Q2·3 Program Guide

THE MAGAZINE FOR THE FRIENDS OF PUBLIC BROADCASTING - JULY 2019

Q2-3 Program Guide is published each month by the Broadcast Center, a non-profit public service division of Eastern New Mexico University.

Q2-3 Program Guide (Cue to 3) is available to friends contributing \$35 per year or more to the support of public broadcasting. Senior Citizen and Student memberships are available for \$25. All contributions are tax deductible. Donations should be made payable to Friends of KENW-TV or to Friends of KENW-FM or KMTH-FM.

KENW-TV, Channel 3, can be seen on UHF TV analog translators in the following areas:

Tucumcari - Channel 32; Ft. Sumner - Channel 34.

KENW-TV digital transmitters are located in: Artesia; Carlsbad; Ft. Sumner; Hobbs; Portales/ Clovis; Roswell; Tucumcari; Ruidoso; Mescalero

KENW-FM, 89.5 MHz, Portales; KMTH-FM, 98.7 MHz, Maljamar; KENM-FM, 88.9 MHz, Tucumcari; NM; KENU-FM, 88.5 MHz, Des Moines, NM; KENG-FM, 88.5 MHz; Ruidoso, NM; KENE-FM,88.1 MHz, Raton, and FM translators in:

Apache Springs - 90.9 Las Vegas - 88.1 MHz Clayton - 93.5 MHz Roswell - 91.1 MHz Des Moines - 106.1 MHz Wagon Mound - 92.1 MHz Ft. Sumner - 91.7 MHz

Telephone: From Cannon A.F.B., Clovis, Portales, and Roosevelt County, call (575) 562-2112. Others, call toll-free 1-888-FOR-KENW (367-5369).

- "Chasing the Moon," a six-hour documentary about the space race on American Experience, is the centerpiece of PBS's Summer of Space, which also includes "The Planets" and "Back to the Moon" on Nova, 8 Days: To the Moon and Back, Ancient Skies, and several other special programs.
- "Galileo's Moon" on Secrets of the Dead reveals the story behind the find of the century: one of the most important books in the history of science.
 - "Grantchester," the popular mystery series on Masterpiece, returns for a fourth season and with a new vicar.
 - The Frozen North Sir Hubert's Forgotten Submarine Expedition tells the story of the first expedition to undertake the challenge of reaching the North Pole by submarine.
 - A Capitol Fourth commemorates our country's 243rd birthday with all-star musical
- In Art of a Cowboy, a 13-part series, cowboy artist Steve Boaldin's mission is to preserve the legacy of cowboys and ranchers on both film and on canvas.
 - The aim of Garage with Steve Butler, a 10-part series, is to teach fun and creative woodworking to viewers without breaking the bank on all the bells and whistles.
 - P.O.V. premiers three films: "Call Her Ganda," a modern David and Goliath story; "Bisbee '17," in which an old mining town finally reckons with its darkest day; and "On Her Shoulders," the inspiring story of Nadia Murad, who survived the 2014 genocide in Northern Irag and escaped from sexual slavery committed by ISIS.
- Shake-Up reveals the causes and consequences of the great behavioral health shakeup of 2013 in New Mexico.
 - Big Ben: Saving the World's Most Famous Clock, a two-part series, goes behind the scenes and into the clock tower as it chronicles the four-year restoration project that has silenced its bells since 2017.
 - The Joy of Al looks at how we have created machines that can simulate, augment and even outperform the human mind.
 - Life of a Universe travels across Australia to reveal our very latest understanding about how the Universe began and how it will end.
 - Rise of the Superheroes is a detailed look into how superhero films conquered the world, from Tim Burton's Batman movies to The Avengers.

Olivia Land Landry Widner From "Out of this World" on Antiques Roadshow to "The Planets" on Nova, PBS unfurls its **Summer of Space** this July to mark the 50th anniversary of Apollo 11. "Chasing the Moon" on **American Experience** is the centerpiece.

AM≋RICAN EXPERIENCE

American Experience premiers "Chasing the Moon," a six-hour documentary about the space race, from its earliest beginnings to the monumental achievement of the first lunar landing in 1969 and beyond.

With no narration and using only archival footage—including a visual feast of previously lost or overlooked material—"Chasing the Moon" features new interviews with a diverse cast of characters who played key roles in these historic events.

