Civilizations is a visually stunning nine-part series that tells the story of art from the dawn of history to the present day from a global perspective.

Jesus: Countdown to Calvary deconstructs the week leading up to Jesus's death. In live cabaret-style performances, five of musical theater's biggest stars celebrate the musical traditions of Broadway in Live From Lincoln Center at the Appel Room.

Masterpiece presents "The Child in Time," a riveting 90-minute drama starring Benedict Cumberbatch, followed by "Unforgotten," a gripping six-part UK mystery.

"Hannibal in the Alps" on Secrets of the Dead explores which of four routes Hannibal and his vast army took over the treacherous mountains to attack Rome from the north, a feat Romans believed to be impossible.

Music Row: Nashville's Most Famous Neighborhood describes how a group of ordinary bungalows led to Nashville's title as Music City, USA.

The two-part Spying on the Royals looks at what may be the most contentious instance of surveillance in British history.

First Civilizations is a four-part series that looks at the history of the first six human civilizations, from which all other civilizations have been derived.

Independent Lens premiers "What Lies Upstream," an exposé that reveals that the entire system that Americans assume is protecting their drinking water is fundamentally broken, and "True Conviction," in which three innocent and newly exonerated Texans form a detective agency to help free other innocent people still behind bars.

Frontline looks at Trump's high-stakes battle for control of the Republican party in "Trump's Takeover"; Senator John McCain's life and politics in "McCain"; and Guatemalan teens forced to work against their will in "Trafficked in America."

POV presents "Bill Nye: The Science Guy," a portrait of the man who now runs The Planetary Society's mission to launch a solar propelled spacecraft.

Nova Wonders is a new six-part series that tackles some of the most provocative unanswered questions about the cosmos and life.

Power to Heal: Medicare and the Civil Rights Revolution chronicles the struggle to secure equal and adequate healthcare for all Americans.

GI Jews: Jewish Americans in World War II spotlights the little-known story of the 550,000 Jewish Americans who served their country in all branches of the military. As the Donald Trump administration considers eliminating funding for public media, PBS launches In Principle, a conservative talk show series.

CIVILIZATIONS

Civilizations is a sweeping, visually stunning nine-part series that tells the story

of art from the dawn of human history to the present day—for the first time on a global scale. Inspired by **Civilization**, Kenneth Clark's landmark 1969 acclaimed series about Western art, this bold new series reveals the role art and the creative imagination have played in the forging of humanity itself, and introduces a new generation to works of beauty, ingenuity, and illumination created across cultures and continents.

Civilizations is filmed on six continents: Africa, Asia, Australasia (Australia, New Zealand, and neighboring islands in the South Pacific Ocean), Europe, and North and South America. State-of-theart drone and camera technology allow viewers to immerse themselves in the extraordinary locations and see the world's treasures in new ways, bringing remote objects up close in order to celebrate detail, craftsmanship, and artistry as never before.

From the landscape scrolls of classical China and the sculpture of the Olmecs to African bronzes, Japanese prints, and French Impressionist paintings; from the stained glass windows of Chartres cathedral to Matisse's cardboard cut-outs; from the great dome of the Suleymaniye mosque to the paintings of the Dutch Golden Age; and from Hokusai's *Wave* to Monet's Rouen cathedral series,

Civilizations goes inside some of the world's greatest museums, historic locations, cathedrals, and mosques to provide viewers access to priceless works of art and architecture.

Some of the most spectacular works of art the world has ever seen have been inspired by spiritual

devotion, raising challenging questions about the relationship between humans, the divine, and the act of creating.

Underlying the series is an exploration of the premise that it is through the creative imagination that humanity expresses its most essential self and looks for the fundamental meaning of life.

Civilizations can be seen on 3-2 Tuesdays at 7:00 p.m. beginning the 17th, and Sundays at 10:00 a.m. and 9:30 p.m. beginning the 22nd. On 3-1, the series airs Wednesdays at 7:00 p.m. beginning the 18th and Thursdays at 7:00 a.m. beginning the 19th.

Jesus: Countdown to Calvary Traces His Last Days

Regardless of one's religious beliefs, there is no denying the impact Jesus of Nazareth has had on world history, particularly the events surrounding his death. In **Jesus: Countdown to Calvary**, Hugh Bonneville, well-known actor (Downton Abbey) and a Cambridge theology gradu-

ate, travels to Jerusalem in search of answers.

Exploring questions that have provided more than 2000 years of debate, the riveting new documentary offers fascinating insight from both religious and historical angles. Hugh and his guides utilize ancient artifacts, Gospel texts, historical analysis, and modern insight to provide a fresh per-

spective on the social, religious, and political tensions at play in first century Jerusalem.

