**Questions for discussion:**

1. How do you currently gather local news?
2. Is there local news coverage that you would like to see, but can't find?
3. How has your news consumption changed over the past 5-10 years? What's gotten better? What's gotten worse?
4. What news sources do you trust? Are there local news sources you don't trust? Why or why not?
5. In a time of crisis (think building collapse or tornados), where do you first turn for important breaking news?
6. In making important decisions that require investigation (think elections or municipal decisions), where do you go to gather your information?