Among those included are astronauts Buzz Aldrin, Frank Borman and Bill Anders; Freeman Dyson, the renowned futurist and theoretical physicist; Sergei Khrushchev, the son of former Soviet premier Nikita Khrushchev, who played a prominent role in the Soviet space program as a rocket engineer; and Poppy Northcutt, the 25-year-old "mathematics whiz" who gained worldwide attention as the first woman to serve in the all-male bastion of NASA's Mission Control.

"Chasing the Moon" explores the early days of the space race, the struggle to catch up with the Soviet Union and the enormous stakes in the quest to reach the moon.

(LtoR:) Neil Armstrong, Michael Collins and Edwin E. Aldrin, Jr.

Poppy Northcutt was the first woman to serve in NASA's Mission Control.

The series reveals both the breathtaking failures and successes of the developing U.S. space program, including the tragedy with Apollo 1 and the triumphant comeback with Apollo 8. Experience the first moon landing, witnessed by the largest TV audience ever.

"Chasing the Moon" on American Experience airs on 3-2 Monday—Wednesday, the 8th-10th at 8:00 p.m. and repeats Tuesdays at 7:00 p.m. beginning the 16th. On 3-1, the series airs Tuesday-Thursday, the 9th-11th at 7:00 p.m. and repeats Wednesdays at 7:00 p.m. beginning the 17th.

8 Days: To the Moon and Back

Take a unique journey with the crew of Apollo 11 for their 239,000 mile, eight-day, three-hour, 18-minute and 35-second mission in 8 Days: To the Moon and Back.

The film seamlessly blends authentic, rare mission audio featuring candid conversa-

Apollo 11 leaving Earth

tions between Neil Armstrong, Buzz Aldrin and Michael Collins with newly shot studio footage, and with NASA and news archives. Stun-

ning CGI recreations of the historic journey and landing tell this amazing story in a riveting new way.

8 Days: To the Moon and Back can be seen on 3-2 Wednesday, the 17th at 8:00 p.m. On 3-1, it airs Saturday, the 20th at 11:00 p.m. and Monday, the 22nd at 7:00 p.m.

NOVA

The Planets

"The Planets," a five-part series, tells the dramatic story of our solar system, spanning billions of years through the discoveries of the most groundbreaking space missions.

Using extraordinary footage captured by orbiters, landers and rovers, viewers experience an up-close look at these faraway worlds. Stand on the dark side of Pluto, lit only by the reflected light of its moons, watch the sun set over an ancient Martian waterfall four times the size of any found on Earth, and witness a storm twice the size of Earth from high above Saturn. And, learn how each of them has affected our own planet: Earth.

Please refer to the AtoZ on page 2 to learn the date/times this series is being broadcast on 3-2. Refer to page 19 for 3-1 broadcast dates/times.

Ancient Skies

With CGI, landscape footage and some of the world's most important astronomical artifacts, Ancient Skies, a three-part series, looks at the universe through the eyes of our ancestors. From hunter-gatherers to Edwin Hubble, we'll see the myriad of ways that we have observed and imagined the heavens, and explain the science behind the things our ancestors sought to explain through mythology.

Ancient Skies will be broadcast on 3-2 Wednesdays at 7:00 p.m. beginning the 24th and Saturdays at 11:00 p.m. beginning the 27th. On 3-1, Prague Astronomical Clock

the series airs Wednesdays at 9:00 p.m. beginning the 24th, Thursdays at 2:00 p.m. beginning the 25th, Saturdays at 4:00 p.m. beginning the 27th and Mondays at 6:00 a.m. beginning the 29th.

NOVA **Back to the Moon**

Fifty years after humans first set foot on the Moon, new scientific discoveries are fueling excitement for a return to the lunar surface—this time, perhaps, to stay. Join the scientists and engineers working to make life on the Moon a reality, in "Back to the Moon" on Nova.

"Back to the Moon" looks ahead to the hoped-for dawn of a new age in lunar exploration. This time, governments and private industry are working together to reach our nearest celestial neighbor.

But why go back? The Moon can serve as a platform for basic astronomical research; as an abundant source of rare metals and hydrogen fuel; and ultimately as a stepping stone for human missions to Mars and beyond. Hopefully, our legacy of lunar exploration won't be confined to the history books for long.

