## Emilio & Gloria Estefan Library of Congress Gershwin Prize for Popular Song

Emilio & Gloria Estefan: The Library of Congress Gershwin Prize for Popular Song marks the first time the Gershwin Prize has been awarded to a married couple or to songwriters/musicians of Hispanic descent. The star-studded event features performances by Gloria Estefan, as well as Jose Feliciano, Il Volo, Cyndi Lauper, Emily Estefan and original cast members of "On Your Feet!"—with Rita Moreno and Andy Garcia as hosts.

Married since 1978, the Cuban-

American Estefans started their extraordinary rise to global fame in 1985 with Miami Sound Machine, creating a unique sound that blended Latin and pop rhythms. Many of their iconic hits—including "Conga," "Turn the Beat Around," "Get on Your Feet" and "Rhythm Is Gonna Get You"—reflected the perfect marriage of creative lyrics, high-octane rhythms, and spirited vocals. They made listening to Cuban-infused music one of America's favorite pastimes.

The Estefans have both been named BMI's "Songwriter of the Year" and have garnered 26 Grammy Awards between them. Among their numerous awards is the Presidential Medal of Freedom, the nation's highest civilian honor.

Emilio & Gloria Estefan: The Library of Congress Gershwin Prize for Popular Song can be seen on 3-2 Friday, the 3rd at 9:00 p.m. and Sunday, the 19th at 9:30 p.m. On 3-1, it will be broadcast Saturday, the 4th at 7:00 p.m.

# Great Museums: The Art of Islam at the Met and the Louvre

Great Museums: The Art of Islam at the Met and the Louvre showcases works of art that highlight the shared cultural heritage of our interconnected world. The objects on display in the Islamic galleries at the Metropolitan Museum of Art in New York and the Louvre in Paris reflect 14 centuries of changing political and cultural landscapes across three continents, and reveal a surprising number of connections that unite Western and Islamic traditions in art, science and literature.

The art of Islam is not simply religious art. The term "Islamic art" includes all art produced in Muslim lands from the 7th century forward, from Spain to Morocco, from Egypt to the Middle East, Central Asia and India, to the borders of China. This encompasses a huge variety of styles, materials and themes. Elements like calligraphy and "arabesque" engravings, like carpets and Qur'ans, fill the galleries and the stories highlighted in this film.

## Live From Lincoln Center Stars in Concert

Live From Lincoln Center welcomes some of Broadway's brightest stars—Cynthia Erivo, Annaleigh Ashford, and Megan Hilty—for the critically acclaimed **Stars in Concert** performance series. Set in the gorgeous Appel Room at Jazz at Lincoln Center, each of the three-hour episodes spotlights one of these leading voices of musical theater in a performance that combines the intimacy of cabaret with the razzle dazzle of Broadway.

Bursting onto the scene with her star-making performance in "The Color Purple," Cynthia Erivo is swiftly approaching the haloed EGOT status. The classically trained actor with a powerhouse voice already has a Tony, Grammy and Emmy Award under her belt.

Described as "luminous" and "a sly comic genius" (*New York Times*), Broadway favorite Annaleigh Ashford has thrilled audiences in "Sunday in the Park with George," "Kinky Boots" and "You Can't Take It With You," for which she won a Tony.

Tony-nominated songstress Megan Hilty is the epitome of musical stardom. After making her Broadway debut as Glinda in "Wicked" opposite Idina Menzel to critical acclaim, Hilty went on to star in "Noises Off," "9 to 5: The Musical" and NBC's "Smash."

**Live From Lincoln Center—Stars in Concert** will be broadcast on 3-2 Fridays at 9:00 p.m. beginning the 10th. On 3-1, the series airs Saturdays at 7:00 p.m. beginning the 11th.

Within this complicated history are discoveries that influence our modern life. We learn that "algebra" and "algorithm" derive from Arabic. And that centuries ago, geometry was used to embellish art and architecture. Ancient Islamic sailors developed tools for navigating the seas and the skies, and Islamic scholars documented medical discoveries from Ancient Greece in a comprehensive reference book in 9th century Baghdad.

We learn that Islamic potters imitated Chinese porcelain, Venetian glassmakers enhanced Islamic glass-making techniques and French royal children were baptized using silver inlaid bowls that featured Muslim battle scenes.

One can gain a great deal of insight from a civilization's art.

