Tallahassee, Florida 32399-0400

RE: Ensure All of Florida's Children are Safe at School

SENT VIA EMAIL

Dear Commissioner Diaz:

We, the undersigned, call on you to protect all of Florida's students from harsh immigration enforcement actions that will traumatize youth and school staff, cause profound disruption to school activities, and put the safety and well-being of our children at risk. Article IX of the Florida Constitution states, "Adequate provision shall be made by law for a uniform, efficient, safe, secure, and high quality system of free public schools that allows students to obtain a high quality education."¹ Per the Florida Constitution, schools are designated safe places. School-based immigration actions threaten all students' sense of safety and learning. As such, we urge you to provide guidance to school districts that:

- Affirms the right —protected by federal law — of all students to a free public education, regardless of immigration status.
- Prohibits federal immigration officials (or state and local authorities acting on their behalf) from entering school grounds unless they have received prior review and approval by district legal counsel.
- Ensures school staff, students, and parents know their rights.
- Prohibits collection of student immigration status and ensures that all requests for information align with the Family Educational Rights and Privacy Act (FERPA) and are referred to the district superintendent's office before any information is released.
- Blocks school administration, staff, and faculty from becoming de facto immigration officials (e.g., detaining or searching students, inquiring about status).

¹ Art. IX, §1(a), Fla. Const.

- Requires the policies outlined above to be published and posted prominently on all school sites and shared with parents/guardians in the languages spoken in the students' homes.

School-based immigration enforcement actions would create a climate of fear, confusion, and division in Florida classrooms, which are supposed to be places where students can feel protected. Taking the recommended steps above would send a powerful message that the state is standing up for all Florida children and prioritizing students' well-being.

Sincerely,