"Back to the Moon" on Nova airs on 3-2 Wednesday, the 10th at 7:00 p.m. and Saturday, the 20th at 10:00 p.m. On 3-1, it airs Thursday, the 11th at 4:00 p.m., Friday, the 12th at 8:00 p.m., Saturday, the 13th at 11:00 p.m. and Sunday, the 14th at 4:00 p.m.

Galileo's Moon

In "Galileo's Moon," **Secrets of the Dead** reveals the story behind the find of the century: a proof copy of *Sidereus Nuncius* (also known as the *Starry Messenger*), one of the most important books in the history of science.

Unlike other known copies that had engraved images of the phases of the moon, this copy included watercolor paintings seemingly by author Galileo Galilei, one of the greatest scientific minds of all time. The 2005 discovery set the rare book market abuzz 400 years after its publication. The proof copy, if genuine, would be worth millions.

In 1610, *Sidereus Nuncius* was the first published scientific work based on observations made through a telescope. Galileo's work challenged the belief that the Earth was the center of the universe. Five hundred and fifty copies of the book were originally printed and roughly 150 of those editions are known to exist today.

In "Galileo's Moon," join a team of experts as they search for the truth behind the alleged proof copy of *Sidereus Nuncius*.

"Galileo's Moon" on **Secrets of the Dead** can be seen on 3-2 Tuesday, the 2nd at 7:00 p.m. and Sunday, the 7th at 11:00 a.m. and 6:00 p.m. On 3-1, it will be broadcast Wednesday, the 3rd at 8:00 p.m. on KENW-TV.

The Frozen North – Sir Hubert's Forgotten Submarine Expedition

Sir Hubert Wilkins was one of the most successful polar explorers of all times. In 1931, for the first time in history, his Nautilus Expedition undertook the challenge to reach the North Pole by submarine. Sir Hubert's specially-built sub, the Nautilus, was named

after the fictional submarine in Jules Verne's Twenty Thousand Leagues Under The Sea.

The Frozen North – Sir Hubert's Forgotten Submarine Expedition recounts the adventurous journey of an obsessed explorer who devoted his entire life to the

exploration and research of the polar region. **The Frozen North** follows oceanographer Hans Fricke on his search for the wreck of the Nautilus, and brings back to life one of the last polar adventures of our time.

While Sir Hubert's mission failed, the expedition proved that submarines were capable of operating underneath the polar ice. It was not until 1958 that the USS Nautilus, a US Navy nuclear submarine, reached the North Pole underwater.

The Frozen North – Sir Hubert's Forgotten Submarine Expedition airs on 3-2 Tuesday, the 2nd at 8:00 p.m., Sunday, the 7th at 9:30 p.m. and Thursday, the 25th at 7:00 p.m. On 3-1, it airs Wednesday, the 3rd at 7:00 p.m. and Thursday, the 4th at 7:00 a.m.

MASTERPIECE

Grantchester, Season 4

There is good news for fans of "Grantchester" on **Master-piece**. The popular mystery series returns for a fourth season with a new vicar. Tom Brittney (Call the Midwife) is joining the cast as Reverend Will Davenport—man of the people and crime-solving partner to Robson Green's Geordie Keating in 1950s Grantchester. James Norton, who plays the charis-

(LtoR:)Tom Brittney as Will Davenport, Robson Green as Geordie Keating and James Norton as Sidney Chambers

matic, jazz-loving clergyman Sidney Chambers, makes his final appearance during the series.

Confident, caring and self-assured, Grantchester's young new parish priest channels his boundless energy into a quest for social justice. He is a man of God, but with the devil inside of him. As Geordie draws him into righting the wrongs of criminal Cambridge, Will's own troubled past is unearthed.

"Grantchester 4" on **Masterpiece** airs on 3-2 Sundays at 8:00 p.m. beginning the 14th and repeats Fridays at 10:00 p.m. On 3-1, it airs Sundays at 7:00 p.m. beginning the 14th and repeats Mondays at 1:00 p.m.

CAPITOL FOURTH

With a special concert that pays tribute to our men and women in uniform and their families, **A Capitol Fourth** continues its 39-year tradition of celebrating our nation's independence on the West Lawn of the Capitol building. Actor John Stamos returns as host.