Great Museums: The Art of Islam at the Met and the Louvre airs

on 3-2 Friday, the 10th at 11:00 p.m., Sunday, the 19th at 6:00 p.m. and Sunday, the 26th at 11:00 a.m. On 3-1, it airs Saturday, the 18th at 8:00 p.m. and Wednesday, the 22nd at 8:00 a.m.

The artist was recently confirmed by the discovery of a microscopic signature on the golden tip of Shah Jahan's bow.

### Inside the Megafire

From the front line of the Camp Fire, the deadliest wildfire in California history, "Inside the Megafire" on **Nova** tells the stories of residents who had to flee for their lives during the 2018 fire season. Scientists racing to understand what's behind the rise of record-breaking megafires across the American West take to the forest, and even a fire lab, in search of answers. They investigate how forestry practices, climate change and the physics of fire itself play a role in the dramatic increase in wildfires in recent decades.

"Inside the Megafire" on **Nova** airs on 3-2 Wednesday, the 8th at 8:00 p.m. and Saturday, the 11th at 10:00 p.m. On 3-1, it airs Thursday, the 9th at 4:00 p.m., Friday, the 10th at 8:00 p.m. and Saturday, the 11th at 11:00 p.m.

### **First Horse Warriors**

The advent of horse riding was a momentous step in human history. But when and how did our ancestors first learn to master these animals? In a spectacular adventure, "First Horse Warriors" on **Nova** unlocks the mystery on the vast, grassy plains of Kazakhstan, where wild horses still roam free, and nomadic herders follow their traditional way of life. Investigating clues from archaeology and genetics, researchers reveal vivid evidence of the very first horsemen. They also discover warriors who swept across Europe, and turn out to be the ancestors of millions today.

"First Horse Warriors" on **Nova** airs on 3-2 Wednesday, the 15th at 8:00 p.m. and Saturday, the 18th at 10:00 p.m. On 3-1, it airs Thursday, the 16th at 4:00 p.m., Friday, the 17th at 8:00 p.m., Saturday, the 18th at 11:00 p.m. and Sunday, the 19th at 4:00 p.m.

### **Lost Viking Army**

In the mid-ninth century, a Viking military force known as the Great Heathen Army invaded England. The Great Heathen Army got its name from the English Christians whose land the Vikings began invading around 865 A.D. It marked the transition among Vikings from raiding cities to conquering them, and is considered an important historical event in the creation of England. Yet for decades, no one could find any archaeological evidence to back this up.

Now, "Lost Viking Army" on **Nova** reveals that a group of researchers in England think they might have found that evidence—the soldiers' bones.

The bones come from a mass grave of at least 264 skeletons at St. Wystan's church in Repton, Derbyshire, that archaeologists first excavated in the 1970s and '80s. Historical records tell us the Viking army spent the winter in Repton in 873 A.D., and many thought carbon dating would show the bones came from that time period. But initial carbon dating placed the skeletons in earlier centuries, leading researchers to conclude that they couldn't be Viking soldiers.

It was only after adjusting for Vikings' seafood diet that researchers were able to correctly carbon date them to the 9th century. A diet of fish or other marine foods incorporates carbon into human bones that is much older than in other foods. This confuses radiocarbon dates from archaeological bone material, which can be corrected by estimating how much seafood each individual ate.

Other clues support the theory that these are remnants of the Viking army, including the fact that about 20 percent were female. In Viking society, women enjoyed a surprising degree of autonomy and independence.

King Alfred eventualy recaptured English territories that the Vikings had taken, including London.

"Lost Viking Army" on **Nova** airs on 3-2 Wednesday, the 22nd at 8:00 p.m. and Saturday, the 25th at 10:00 p.m. On 3-1, it airs Thursday, the 23rd at 4:00 p.m., Friday, the 24th at 8:00 p.m., Saturday, the 25th at 11:00 p.m. and Sunday, the 26th at 4:00 p.m.

### **D-Day at Pointe-du-Hoc**

**D-Day at Pointe-du-Hoc** shares the awe inspiring story of the U.S. Army's 2nd Ranger Battalion, which, during the storming of Normandy Beach, carried out what many believed was D-Day's most important and also its most suicidal mission.

Led by Lt. Col. James Earl Rudder, the battalion sought to destroy six German cannons believed to be situated halfway between Omaha and Utah Beaches, within firing range of the main beach assault. The 155mm guns had to be taken out if Operation Overlord was to be a success.

After scaling 100-foot cliffs and avoiding

machine gun fire, they discovered the cannons had been moved from the location days prior. What ensued was two days of constant fighting as the heavily outnumbered Rangers held off German troops, preventing them from retaking the strategic oceanside position.