The legacies of leading figures like Pontius Pilate, Caiaphas, and Judas Iscariot are brought into focus. Long-held assumptions, some of which formed the root of centuries of anti-Semitism, are challenged head on.

Jesus: Countdown to Calvary will be broadcast on 3-2 Sunday, the 1st at 10:00 a.m., 6:00 p.m., and 10:00 p.m. On 3-1, it airs Sunday, the 1st at 12:00 noon and 9:00 p.m.

Live III

FROM LINCOLN CENTER at the Appel Room

Over four nights in December, five of musical theater's biggest stars celebrated the rich musical traditions of Broadway and beyond. Now, **Live From Lincoln Center** brings these hourlong, cabaret-style performances to you.

The four-part series shines the spotlight on the voices and talents of Sutton Foster, Jonathan Groff, Leslie Odom Jr., Andrew Rannells, and Stephanie J. Block. Each performance is crafted around signature songs and music that has shaped each

artist's journey, all performed with a world-class band.

The series begins with "Sutton Foster in Concert," the two-time Tony winner, who with her irresistible blend of show-stopping talent and effusive charm, is Broadway royalty.

The sold-out concert is set in the beautiful Appel Room, one of New York City's most dramatic and breathtaking backdrops: a 50' by 83' wall of glass overlooking Central Park, Columbus Circle, and the Manhattan skyline.

Sutton Foster

Live From Lincoln Center will be broadcast on 3-2 Fridays at 9:00 p.m. beginning the 20th and Sundays at 6:00 p.m. beginning the 22nd. On 3-1, the series airs Saturdays at 7:00 p.m. beginning the 21st.

-Masterpiece.

The Child in Time

Time stops when the heart breaks.

An everyday moment triggers a crisis in the lives of a happy, successful British couple in Ian McEwan's haunting tale of a lost child and redeemed love, in "The Child in Time," starring Benedict Cumberbatch and Kelly Macdonald, and airing on **Masterpiece**.

In the 90-minute drama, Cumberbatch stars as Stephen Lewis, a noted children's book author, and Macdonald plays his wife, Julie, a professional musician. They

are the doting parents of Kate (Beatrice White), an impish four-year-old, their only child. Then one day Kate mysteriously disappears during a shopping outing with Stephen. It's every parent's worst nightmare, and it upends Stephen and Julie's lives in extraordinary ways.

Missing for three years, Kate haunts every aspect of Stephen's life—as a phantom at his side, a voice in his ear, a fleeting glimpse in a crowd of school children.

Estranged from Julie due to the stress

of their mutual loss, Stephen makes an attempt to reconnect, going to the village where she now lives. There he is overcome with a powerful feeling of déjà vu at a local pub. He is certain he has been there before, but he can't think when.

With the gentlest touch of the fantastical, this riveting story takes viewers in and out of the present, past, and future, exploring the twin themes of the title—childhood and time—and leading to a conclusion that is as surprising as it is gratifying.

"The Child in Time" on **Masterpiece** will be broadcast on 3-2 Sunday, the 1st at 8:00 p.m. and repeats Friday, the 6th at 10:00 p.m. On 3-1, it airs Sunday, the 1st at 7:00 p.m. and repeats Monday, the 2nd at 1:00 p.m.

Unforgotten

Cold cases make the hottest drama!

Two stone-cold cases of murder test the wits of crime-solving duo DCI Cassie Stuart and DS Sunny Khan, played by Nicola Walker (Last Tango in Halifax) and Sanjeev Bhaskar (Indian Summers), in two back-to-back seasons (six episodes) of the gripping new UK mystery series "Unforgotten," airing on Masterpiece.

Season 1 of the critically-acclaimed series opens with a human skeleton found beneath a demolished

house. The remains could be centuries old—or four decades, as comes to light upon further investigation of the crime scene.

Cassie and Sunny eventually discover the victim was a young man missing

since 1976, and his nearly-disintegrated pocket diary implicates four seemingly unconnected couples. But identifying the body only inspires more questions, as individuals implicated deny ever knowing the victim.

"Unforgotten" on **Masterpiece** airs on 3-2 Sundays at 8:00 p.m. beginning the 8th and repeats Fridays at 10:00 p.m. On 3-1, it airs Sundays at 7:00 p.m. beginning the 8th and repeats Mondays at 1:00 p.m.