A Capitol Fourth commemorates our country's 243rd birthday with all-star musical performances: music legend Carole King with the Broadway cast of the Tony and Grammy Award-winning musical *Beautiful*, starring Vanessa Carlton; electronic violinist Lindsey Stirling; singer-songwriter and actress Keala Settle; recording art-

ist and star of television, film and the Broadway stage Vanessa Williams; double ACM winner Lee Brice; singer-songwriter Colbie Caillat; Gospel vocalist Yolanda Adams; 2019 American Idol winner Laine Hardy; America's Got Talent singing sensation Angelica Hale; and

this year's winner of *The Voice* (Season 16), Maelyn Jarmon.

The Sesame Street Muppets perform a medley of patriotic favorites and iconic songs from the series, currently celebrating 50 years of learning and fun. The evening is capped off with fireworks over our nation's iconic skyline.

A Capitol Fourth can be seen on 3-2 Thursday, the 4th at 7:00 p.m. and 9:00 p.m. On 3-1, it airs Thursday, the 4th at 9:30 p.m. and Saturday, the 6th at 7:00 p.m.

Art of a Cowboy

Art of a Cowboy, a 13-part series, captures cowboy artist Steve Boaldin's vision of preserving the legacy of cowboys and ranch-

ers on film and on canvas. Each episode is filmed on present-day working ranches across the country, where many of the meth-

ods these cowboys use for working cattle have not changed in over 100 years.

A third-generation rancher himself, Steve is as proficient at cutting steers and roping calves as he is mixing colors and stretching canvas for his next oil painting. His mission is to capture the spirit of the ranches and their families in sketches and photos. He then uses these drawings and pictures to create cowboy-themed fine art.

Art of a Cowboy will be broadcast on 3-2 Mondays at 10:00 p.m. beginning the 8th and Thursdays at 9:00 p.m. beginning the 18th. On 3-1, it airs Tuesdays at 7:30 p.m. beginning the 16th and Saturdays at 11:30 a.m. beginning the 20th.

Garage with Steve Butler

The premise of the **Garage with Steve Butler**, a 10-part series, is to teach woodworking to the viewer, and to make it accessible economically and technically. No one should ever be intimidated or afraid to try and learn because they don't have all of the bells and whistles. The idea is to have fun, be creative and make great objects without breaking the bank.

Steve Butler is an artist and furniture maker with more than 25 years experience in the field. In his garage workshop, he shares with you the way to make fun, funky woodworking projects—from fine furniture to cigar box guitars to a classic foosball game.

Garage with Steve Butler airs on 3-2 Saturdays at 6:00 a.m. beginning the 13th and Wednesdays at 11:30 a.m. beginning the 31st. On 3-1, it airs Wednesdays at 10:00 a.m. beginning the 17th and Saturdays at 2:00 p.m. beginning the 20th.

Illusions in Stone

Illusions in Stone tells the global story of the emerald trade. You meet righteous thieves, reckless illegal miners and religious scholars in an underground business. Their dreams of emerald wealth often prove to be an illusion.

The journey begins in the mines of Brazil, where workers face danger and uncertainty both below and above ground. The gems are then cut and polished in Jaipur—India's pink city—where a deeply religious community holds a virtual monopoly on the stones from the mines of Brazil and Africa.

We meet the members of an Israeli syndicate who value honesty above all else, while working with the smugglers that looted 90% of the production of their mines.

It is in Colombia where we find the world's finest emeralds, and where the ground around the emerald mines is often soaked with blood.

Illusions in Stone airs on 3-2 Sunday, the 28th at 10:00 p.m. and Wednesday, the 31st at 9:00 p.m. On 3-1, it can be seen Monday, the 29th at 8:00 p.m.

POV

Call Her Ganda

A modern David and Goliath story, "Call Her Ganda" on **P.O.V.** follows a cast of willful women as they take on some of the most powerful institutions in the world. Set amid the complex aftermath of U.S. imperial rule in the Philippines, the film is a daring geopolitical investigative exposé.

When a 26-year old Filipina transgender woman and alleged sex worker, Jennifer Laude, is found dead in a motel room, the perpetrator is quickly identified as 19-year-old U.S. marine Joseph Scott Pemberton. Pemberton was on leave when he solicited Jennifer at a disco. On discovering that Jennifer was transgender, he brutally murdered her.

Three women intimately invested in the case—an activist attorney, a transgender journalist and Jennifer's mother—galvanize a political uprising, pursuing justice and taking on hardened histories of U.S. imperialism that have allowed previous American perpetrators to evade consequence.