Weaving together first-hand accounts, striking drone footage of the English Channel approach and imposing Pointe cliffs, and rare archival footage of the 2nd Rangers preparing for action, **D-Day at Pointe-du-Hoc** shares an incredible story of adversity and courage that took place in June of 1944.

**D-Day at Pointe-du-Hoc** will be broadcast on 3-2 Sunday, the 19th at 11:00 p.m. and Monday, the 27th at 9:00 p.m. On 3-1, it airs Monday, the 27th at 7:00 p.m. and Tuesday, the 28th at 1:00 p.m.

## Hitler's Holocaust Railways

Chris Tarrant explores the darkest chapter of rail history in **Hitler's Holocaust Railways**. Railways played a vital part in Hitler's masterplan, efficiently transporting soldiers and weapons to the front and, equally as efficiently,

ferrying millions of Jews to ghettoes and concentration camps.

Tarrant takes a simultaneous geographical journey on railways in Germany, the former Czechoslovakia and Poland, while at the same time telling the chronological

story of how the implementation of Nazi Germany's first anti-Semitic laws in 1935 coincided with a drive to construct the world's most extensive rail network.

The film features contributions from survivors, including a Polish man who worked as a child slave in building the railway, who reveals how he narrowly escaped being transported to Auschwitz by hiding in a cemetery.

**Hitler's Holocaust Railways** airs on 3-2 Monday, the 27th at 9:00 p.m. On 3-1, it can be seen Wednesday, the 1st at 7:00 p.m.

(LtoR): Amelia Earhart, Annie Oakley, Emma Goldman, Rachel Carson

### **AMERICAN EXPERIENCE "Women in History"**

American Experience presents a special salute to "Women in History" this May with encore broadcasts of four films that celebrate extraordinary women: Amelia Earhart, Annie Oakley, Emma Goldman and Rachel Carson. These stories explore the lives of women who became famous—or controversial—for following their own paths, regardless of the consequences, and whose achievements are still remembered today.

Amelia Earhart – The first woman to fly solo across the Atlantic, Amelia Earhart was one of America's earliest celebrities. She became the best-known female flier in America, not only for her daring and determination, but also for her striking looks and outspoken personality. Her uncanny resemblance to Charles Lindbergh—the most famous man in America at the time—earned her the nickname "Lady Lindy." Three weeks short of her 40th birthday, Earhart disappeared over the Pacific Ocean.

Annie Oakley – This is the story of a fivefoot, 100-pound sharp shooter who pulled herself out of the depths of poverty to become an iconic performer known as a symbol of the Wild West. She was the toast of New York, Victorian London, Paris and eventually the world. She was "adopted" by Indian Chief Sitting Bull, charmed the Prince of Prussia, and entertained the likes of Oscar Wilde and Queen Victoria. Annie Oakley excelled in a man's world by doing what she loved, and won fame and fortune as the little lady who never missed a shot.

Emma Goldman – For nearly half a century, Russian emigrant Emma Goldman was the most controversial woman in America, taunting the mainstream with her fervent attacks on government, big business and war. To the tabloids, she was "Red Emma, Queen of the Anarchists," but many admired Goldman for her defense of labor rights, women's emancipation and birth control, and as a fearless writer and merciless publisher.

Rachel Carson – When Rachel Carson's Silent Spring was published in 1962, the book became a phenomenon. A passionate warning about the long-term dangers of pesticides, the book unleashed an extraordinary national debate and provoked vigorous attacks from the chemical industry. But it also inspired President John F. Kennedy to launch the first-ever investigation into the public health effects of pesticides—an investigation that eventually would result in new laws designed to protect and preserve the environment.

American Experience "Amelia Earhart" and "Annie Oakley" airs on 3-2 Tuesdays at 8:00 p.m. beginning the 7th and Sundays at 10:00 p.m. beginning the 12th. "Emma Goldman" airs Tuesday, the 21st at 8:00 p.m. and "Rachel Carson" airs Tuesday, the 28th at 7:00 p.m. On 3-1, the series airs Wednesdays at 7:00 p.m. beginning the 8th.

### **Harvest Season**

### In California's Wine Country

"Harvest Season" on **Independent Lens** probes the lives of the temporary laborers, permanent residents, and multigenerational Latinos intimately connected to the production of premium wines in the Napa and Sonoma regions of Northern California.

