard drive once and for all so he can take over cyberspace. To stop the kids and Digit from getting in his way, he tricks them into a cybersite from which escape seems impossible. In a confounding juxtaposition of scale and size, the kids first find themselves in a land of giants - then become giants themselves in a land of little people. The kids must cope with these disparities in scale and size, and use their brainpower to escape and

warn Motherboard before Hacker can launch his virus. The Big Idea: You can create an exact likeness of something--though one that is a different size--by multiplying the size of every part of your original by the same number. Math Topic: Scale and Size; NCTM Links: Geometry, Algebra.

In Happily Ever Afterville, the

Three Pigs have just finished building their new cottage at the base of Mount Evermore - a peaceful spot without any direct sunlight. They are celebrating with a housewarming party, and they've hired Jackie as their party planner! But trouble strikes when Hacker and Wicked, who are having a battle of wits above Mount Evermore, accidentally zap the mountain away. Now, the sun is streaming directly onto the pigs' house, and it is quickly heating it up inside! Meanwhile, Hacker starts feeling something very strange - guilt. Can the CyberSquad cool down the pigs' warming house and save their housewarming party? And will Hacker - for the first time ever - do the right thing?

9:30pm Ready Jet Go!

Mindy Pet-Sits

Sunspot/Treehouse ISS

Mindy Pet-sits Sunspot - Sean, Sydney, Jet, and Carrot head out to view the Northern Lights. Mindy, upset she can't go, gets a boost - Sunspot stays back and agrees to let her be his pet-sitter. As the group in the saucer searches for, yet can't find, the Northern Lights, Sunspot and Mindy work on a backyard project - making their own amazing backyard "Northern Lights" display! Curriculum: Northern lights (aka, aurora borealis) are a natural, awesome phenomenon. The origin of the aurora begins

when a cloud of gas is ejected from the Sun's surface. When it collides in Earth's atmosphere with oxygen and nitrogen, it produces dazzling auroral light. Treehouse ISS - When the kids realize that they all want to use the treehouse at the same time for different activities, arguments break out. Mindy tries to help by creating a schedule for each kid to use the treehouse alone. In the end, the kids realize they need each other's company and ideas in order to be successful in their own projects. In resolving their problem, the kids learn to think like the scientists on the International Space Station, who have to find a solution to the problem of getting along while doing different projects in a small space. Curriculum: The International Space Station (ISS) program is a great global human achievement in international cooperation. Countries work in partnership to support the experiments of scientists on the ISS, including observing space, growing plants in micro-gravity, and recording observations.

But how can they describe the odd-looking spell-breaker accurately so Jackie can make a reproduction that works?

9:30pm Ready Jet Go!

Date Night/Face on the Fritz

Date Night - When Jet realizes that it's the anniversary of Carrot and Celery's first date, he wants to recreate that first picnic they had on one of Bortron 7's moons. The kids all get involved to help create the

perfect date night. Curriculum: It's hard to have a picnic anywhere in the Solar System besides Earth - here we're not too near or too far from the Sun, so the temperature is just right, plus we have liquid oceans and a breathable atmosphere. Anywhere else, you'd definitely have a hard time enjoying a picnic outdoors. Face on the Fritz - When the kids are trying to build a new pet house for Sunspot and FACE 9000 gives them mixed-up directions, they learn that it is time for FACE 9000 to get upgraded. In the meantime FACE 9000's "substitute," the "DATA-BOX," is an old Earth computer from the early 1980s. The kids need to learn how to give instructions in the way computers understand, putting them in charge of using technology in an active way. When FACE 9000 comes back, they have learned to appreciate him, as well as to be more independent thinkers. Curriculum: Technology has advanced greatly since the days of the giant computers that guided man to the moon in 1969. However, even though technology is very useful, it is still a tool, not an end in itself, and people still need to know how to monitor and program it.

10pm Super Why's Comic Book Adventures

Outta Gravity! / Along Came a Space Spider! / In a Jam! Outta Space's Gravity Ray

10:30pm Xavier Riddle and the Secret Museum

I Am Mary Shelley/I Am Harry Houdini

I am Mary Shelley Xavier and the gang are excited for a Nature Troop campout, where Xavier has volunteered to tell the first campfire story.

There's just one problem: everyone is expecting a spooky story, but Xavier only knows how to tell silly stories.

What's he going to do? He doesn't want to disappoint everyone. To the Secret Museum! Our heroes are sent back in time to meet an expert spooky storyteller: Mary Shelley. Mary takes our trio on an imaginative playdate where she spins the leaves and wind into a very spooky tale, which Xavier can't help but turn funny. Is all hope lost?? Mary helps Xavier see that he can tell a story that's both spooky AND silly. The most important thing is to tell stories your own way.

Curriculum: "Tell stories your own way." I am Harry Houdini The time has come from Brad to spend his very first night in the museum, and he couldn't be more excited. Except, when the lights go out, Brad realizes it's kind of... gulp... scary there at night. Too afraid to stay put in his

sleeping bag, there's only one thing left to do... to the Secret Museum! Our heroes travel back in time to meet someone who knew how to face a scary situation: Harry Houdini. Harry wants nothing more than to be a brave performer, just like his hero, tightrope walker Fearless Jean. But, it turns out tightrope walking is scarier than he thought! Good thing Harry has a trick to help himself, and Brad, make it through to the end: when you're scared, take a deep breath to calm down and feel better. Curriculum: "When you're scared, you can take a deep breath to calm down and feel better."

9:30pm Ready Jet Go!

Comet Fever/Asteroid Patrol
Comet Fever - The neighborhood is having a star gazing party when Mindy discovers what may be a new comet. While Celery takes Jet, Sean, and Sydney out to space to get a close-up look at the comet, Carrot and Mindy decide to surprise the others and make their very own comet in the backyard using ingredients from home! Curriculum: A comet is an icy body that releases gas or dust. Comets are often compared to dirty snowballs. Occasionally a comet streaks through the inner solar system, creating quite a show! Asteroid Patrol - When Sean learns that asteroids are floating around the solar system (potentially), he decides to set up a homemade asteroid watch-station in the treehouse, and gets all the other kids involved. Eventually, Sean's mother and her colleague at

the DSA help Sean and the others understand how scientists monitor the skies for asteroids, a job that Sean doesn't need to do all by himself. Curriculum: Asteroids are mostly found in the Asteroid Belt. Occasionally an asteroid can break away from the gravity of the Asteroid Belt and intersect with the orbit of the Earth. When a small asteroid enters the Earth's atmosphere, it becomes a meteor and burns up.