Hannibal in the Alps

Hannibal, one of history's most famous generals, achieved what the Romans thought to be impossible. With a vast army, he crossed the

mighty Alps in only 16 days to launch an attack on Rome from the north. For the following 15 long years, Hannibal waged a campaign of annihilation throughout Italy. Since that time, nobody has been able to prove which of the four possible routes over the Alps Hannibal actully took ...until now.

In Capua, Italy, this marble bust is reputed to be that of Hannibal.

In Secrets of the Dead "Hannibal in the Alps," a team of explorers, archaeologists, and scientists combine state-of-the-art technology, ancient texts, and a recreation of the route itself to prove conclusively where Hannibal's army made it across the Alps—and exactly how and where they did it.

The famous crossing of the Alps occurred in 218 BC, a period when Carthage and Rome were competing for world dominance. Hannibal traversed the mountains with a force of more than 30,000 soldiers, 15,000 horses, and most famous of all—37 war elephants. It took nine days to reach the high top of the mountain. On the climb, donkeys carried 220 pounds of hay, enough food to feed one horse for 20 days. But the numerous horses as well as the appetites of the elephants meant that food supplies quickly ran out.

Secrets of the Dead "Hannibal in the Alps" can be seen on 3-2 Tuesday, the 10th at 7:00 p.m., Sunday, the 15th at 10:00 a.m., and Monday, the 23rd at 10:00 p.m. On 3-1, it airs Tuesday, the 10th at 8:00 p.m.

MUSIC ROW:

Nashville's Most Famous Neighborhood

Music Row: Nashville's Most Famous Neighborhood tells the story of how a group of ordinary bungalows became the heart of the country music industry, and led to Nashville's title as Music City USA.

Narrated by singer-songwriter Pam Tillis, the film focuses on the rise of the Grand Ole Opry and the

subsequent opening of recording studios in the downtown area. It also looks at the beginning of Music Row and how it developed into a complete neighborhood housing the full spectrum of the music

industry—from session musicians and recording engineers, to record labels and entertainment lawyers.

Music Row: Nashville's Most Famous Neighborhood will be broadcast on 3-2 Thursday, the 5th at 7:00 p.m. and Monday, the 9th at 10:00 p.m. On 3-1, it airs Monday, the 2nd at 7:00 p.m. and Tuesday, the 3rd, at 7:00 a.m. and 2:00 p.m.

Spying on the Royals

Britain's Most Controversial Espionage Operations

Spying on the Royals is a compelling two-part documentary that shows a rarely explored side to the infamous romance between King Edward VIII and Wallis Simpson. Unbeknownst to the couple, intelligence agencies were tracking their phone calls and recording their conversations, and the revealed dialogues would become part of a great modern controversy.

Sharing the secret files of those who spied on Edward VIII, Wallis Simpson, and a kingto-be, as well as eyewitnesses still living to-day, **Spying on the Royals** looks at what may be the most contentious instance of surveillance in British history.

On the weekend of December 5th, 1936, a frazzled King Edward VIII sat alone at Buckingham Palace. In secret, he telephoned his brother Bertie to tell him of his major decision—that he could no longer be King if it meant abandoning the woman he loved,

Wallis Simpson. But little did the royal brothers know that others were covertly listening to their private phone calls.

Declassified documents bring to light the secret story behind the events that stunned the world eighty years ago. Both Edward and Wallis were considered major security threats and were suspected of having Nazi sympathies by both Britain and America. This top-secret surveillance operation involved hundreds of spies over eleven years, spanning two continents, eight countries, and the Atlantic Ocean. Edward and Wallis were bugged, wire-tapped, and followed—on the orders of both the British king and the American president.

Spying on the Royals airs on 3-2 Fridays at 9:00 p.m. beginning the 6th and Sundays at 9:30 p.m. beginning the 8th. On 3-1, it airs Mondays at 7:00 p.m. beginning the 9th and Tuesdays at 7:00 a.m. beginning the 10th.

First Civilizations

Looks at the Six Earliest Human Civilizations

First Civilizations, a four-part series, is a follow-up to the 2015 PBS series **First Peoples**.

Human civilizations first emerged in the Near East, Egypt, the Indus Valley, China, the Andes, and Mesoamerica. All subsequent civilizations have been derived from these original six foundational civilizations. The series breaks down the history of these first civilizations by topics: warfare, agriculture, religion, and trade.

First Civilizations will be broadcast on 3-2 Tuesdays at 8:00 p.m. beginning the 24th and Sundays at 10:30 p.m. beginning the 29th. On 3-1, it can be seen Wednesdays at 8:00 p.m. beginning the 25th.

FRONTLINE

Trump's Takeover

Frontline goes inside President Trump's high-stakes battle for control of the Republican party. It looks at how Trump attacked fellow Republicans and used inflammatory rhetoric that rallied his base.