The film follows the stories of veteran winemaker Gustavo Brambila, Mexican migrant worker René Reyes and wine entrepreneur Vanessa Robledo. Their stories unfold against the backdrop of a region of immense wealth that was accountable for \$1.53 billion in export revenue last year.

Due to immigration issues, Napa's growers and labor contractors are facing a severe labor shortage. Some turn to the H-2A visa program, which allows them to bring in foreign nationals, like René Reyes, to fill temporary agricultural jobs.

Vanessa Robledo's grandfather and uncles were brought to California through the Bracero program in the 1940s, settled in Napa and built a successful winemaking business. Now she takes great pride in managing the same vines that her grandfather taught her to tend as a child.

The son of a vineyard worker, Gustavo Brambila came to the U.S. from Mexico when he was three years old. He has been making wines since 1976, and still spends countless hours perfecting each vintage.

The stories of Gustavo, Vanessa and René culminate in a dramatic grape harvest—the most critical time of year for California winemakers.

"Harvest Season" on **Independent Lens** airs on 3-2 Monday, the 13th at 9:00 p.m. On 3-1, it airs Sunday, the 19th at 9:00 p.m.

**Brian Greene** 

## Light Falls

Light Falls celebrates the 100th anniversary of Albert Einstein's discovery of the general theory of relativity. Written by acclaimed American theoretical physicist, mathematician and string theorist Brian Greene, this unique theatrical work weaves together

dramatic portrayals, state-of-the-art animation and innovative projection techniques to trace Einstein's journey toward one of the most beautiful ideas ever conceived.

Together with an ensemble cast, Greene recounts the dramatic story of the breakthrough moments, near misses, agonizing frustrations and emergence into the light, as one intrepid mind took on the universe and won.

**Light Falls** will be broadcast on 3-2 Wednesday, the 29th at 9:00 p.m. On 3-1, it can be seen Thursday, the 30th at 7:00 p.m.

## Voyage of Adventure:

### **Retracing Donelson's Journey**

In this adventure story, photographer John Guider sets out in a self-made row boat to retrace surveyor John Donelson's historic 1779-1780 expedition—a 1,000 mile journey that began in Tennessee and ended at what would become present-day Nashville.

Frontiersman Donelson, along with surveyor James Robertson, set out to establish the first large-scale European settlement in Tennessee. While Robertson trekked over land, Donelson led a flotilla of families, slaves and supplies down the riverways.

Encountering the worst winter in recorded history and navigating without charts, Donelson and his party dealt with harsh conditions, dwindling food reserves, smallpox, and attacks by Native American tribes who were trying to protect their land.

In **Voyage of Adventure: Retracing Donelson's Journey** airs on 3-2 Sunday, the 12th at 6:00 p.m. and Sunday, the 19th at 11:00 a.m. On 3-1, it airs Tuesday, the 28th at 7:00 a.m. and 2:00 p.m.

The Search for the Mona Lisa, narrated by Morgan Freeman, reveals that Leonardo da Vinci's Mona Lisa portrait is not the Mona Lisa. Timed to the 500th anniversary of Leonardo's death on May 2nd, 2019, the film shows that the portrait has become the center of a swirling controversy. If she is not the Mona Lisa, then who is she? And why did Leonardo da Vinci paint her?

Using newly discovered evidence, the film is a thriller-like pursuit for the real identity of the most famous portrait in the world. It features top Da Vinci experts from Europe and the United States.

The Search for the Mona Lisa airs on 3-2 Sunday, the 5th at 10:00 a.m. and Monday, the 6th at 8:00 p.m. On 3-1, it can be seen Thursday, the 2nd at 7:00 p.m., Tuesday, the 7th at 1:00 p.m. and Saturday, the 11th at 8:00 p.m.

### Revolutionizing Dementia Care

Over 50 million people in the world are living with Alzheimer's Disease and other forms of dementia, and more and more families are facing tough decisions related to the long-term care of their loved ones. Explore innovative strategies that improve the quality of life for people living with dementia, in **Revolutionizing Dementia Care**.

The film visits eight residential homes—from Massachusetts to California—specializing in dementia and Alzheimer's care. Interviews with residents, family and staff reveal various models of person-centered care, and their impact on both the recipients and providers of those services.

Patients enjoy virtual reality and watch dolphins from a new perspective.

Experts and educators in the dementia care field also discuss the changing land-scape of diagnosis and care, and the benefits of these new models. From equine and horticulture therapies to city-wide dementia-friendly education programs, the film captures the evolving ways ability-focused programs can enrich the lives of those living with this diagnosis.

