She trained many low income families in the culture of effective financial management through Habitat for Humanity and was a steadfast advocate of women entrepreneurs in Monroe County. The company Ann built, St. John Associates, provided community philanthropy for many local social services organizations and was located in the shadow of Hopewell at 1st and Morton Streets. Ann daily walked the B-Line and was a familiar friend to many up and down the Trail.

9/14/2026 10:16:11	Bloom Haven	Hearth Fire	"Bloom Haven" comes from the history page on the City website (Bloomington was established as an Indiana city in 1818 by a group of settlers from Kentucky, Tennessee, the Carolinas, and Virginia. The settlers were so impressed with "a haven of blooms" they called it Bloomington.) and haven works well with the history of the hospital. "Hearth Fire" comes from the Potawatomi culture of peoples that originally inhabited this land. They were a part of the 'Council of Three Fires' with the Ojibwe and Ottawa peoples and the Potawatomi name comes from them being referred to as the "Bodewadmi" (keepers of the fire). Other forms of the name also translate to "those that tend the hearth-fire of the Council" and "to tend the hearth-fire". Which I think ties in well with the old hospital and the goals of the Hopewell Project.

9/11/2026 9:34:19	Compass Lane	Option A. Meten	Compass Lane is the best choice because it provides a universally understood, easily navigable name that symbolizes direction, personal guidance, and finding one's bearings within a care-focused, supportive neighborhood. Next lane: For Option A, Metanoia Way is an exceptional choice because the word means a profound transformation of mind and heart, which beautifully captures the healing history of the old hospital site and perfectly matches the area's upcoming mental health infrastructure. For Option B, Cairn Lane- is a deeply symbolic and appropriate choice because a cairn is a traditional stone structure intentionally built to mark a safe trail, perfectly embodying the concept of community support and showing residents that they are on the right path. At any rate- hoping these thematic symbolisms for this area are taken into consideration when making the best choice! Thank you Ash
9/14/2026 12:00:18	Council	Monon	Council - Dedicated to the Local Council of Women (LCW). In 1905, this group of local female activists and volunteers mobilized to purchase the property, establish the hospital, and sustain it. 9/14/2026 19:01:22	Freya		Freya was the unofficial mascot of McDoel Gardens. A real cat's cat. Kitten in appearance, wise beyond her years. Friend to all, enemy to none. To be walking and stopped in your tracks by Freya flopping on the sidewalk in front of you was a true privilege. For a long while, she ruled Dixie Street and its alleys, and her fluffy, striped black and grey absence is truly missed. Please honor this sweet and fierce soul.

9/11/2026 11:37:16	Goldenrod Lane	Coneflower Lane	I landed on Goldenrod for three reasons: 1. It's easy to say for residents, visitors, and dispatchers. 2. We have four goldenrod varieties native to Indiana and you can regularly see them in Bloomington 3. Flowers are often tied to Spring, a season of newfound hope. I chose Coneflower Lane for similar reasons: Easy to say and hear in-person and via radio dispatch, it's native to our area in three varieties, and it has distinctive, bright colors.