This film airs on 3-2 Tuesday, the 10th at 10:00 p.m. and Thursday, the 12th at 7:00 p.m. On 3-1, it airs Friday, the 13th at 9:00 p.m.

McCain

"McCain" examines the Senator's complicated relationship with President Trump and his own Republican party. It looks at McCain's life and politics, from POW in Vietnam, to choosing Sarah Palin as running mate, to his dramatic vote against the GOP's health care bill.

"McCain" airs on 3-2 Tuesday, the 17th at 10:00 p.m. and Thursday, the 19th at 7:00 p.m. On 3-1, it airs Friday, the 20th at 10:00 p.m.

Trafficked in America

This is the inside story of how Guatemalan teens were forced to work against their will in Ohio. It exposes a criminal network that exploited undocumented minors, companies profitting from forced labor, and the US government's role.

"Trafficked in America" airs on 3-2 Tuesday, the 24th at 10:00 p.m., and Thursday, the 26th at 7:00 p.m. On 3-1, it airs Friday, the 27th at 10:00 p.m.

INDEPENDENT Lens

What Lies Upstream

In January 2014, West Virginians noticed that their tap water had a peculiar smell. It was soon discovered that a mysterious chemical, MCHM, had leaked into the Elk River from a damaged tank at a nearby chemical plant, poisoning the drinking water supply for nearly half of the state's citizens—over 300,000 Americans.

In "What Lies Upstream" on **Independent Lens**, an unsettling exposé, investigative film-maker Cullen Hoback uncovers a shocking failure of regulation from both state and federal agencies and a damaged political system where chemical companies often write the laws that govern them. While he's deep into his research in West Virginia, a similar water crisis strikes Flint, Michigan, revealing that the entire system that Americans assume is protecting their drinking water is fundamentally broken.

"What Lies Upstream" on **Independent Lens** will be broadcast on 3-2 Monday, the 16th at 9:00 p.m. On 3-1, it can be seen Sunday, the 22nd at 9:00 p.m.

True Conviction

There's a new detective agency in Dallas! After serving a combined 60 years in prison for crimes they did not commit, three recently exonerated Texans—Christopher Scott, Johnnie Lindsey, and Steven Phillips—join forces to form the unlikeliest of investigative teams. Their mission: to free other innocent people still behind bars. After all, who better than three innocent and freshly exonerated men to sniff out false evidence or corrupt cops and DAs?

"True Conviction" on **Independent Lens**, a hardboiled yet rousing documentary, follows these change-makers as they rebuild their lives and families, learn to investigate cases, work to support each other, and campaign to fix the criminal justice system.

The investigators focus their attention on the cases of Max Soffar, a death row inmate of 35 years who was forced into a triple murder confession as a young man, and Isaiah Hill, sentenced to life in prison on aggravated assault charges after refusing a plea bargain.

"True Conviction" on **Independent Lens** airs on 3-2 Monday, the 30th at 9:00 p.m. The episode can be seen on 3-1 in May.

Bill Nye: The Science Guy

"Bill Nye: The Science Guy" begins the 31st season of **POV** (Point of View). The former star of the popular PBS KIDS show now runs The Planetary Society, founded by Nye's mentor, Carl Sagan, where he's launching a solar propelled spacecraft into the cosmos and advocating for the importance of science, research, and discovery in public life.

Nye is on a mission to stop the spread of anti-scientific thought and action. This portrait of Nye follows him as he takes on those who deny climate change, evolution, and a science-based world view. He goes head-to-head with prominent creationist Ken Ham, whose Creation Museum features displays that suggest that humans lived alongside dinosaurs and that the earth is 6,000 years old. Nye also takes on climate change skeptic, meteorologist, and occasional Fox News commentator Joe Bastardi.

Nye is joined by Neil deGrasse Tyson, Ann Druyan (who wrote the 1980 PBS series **Cosmos**, hosted by Carl Sagan, whom she married in 1981), and many other notable voices in the field.

POV "Bill Nye: The Science Guy" can be seen on 3-2 Wednesday, the 18th at 9:00 p.m. On 3-1, it will be broadcast Wednesday, the 18th at 10:00 p.m.

NOVA Wonders

Nova Wonders is a new six-part series that follows remarkable researchers who are tackling the biggest, most provocative unanswered questions about life and the cosmos.

Each week, **Nova Wonders** poses a single big scientific question and takes viewers along on a journey to explore how far we've come in our quest for answers. The intriguing topics pondered in this first season are "What Are Animals Saying?"; "What's Living In You?"; "Can We Build A Brain?"; "Are We Alone?"; "Can We Make Life?"; and "What's The Universe Made Of?"