**Revolutionizing Dementia Care** can be seen on 3-2 Sunday, the 12th at 11:00 a.m. and Monday, the 20th at 8:00 p.m. On 3-1, it airs Tuesday, the 21st at 8:00 a.m.

# CyberWorks and the American Dream

Today the Artificial Intelligence (AI) revolution has reignited old fears of human obsolescence. Just as the invention of the tractor revolutionized farming, manufacturing and other major industries will be transformed by AI. Economic and social changes will be on the same scale as the changes brought about by electricity. At the same time, the promise of AI is that it will enable us to solve the most difficult problems that society faces today.

CyberWorks and the American Dream looks at the impact of robotics and artificial intelligence on the future of work. While new technologies have increased wealth, freedom and life expectancy, they have also automated jobs and destroyed outdated businesses.

Starting with the Industrial Revolution, the film gives a historical framework for the impact of new technologies that sparked social turmoil, such as the progression of steam, electrical and computer machinery.

The documentary features a diverse cast of experts, notable voices, and more than a dozen scholars and innovators who add contrasting perspectives. NBA's Dallas Mavericks owner Mark Cuban notes, "If we don't start putting programs in place to deal with the inevitable disruption, you're going to have pockets of the country, if not larger swaths of the country, having to deal with significant unemployment."

CyberWorks and the American Dream airs on 3-2 Sunday, the 5th at 11:00 a.m., Tuesday, the 14th at 7:00 p.m. and Friday, the 17th at 11:00 p.m. On 3-1, it airs Wednesday, the 8th at 8:00 a.m.

## **FRONTLINE**

### The Mueller Investigation

In response to conclusions from Special Counsel Robert Mueller's report on collusion and obstruction of justice, **Frontline** presents "The Mueller Investigation." The program is a comprehensive review and analysis of what we know about Mueller's findings and the dramatic events that led the White House and the nation to this moment.

This report draws on in-depth interviews with senior law enforcement officials, Trump insiders, attorneys, authors and journalists to chronicle the President's unprecedented battle with the special counsel, the FBI, the Department of Justice and his own attorney general.

Thursday, 2nd, 7:00 p.m. (3-2) Sunday, 5th, 6:00 p.m.(3-2) Friday, 3rd, 9:00 p.m. (3-1)

Other **Frontline** episodes in May are "**Trump's Trade War**," which tells the inside story of the President's gamble to confront China over trade. With reporting from the US and China, the program investigates what led the world's two largest economies to the brink, and the billions at stake.

"One Day in Gaza" looks at how mass protests on the Israel-Gaza border led to one of the deadliest days in a generation. One year later, this moment-by-moment investigation draws on exclusive interviews in Gaza and Israel and videos of the protests and bloodshed.

"Supreme Revenge" goes inside the noholds-barred war for control of the Supreme Court. From Brett Kavanaugh to Robert Bork, this investigation reveals how a 30-year-old grievance transformed the Court and turned confirmations into bitter, partisan conflicts.

"Sex Trafficking in America" exposes the hidden reality of sex trafficking, inside a police unit and a victim's harrowing story. It's an up-close look at how victims are groomed and sold, and the innovative ways undercover police target traffickers and buyers.

The above four episodes of **Frontline** air on 3-2 Tuesdays at 10:00 p.m. and repeat Thursdays at 7:00 p.m. beginning the 7th. On 3-1, they air Fridays at 9:00 p.m. beginning the 10th. Specific dates are listed in the AtoZs on pages 2 and 18.

**Frontline** producers frequently change their program schedule after this guide has gone to press. The above line-up is accurate as of this moment.

This award-winning documentary recounts the personal life journey of Mabel Dodge Luhan, an influential woman 100 years ahead of her time, who searches for love, freedom and spiritual transformation. The film traces her evolution as an independently wealthy writer, salon hostess, art patroness, social activist, defender of Native American and women's rights and resident of New Mexico.

In 1917, Mabel moved from Greenwich Village, New York to Taos, New Mexico and discovered the home she had been seeking—magical, untouched and luminous. She fell in love with and married a full-blooded Tiwa Indian from Taos Pueblo, in a time when this was revolutionary.

Inspired by the native culture and distinctive landscape, she invited many well-known artists, writers and social activists to Taos, forever shaping the character of the region. Mabel was responsible for bringing Georgia O'Keeffe, Ansel Adams, D.H. Lawrence and many others to New Mexico.
