IMPORTANT NOTICE

Evergy Metro, Inc. d/b/a Evergy Missouri Metro ("Evergy Missourit Metro" or "EMM") and Evergy Missouri West, Inc. d/b/a Evergy Missouri West ("Evergy Missouri West" or "EMW") have filed an application for the Missouri Public Service Commission ("PSC") to grant three Certificates of Convenience and Necessity (CCN) to construct, install, own, operate, manage, maintain, and control new generating facilities. The first CCN request is for a new natural gas electric generation plant known as Buchanan Bluffs Unit 2, located in Buchanan County, Missouri, to be owned 50% by EMM and 50% by EMW. The Applicants request that they each be granted a CCN. Additionally, EMW requests a CCN that authorizes it to construct, install, own, operate, manage, maintain, and control a battery energy storage system ("BESS") known as the Foxtrot BESS Project, to be located in Jasper County, Missouri, next to the site of EMW's Foxtrot Solar Project, granted a CCN in July, 2025.

The PSC is holding three public hearings where customers can ask questions and testify about Evergy's application. Customers are encouraged to participate in the hearings.

The hearing is divided into two parts. In the first part, you may ask questions of Evergy, the Missouri Office of the Public Counsel ("OPC"), and the PSC Staff. In this first part, the PSC Commissioners and the regulatory law judge presiding over the case will not be present. Your questions, and the answers provided will not be part of the evidence the PSC reviews.