The series travels to some unexpected places to look for answers—including deep underwater, where humpback whales are essentially playing a game of "telephone" across the world, with pods teaching each other new songs; deep beneath our skin, where *trillions* of microbes are living in our bodies; deep below the earth, in mines where researchers are trying to detect elusive dark matter particles; deep into space, where astrophysicists are hunting for signs of extra-terrestrial life, and more.

Nova Wonders airs on 3-2 Wednesdays at 8:00 p.m. beginning the 25th and Saturdays at 10:00 p.m. beginning the 28th. On 3-1, it airs Thursdays at 2:00 p.m. beginning the 26th and Fridays at 9:00 p.m. beginning the 27th.

Power to Heal: Medicare and the Civil Rights Revolution

This is the story of how a new national program, Medicare, was used to mount a dramatic, coordinated effort that racially desegregated thousands of hospitals across the country, all in a matter of months in 1966. Using the carrot of Medicare dollars, the federal government virtually ended the practice of segregating patients, doctors, medical staffs, blood supplies, and linens.

As one of the least known chapters of the civil rights movement, **Power to Heal: Medicare and the Civil Rights Revolution** chronicles the historic struggle to secure equal and adequate access to healthcare for all Americans.

Power to Heal: Medicare and the Civil Rights Revolution will be broadcast on 3-2 Sunday, the 29th at 3:00 p.m. On 3-1 it can be seen Tuesday, the 24th at 9:00 p.m. and repeats Wednesday, the 25th at 8:00 a.m. on KENW-TV.

GI Jews: Jewish Americans in World War II

GI Jews: Jewish Americans in World War II spotlights the little-known story of the more than 550,000 Jewish Americans who served their country in all branches of the military during World War II. The film brings the struggles of these brave men and women to life through first-hand experiences that reveal their fight against fascism, as well as their more personal war to liberate loved ones in Europe. After years of battle, these pioneering servicemen and women emerged transformed: more profoundly American, more deeply Jewish, and determined to continue the fight for equality and tolerance at home. GI Jews premieres nationwide in honor of Holocaust Remembrance Day, April 12th.

GI Jews features more than 25 original interviews with veterans who speak candidly about the impact of their wartime experiences, including Mel Brooks, who served in the Army; Henry Kissinger, a refugee from

Nazi Germany who was drafted into the Army; Carl Reiner, the son of Jewish immigrants, who traveled throughout the Pacific theater with the Special Services Entertainment Unit; the late Bea

Mel Brooks, then Melvin Kaminsky, 19, in France, c. 1944

Cohen, who was a member of the Women's Army Auxiliary Corps (WAAC) in England; and Max Fuchs, who served in the 1st infantry division and was the cantor at a Jewish service in Aachen, Germany, broadcast by NBC in 1944—the first Jewish religious service to be broadcast from Germany since the advent of Hitler.

GI Jews: Jewish Americans in World War II can be seen on 3-2 Wednesday, the 11th at 9:00 p.m. On 3-1, it airs Thursday, the 12th at 7:00 p.m.

In Principle

PBS Launches Conservative Talk Show Series

As the Donald Trump administration mulls whacking its funding for PBS (Trump's 2019 budget eliminates public media funding), PBS is launching a conservative talk show. **In Principle**, an eight-week series, is hosted by Michael Gerson, a *Washington Post* columnist and former chief speechwriter for President George W. Bush, and Amy M. Holmes, formerly of Glenn Beck's TheBlaze TV and a cable news conributor.

The hosts plan to interview two guests each show, hoping for an in-depth discussion on issues and their formative political experiences. Gerson said he'd like to discuss issues including race, gun control, and whether conservatism is the right message for the working class.

In Principle will be broadcast on 3-2 Fridays at 8:30 p.m. and on 3-1, Fridays at 7:30 p.m., both beginning the 13th.

Butterflies have been making our planet more beautiful for more than 50 million years. Today a dazzling array of nearly 20,000 different species inhabit the globe. A vibrant new NATURE special, "Sex, Lies and Butterflies" follows the lives of these incredible insects from egg to caterpillar to chrysalis to the emergence of the mature winged creature.

The film explores the astonishing survival techniques of butterflies, including their 360° vision, deceptive camouflage, chemical weaponry, and fantastic flight across continents. Sophisticated macro-filming offers viewers a rare glimpse beyond the butterflies' bright colors and fragile beauty as it follows them on one of the greatest migrations on Earth.