"Call Her Ganda" on **P.O.V.** airs on 3-2 Monday, the 1st at 9:00 p.m. On 3-1, it airs Sunday, the 7th at 9:00 p.m.

Bisbee '17

In "Bisbee '17" on **P.O.V.**, an old mining town on the Arizona-Mexico border finally reckons with its darkest day.

In 1917, nearly two-thousand immigrant miners, on strike for better wages and safer working conditions, were violently rounded up by their armed Bisbee neighbors, herded onto cattle cars, shipped to the middle of the New Mexican desert, and left there to die. This long-buried and largely forgotten event came to be known as the Bisbee Deportation.

"Bisbee '17" documents locals as they play characters and stage dramatic scenes from the controversial story, culminating in a large scale recreation of the deportation itself on the exact day of its 100th anniversary.

These dramatized scenes are based on subjective versions of the story and offer conflicting views of the event. The film confronts the current political predicaments of immigration, unionization, environmental damage and corporate corruption.

"Bisbee '17" on **P.O.V.** can be seen on 3-2 Monday, the 15th at 9:00 p.m. On 3-1, it airs Sunday, the 21st at 9:00 p.m.

On Her Shoulders

"On Her Shoulders" on **P.O.V.** follows Nadia Murad, a 23-year-old Yazidi, who survived the 2014 genocide of the Yazidis in Northern Iraq and escaped from sexual slavery committed by ISIS. Nadia went on to become a relentless beacon of hope for her

people—even when at times she longs to lay aside this monumental burden and simply have an ordinary life.

P.O.V. follows this strong-willed young woman thrust onto the international

stage—from giving testimony before the U.N. to visiting refugee camps to soul-bearing media interviews and one-on-one meetings with top government officials.

Nadia is a nominee for the Nobel Peace Prize and the UN's first Goodwill Ambassador for the Dignity of Survivors of Human Trafficking.

"On Her Shoulders" on **P.O.V.** can be seen on 3-2 Monday, the 22nd at 8:30 p.m. On 3-1, it will be broadcast Sunday, the 28th at 9:00 p.m.

Shake-Up – Causes & Consequences

It was the great behavioral health shake-up of 2013, and one of the biggest controversies of Gov. Susana Martinez's administration. Her Human Services Department cut off Medicaid payments to 15 mental health providers after an audit by the Public Consulting Group—a management and operations improvement firm—raised questions about fraud and abuse, alleging \$36 million in state Medicaid funding was mishandled by the providers.

The providers were replaced by five Arizona companies hired on no-bid emergency contracts. In many cases, this disrupted or delayed treatment for substance abuse or mental health services to low-income New Mexicans. Many of the accused New Mexico providers were forced to close. Hundreds of people lost their jobs.

The allegations of fraud later fell apart. Following a three-year investigation, state Attorney General Hector Balderas announced that, although his investigators found some regulatory violations, "there did not appear to be a pattern of fraud" for any of the providers and that those providers owed Medicaid only a fraction of the \$36 million Martinez's administration originally had claimed.

Shake-Up airs on 3-2 Tuesday, the 9th at 10:00 p.m., Thursday, the 11th at 7:00 p.m., Sunday, the 14th at 11:00 a.m., and Friday, the 26th at 9:00 p.m. On 3-1, it airs Tuesday, the 2nd at 7:00 p.m., Tuesday, the 9th at 8:00 a.m., and Friday, the 12th at 9:00 p.m.

BIG BEN:Saving the World's Most Famous Clock

The Big Ben clock tower in London is one of the world's most visited landmarks, but very few have ever ventured inside. Big Ben: Saving the World's Most Famous Clock, a two-part series, goes behind the scenes and into the tower as it chronicles the four-year restoration project that has silenced its bells since 2017.

The film tells the story of the architects, clockmakers, engineers and various other experts who have the task of taking apart Big Ben's giant mechanism for the first time in nearly 160 years in order to bring the iconic Victorian structure into the 21st century.

Big Ben: Saving the World's Most Famous Clock airs on 3-2 Sundays at 10:00 a.m., 6:00 p.m., and 9:00 p.m. beginning the 21st. On 3-1, it airs Sundays at 8:00 p.m. beginning the 21st and Tuesdays at 2:00 p.m. beginning the 23rd.

