Our Mission

The core mission of KZYX is to promote community through increased communication, cultural offerings, diverse voices, and access to important information among all groups in our large and varied listening area.

About KZYX

KZYX public radio serves approximately 90,000 residents of Mendocino County in beautiful Northern California. Mendocino County Public Broadcasting (MCPB) is the 501(c)(3) that operates KZYX. We provide news, information, culture, and entertainment from around the globe and from just around the corner. KZYX is a member-supported community radio station with both locally produced programs from nearly 100 friends and neighbors who are volunteer programmers, and with nationally syndicated programs from NPR, PRI, APM and Pacifica. When there are fires, road closures, or other emergencies, we're the place to go on the radio dial for emergency information. KZYX also streams via kzyx.org.

KZYX is an Equal Opportunity Employer.
