Dear Mr. Trusky,

We received your kind letter of July 27, 1986 and inform you that from all the films you are interested in we have in our collection only 2 reels of the film "Told in the Hills". These 2 reels have been preserved since 20-s when the film was distributed in this country. We restored them and made from them a new dupe negative. The original reels were destroyed as they were on inflammable film, were in bad technical shape and were dangerous as inflammable material.

Unfortunately we do not have other films interesting to you. We do not know ~~an~~ in which archive these films could be preserved.

*Mark Strotchkov*

Sincerely yours  
Mark Strotchkov  
Director
