Sherwood Forest: Top Secret

In 1943, a team of Oklahoma roughnecks were sent on a lengthy top-secret mission to Sherwood Forest, Nottingham, England, to drill for oil in an attempt to solve the problem of oil shortages in World War II. Although the story impacted the war's outcome, it seems to have remained top secret to the world.

Sherwood Forest: Top Secret follows the story of Samuel Lloyd Noble and his crew who, between March 1943 and March 1944, drilled 106 wells in a small oil field in Sherwood Forest. Their herculean efforts resulted in a yield of 3,520,553 barrels of oil, which helped to fuel the Invasion of D-Day and turn the tide on Hitler's campaign.

Her Name Was Grace Kelly

Considered one of the most beautiful actresses of her time, Grace Kelly remains an icon today. Her life and career are well documented, from her work in Hollywood and her marriage to Prince Rainier to her tragic death in a car accident in 1982.

Now, through an exclusive agreement with the Principality of Monaco, Grace's life story is told through the Grimaldi family's private archives and the eyes of those who loved her. The Grimaldi family has given access to materials never before made public.

The Amish Dilemma

This film offers a rare window into a conservative community reputed to be the most closed in the world, where the old remains the absolute reference in the face of modernity. Three generations of Amish make a rare decision to tell their stories after months of reflection and debate with their pastors.

How can they live between an ancestral ideology and a civilization of consumption pushed to the extreme?

Wild Horses – Tales from the Puszta

The Puszta on the Hungarian plains is home to the largest wild horse herd. Some decades ago, the rare species of the Przewalski's horse nearly went extinct in their original habitat of Mongolian. The remaining few animals found a new home on the famous steppes of Hungary, where they started to thrive on the largest plains of Central Europe.

Wild Horses follows this 300-strong herd of interwoven families. Filmed over three years, the film is a journey into the secret world of the Przewalski's horse, told through the perspective of a young foal named Dot.

Peter Falk Versus Columbo

For millions of television viewers, Peter Falk is Columbo: the eccentric, astute upholder of the law in his wrinkled trench coat who always asked "Just one more thing." Despite playing the quintessential TV detective of the 1970s

and 1980s, his early career is rarely explored. This riveting film traces Falk's life and enduring legacy.

The Addict's Wake

This film watches one American county come to grips with arguably the biggest public health crisis in America: Substance Use Disorder. Hear from the teachers, law enforcement officers, and community leaders working hard to stem the tide of addiction that is consuming communities across the country. See the issue play out in courts, treatment centers, and faith-based programs. Come alongside a community searching for solutions and hope on the long journey from addiction to recovery. **The Addict's Wake** shows the depth of the crisis, but also sheds light on a path forward.

Once Upon a Time in Northern Ireland

This powerful new five-part series gives voice to the people who lived through Northern Ireland's violent past by exploring the decades-long conflict through the intimate testimony of ordinary men, women, and children who were drawn—both willingly and unwillingly—into the bitter clashes that rocked the nation and who are still struggling to hold on to a fragile peace today.

The opening episode charts Northern Ireland's progression from relative peace to fullblown conflict. When tensions between Catholic and Protestant communities explode, the British Army is deployed. When 13 unarmed Catholics are shot dead in Derry by British Paratroopers, the world looks on in shock. Known as "Bloody Sunday," it has far reaching political consequences.

Blind Trust: Leaders & Followers in Times of Crisis

Republicans, Democrats, neo-Nazis, antifascists, religious groups and even nations share a common need to reinforce and defend their identities, according to Dr. Vamik Volkan, a five-time Nobel Peace Prize nominee who shaped the leading model of conflict resolution that is used around the world today. As leaders vie for power, they create large group identities to motivate their bases.

"People who replace their personal identity with large group identity can become nationalists or racists or zealots," Volkan said. The large group identity relies on chosen traumas to give the group a sense of unity. In some cases, perceived threats or insults can trigger those traumas and release underlying aggression. Shared aggression has been used from the beginning of human history. Wars have been fought to protect large group identity. They've used rocks and swords and guns and now they push a button and kill somebody, he said.

Filmmakers are hopeful that **Blind Trust** provides a deeper understanding of the nation's divisions and the group dynamics that fuel those divisions.

Rip Current Rescue

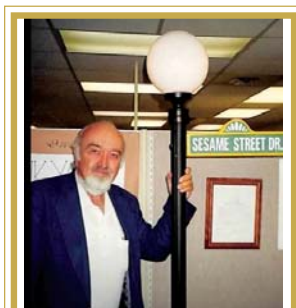

Rip currents are America's greatest beach hazard, and every summer these dangerous currents are responsible for up to 80% of all beach rescues and dozens of deaths. This film tells dramatic stories of life saving, survival, and real-life heroes filmed across America's beaches. These compelling stories, augmented with scientific information and clear illustrations, help us understand rip currents, to know how to spot them, and what to do if you ever find yourself in the grip of a rip.
