Farm Girl School - 2022
One day, there was a little girl named Lily Smith. Lily and her parents were going to a pet store. Lily was the only kid in her family, so her mom and dad asked if she would like a pet to play with. Lily also didn’t have any friends. She was so happy to finally have someone to play with.

At the pet store, there were fish, birds, kittens, and puppies. Lily liked the kittens, but she really wanted a puppy. All of the puppies were cute and she didn’t know which one to pick. Then, Lily saw a Golden Retriever puppy. She told her mom and dad that she wanted that one. They asked, “are you sure that’s the one you want?” “Yes!” she answered. Lily’s
parents purchased the puppy and they all left. As soon as they
got into the car, Lily said, “I think I’ll name her Sunshine.”

Once they were home, Lily was excited to get in the house
and play with her new puppy. They walked through the door
and Sunshine seemed very happy. When Lily put Sunshine
down she ran like CRAZY! While Sunshine was running,
Lily ran upstairs and got some toys for her new puppy to play
with.

The next day was Lily’s birthday. She was going to be 12 years
old. She was very excited! All of her mom and dad’s friend’s
were coming. She wished she had friends to invite, but she was glad she had Sunshine to play with.

When all of her mom and dad’s friends arrived, there were a lot of people at the house. Lily couldn’t believe it. Mom and her friends were talking about dresses. Dad and his friends were talking about their jobs.

It was time for dinner. Afterwards, they all had cake. Then, Lily began opening her presents. She got a doll, a play house, a bed for her puppy, and a new dress. She loved her presents!
Her favorite present was the bed for her puppy, because she had to stay in a cage.

Lily noticed that there was another present from her mom and dad. She couldn’t wait to open it! When she opened it, she saw that it was a card. Lily didn’t understand why a card was in such a big box. It was a blue card and it said, “To Lily: We hope you have a good birthday. We all three love you. Love, Dad, Mom, and your baby brother.” Lily stopped smiling and just stood there. Then, she started to smile again. She had always wanted a sister or brother. She ran to hug her mom and dad and she started to cry.
