6.1 Telling Public Radio's Story

1. Describe your overall goals and approach to address identified community issues, needs, and interests through your station's vital local services, such as multiplatform long and short-form content, digital and in-person engagement, education services, community information, partnership support, and other activities, and audiences you reached or new audiences you engaged.

In 2022, Siouxland Public Media took into consideration listener feedback gathered from surveys and online data to select new programming that would better serve our audience. The feedback and data pointed toward a need for more news, local and national. We heard that, especially with the decline of our local newspaper, which has reduced the number of issues per week as well as the number of reporters at work, there was a growing lack of local coverage. We are emphasizing coverage of local government to help meet the growing need, and we are continuing to find ways to bring our broadcasts into the community through remotes and events. We have also taken into consideration the population of our service area and taken notice of the lack of coverage designed for non-dominant people and cultures. Having provided services in non-English languages, we also know that there is a demand for such services. With the Friends of Siouxland Public Media, we are developing programming that will serve these audiences on the air and online, through podcasting and site posts. It is our goal to build audiences for this programming that feel empowered by the content and more engaged in our community. The station has also identified media literacy as an important educational component of our outreach. To help us reach young people and encourage them to think critically of media, we have developed a working relationship with the Sioux City Community School District. This partnership has resulted in the production of a weekly series called Weather Boss, where two elementary students per week write, voice, and record a weather spot that includes a factual presentation of climate. The children, by participating in this program, learn to research and report fact-based information, and when they hear the broadcast, they hear their own reporting in the context of national and local news that is held to the same reporting standards. Additionally, this year we have been working with a bilingual school, so the reports are coming in English and Spanish, helping us to move toward our goals of reaching non-dominant audiences.

2. Describe key initiatives and the variety of partners with whom you collaborated, including other public media outlets, community nonprofits, government agencies, educational institutions, the business community, teachers and parents, etc. This will illustrate the many ways you're connected across the community and engaged with other important organizations in the area.

First Fifty Pages and Check It Out: Check It Out began as an initiative to highlight and cultivate reading culture, featuring short reviews by librarians from the Sioux City Public Library. Following the success of CIO, we developed the First Fifty Pages, a podcast that digs deeper into the world of reading and libraries, hosted by two librarians from the Sioux City Public Library. Weather Boss: this initiative resulted from a partnership between Siouxland Public Media and the Sioux City Community School District. Each week we students at Irving Dual Language Elementary write and record a weather report in both English and Spanish, which includes a presentation on the sciences they are learning in school. The children have loved the opportunity to be on the radio, as well as featured online, but, more importantly, are learning to build their reports around facts. The AWE Podcast: working with our colleagues in the counseling and DEI departments at Western Iowa Tech Community College, we are producing and distributing a podcast focused on mental health and well-being.

3. What impact did your key initiatives and partnerships have in your community? Describe any known measurable impact, such as increased awareness, learning or understanding about particular issues. Describe indicators of success, such as connecting people to needed resources or strengthening conversational ties across diverse neighborhoods. Did a partner see an increase in requests for related resources? Please include direct feedback from a partner(s) or from a person(s) served.

Our partnership with the library continues to have a positive impact on literacy in our community. When we focus on a particular book, Circulation sees an immediate increase in demand for that book. Over fifty children have participated in Weather Boss, giving them all the opportunity to write and voice a report that the community relies upon. From their programs, we hear how much this means to the kids, how it is empowering and confidence building. We are especially pleased to highlight the bilingual programming at Irving Dual Language Elementary. Programming both Spanish and English in the same time period has brought a positive response from listeners, even those listeners who do not speak one of the languages. They frequently point to the happiness they feel when hearing the Bosses.

4. Please describe any efforts (e.g. programming, production, engagement activities) you have made to investigate and/or meet the needs of minority and other diverse audiences (including, but not limited to, new immigrants, people for whom English is a second language and illiterate adults) during Fiscal Year 2022, and any plans you have made to meet the needs of these audiences during Fiscal Year 2023. If you regularly broadcast in a language other than English, please note the language broadcast.

Our News for All initiative, sadly, lost funding in 2022. This initiative, which led to the production of news in Oromo, Amharic, Vietnamese, Somali, and Spanish, was reaching diverse audiences and providing essential service. Our CAB is hoping to help find paths that would bring this service back. We do continue to produce a Spanish language music program on Sunday nights, and our Weather Boss feature includes a weather forecast in Spanish. We are developing a project under the name of AMPLIFY, designed to amplify the BIPOC voices in our community. The intention is to have both an on-air and online service.

5. Please assess the impact that your CPB funding had on your ability to serve your community. What were you able to do with your grant that you wouldn't be able to do if you didn't receive it?

Our work, our existence as a station, would be impossible without the funding of the CPB. Like many similarly situated stations, the Community Service Grant makes up a significant amount of our budget. But what we do with it is remarkable. We are able to dedicate what few resources we do have to employing full-time reporters who produce hundreds of hours of content each year. We can carry NPR programming, which thousands of people rely upon and trust. The mix of the two, our local news and NPR's programming, is remarkable. And as we see our peers in news-gathering losing ground, firing reporters, what we offer becomes ever more important, ever more needed. If we can highlight one lesson learned from the pandemic, it is the absolute need for good information.

7.1 Journalists

Jump to question: 7.1

This section builds on the Census of Journalists conducted by CPB in the summer of 2010. These positions are the primary professional full-time, part-time or contract contributors to local journalism at your organization. The individuals in these positions will have had training in the standards and practices of fact-based news origination, verification, production and presentation. These are generally accepted titles for these positions but may not match position descriptions at your organization exactly. Please do your best to account for each professional journalist in your organization. Please do not count student or volunteer journalists.