THE JOY OF AI

In **The Joy of AI**, Professor Jim Al-Khalili looks at how we have created machines that can simulate, augment and even outperform the human mind—and why we shouldn't let

this spook us.

He reveals the story of the pursuit of AI, the emergence of machine learning and the recent breakthroughs brought about by artificial neu-

ral networks. He shows how AI is not only changing our world, but also challenging our very ideas of intelligence and consciousness.

Along the way, we'll investigate spam filters, meet a cutting-edge chatbot and look at why a few altered pixels make a computer think it's looking at a trombone rather than a dog. The film also features Demis Hassabis, head of DeepMind, whose stated mission is to "solve intelligence, and then use that to solve everything else."

The Joy of AI airs on 3-2 Tuesday, the 16th at 10:00 p.m., Thursday, the 18th at 7:00 p.m. and Friday, the 26th at 11:00 p.m. On 3-1, it airs Friday, the 19th at 9:00 p.m. and Sunday, the 28th at 4:00 p.m.

Life of a Universe

How did our Universe come into existence? Was there a time before the Big Bang? Do our laws of physics inexorably lead to the existence of us? When will the last day on Earth be? When will the stars die and the sky go dark? What will be left at the very end of the everything? Is the end of the Universe really even the end?

In Life of a Universe, British Professor and cosmologist Brian Cox travels across Australia to reveal our very latest understanding about how the Universe began and how it will end. Professor Cox visits historic sites related to space and science, including the Tidbinbill's telescopes outside the

Canberra Deep Space Communication Complex.

The film focuses on the work of eminent scientists Stephen Hawk-

ing, Brian Greene, Neil Degrasse Tyson and others, and shares unique clues that can only be revealed by exploring the Southern Sky.

Life of a Universe can be seen on 3-2 Sunday, the 14th at 10:00 a.m. and 10:00 p.m. and Friday, the 19th at 9:00 p.m. On 3-1, it airs Monday, the 15th at 7:00 p.m.

Rise of the Superheroes

Rise of the Superheroes is a detailed look into how superhero films conquered the world, from Tim Burton's *Batman* movies to *The Avengers*. The two-hour film analyzes how superhero movies, once thought to be

too campy and mainly for children, have taken over Hollywood and are now the highest-grossing movies in the world.

Before such hits as *The Dark Knight* and *Iron Man*, there was *Batman*, re-

leased in 1989 and featuring established stars Michael Keaton, Jack Nicholson and Kim Basinger. *Batman* proved that comic book movies were starting to find a foothold in mainstream culture.

While the 1990s relied on stand-alone epics based on books or historical events, audiences now enjoy the cutting-edge special effects and escapism that a series of modern superhero movies can provide.

Rise of the Superheroes airs on 3-2 Sunday, the 14th at 6:00 p.m. and Monday, the 29th at 8:00 p.m. On 3-1, it airs Saturday, the 20th at 7:00 p.m. and Monday, the 29th at 2:00 p.m.

◆ KENW-TV's DAYTIME SCHEDULES

Kids' Programming, How-to's, and Family Viewing

Channels 3-1 (HD), 3-2, 3-3, 3-4 (SD) require a digital television or a converter box, both with antennas in order to receive free over-the-air signals.

Channel 3-2

Monday through Friday

Tuesday, 23rd, 8:00 p.m.

NOTRE DAME: WITNESS TO HISTORY

NOTRE DAME: WITNESS TO HISTORY is the story of the great cathedral, Notre Dame de Paris—the Gothic marvel that has endured nearly two centuries of construction, wars, coronations, revolutions, restorations and a devastating fire in April. But she still stands and now appears will rise again.

Tens of thousands of people used to enter her doors every day. Within her breathtaking structure were priceless works of art and sacred biblical relics, many of which were saved from the fire.

With beautiful photography, rare archival material, and insights from leading scholars, architects and theologians, NOTRE DAME tells the remarkable story of this Parisian landmark through history and brings to life the fascinating characters—both real and fictional—whose destinies are woven into the legend of this most famous of all cathedrals. Step inside for an amazing tour.

Friday, the 5th at 9:00 p.m. (3-2) Sunday, the 7th at 10:00 a.m. (3-2) Sunday, the 21st at 10:00 p.m. (3-2)

Monday, the 8th at 7:00 p.m. (3-1) Wednesday, the 10th at 2:00 p.m. (3-1)
