Great Performances presents more of the Great White Way's brightest stars with a new "Broadway's Best" lineup.

"An American in Paris The Musical," George Gershwin's 1928 composition, rapidly became one of his most famous works. The 1951 MGM film starring Gene Kelly was inspired by Gershwin's score and became one of the most famous movie musicals in Hollywood history, winning six Academy Awards. This Broadway production was recorded during its May 2017 run in London's West End.

Beloved by generations, "Rodgers & Hammerstein's The Sound of Music" tells the inspiring true story of the von Trapp Family Singers and their escape from Austria during the rise of Nazism. The 1959 hit stage musical garnered five Tony Awards, including Best Musical, and the blockbuster 1965 movie adaptation won five Oscars, including Best Picture.

Then, **Great Performances** chronicles "John Leguizamo's Road to Broadway," beginning with his days as a stand-up comic in the 1980s to his latest theatrical showcase, "Latin History for Morons," a highly comedic yet pointed look at the systematic repression of Hispanic culture throughout American history.

Finally, "Harold Prince: A Director's Life" celebrates the extraordinary six-decade career of producer and director Harold Prince. Winner of 21 Tony Awards (the most of any individual), Prince's peerless résumé includes such legendary shows as "The Pajama Game," "Damn Yankees," "West Side Story," "Fiddler on the Roof," "Cabaret," "Company," "Follies," "Sweeney Todd," "Evita," "The Phantom of the Opera," "Kiss of the Spider Woman," and more.

Great Performances "Broadway's Best" airs on 3-2 Fridays at 9:00 p.m. beginning the 2nd (except 30th). On 3-1, the series airs Saturdays at 7:00 p.m. beginning the 3rd (except 24th), with "Harold Prince: A Director's Life" airing on Monday, December 3rd at 7:00 p.m.

A Squirrel's Guide to Success

From tiny chipmunks to big prairie dogs, the squirrel family is one of the most widespread on Earth. There are almost 300 species of squirrels that can outwit rattlesnakes, survive the coldest temperatures of any mammal, and glide through the air using a parachute-like membrane between their wrists and ankles. What is the secret to their success?

A flexible ankle joint allows squirrels to run headfirst down trees.

"A Squirrel's Guide to Success" on **Nature** features some of the world's top squirrel scientists who are making groundbreaking discoveries: from the brainy fox squirrel who can remember the location of 9,000 nuts to the acrobatic gray squirrel whose tree-top leaps are the basis for new designs in robotics.

Discover the extraordinary abilities of these cheeky nut lovers as a filmmaker puts their problem-solving to the test on a specially designed obstacle course. It's time to meet the animal family we should never underestimate—the squirrels.

VETERANS DAY – Honoring All Who Served

LAST B-24 on Nova

In 1944, the Tulsamerica, a smoking, battle-scarred B-24 Liberator bomber—nicknamed “the Flying Coffin”—crashed into the choppy seas off the coast of Croatia, entombing three of its occupants under 100 feet of water. For years they were lost to the world and their families. But in 2010, the Department of Defense discovered the plane’s location.

“Last B-24” on **Nova** follows the team of archaeologists on a dangerous mission to recover the fallen airmen and identify their remains. They deploy advanced technologies and sift through tons of sediment to find fragments of bones and clothing and a gold wedding band.

From the clandestine recovery of the remains, to the subsequent desalinization and dental forensics of the remains in the laboratory, the story of the Tulsamerica is riveting and emotional. **Nova** documents it all, including the moment a family hears the words they never expected to hear: “On behalf of a grateful nation...”

“Last B-24” on **Nova** will be broadcast on 3-2 Wednesday, the 7th at 8:00 p.m. and Saturday, the 10th at 10:00 p.m. On 3-1, it can be seen Thursday, the 8th at 4:00 p.m., Friday, the 9th at 8:00 p.m., Saturday, the 10th at 11:00 p.m., and Sunday, the 11th at 4:00 p.m. on KENW-TV.

WAR BIRDS: Diary of an Unknown Aviator

War Birds: Diary of an Unknown Aviator is based on the sensational 1926 novel by World War I aviator Elliott White Springs of South Carolina. When the novel *War Birds* was published, its frank depiction of the profligate lifestyle of pilots scandalized America and became the inspiration for movies such as “The Dawn Patrol” and “Wings.”

War Birds is the story of three young Southerners who join the British Royal Air Force in 1917 and become known as the Three Musketeers for their high-spirited ways. But the adventure of flying is soon offset by the realization that the majority of pilots die.

When the Three Musketeers finally reach the front in 1918, Springs and his friend, Mac Grider, dare each other to cross enemy lines in search of their first victory. They shoot down a German two seater but on the way home, Grider is shot down and killed.

Springs can never escape the guilt he feels for encouraging his friend to join him on a dangerous mission. Though he is the fifth ranking American ace, Springs is in no mood for glory. Instead, he decides to tell Grider’s story as a memorial to his friend, and to all pilots living and dead.

War Birds: Diary of an Unknown Aviator airs on 3-2 Sunday, the 11th at 10:00 a.m./2:00 p.m. and also Monday, the 12th at 9:00 p.m. On 3-1, it airs Monday, the 12th at 8:00 p.m.

LIFELINE: Pearl Harbor’s Unknown Hero

Narrated by actor Gary Sinise, **Lifeline: Pearl Harbor’s Unknown Hero** tells the story of how U.S. Navy sailor Joe George became an unlikely hero when the Japanese attacked Pearl Harbor on December 7, 1941.

A USS Vestal crewman, Joe had a defiant streak that often left him at odds with his superior officers. But on that “Day of Infamy,” Joe did something extraordinary. Ignoring a direct order to cut the lines from the USS Vestal, which was moored alongside the burning and sinking USS Arizona, the sailor made a crucial decision that saved six lives.

Joe could see that the crewmen were pleading for help as fire raged on the Arizona’s deck beneath them. He threw a weighted heaving line toward the men, who secured the line. One by one, they began to crawl over to the USS Vestal, hand over hand, and more than 50 feet above the water.

Joe was never recognized for his actions that day, until the men he saved from the USS Arizona took it upon themselves to see he received the award he deserved.

Lifeline: Pearl Harbor’s Unknown Hero airs on 3-2 Tuesday, the 6th at 7:00 p.m. On 3-1, it can be seen Monday, the 5th at 7:00 p.m.

INDEPENDENT LENS

The Cleaners

“Fake news.” Violent pornography. Terrorist propaganda. The initial dream of the internet as a utopian global community has evolved into something much more sinister. Steps have been taken to remove some of the internet’s most hateful sites and content, but who actually sifts through the net and removes them?

Independent Lens “The Cleaners” takes a frightening look at how social media sites like Facebook and YouTube monitor and delete offensive, pornographic, and subversive posts. While the guidelines for permissible content

are written in Silicon Valley, the work itself is outsourced to thousands of young Filipino workers in Manila.

“The Cleaners” delves into the lives of five of these content moderators, uncovering the reality of their often-traumatic work. With a quota of 25,000 images during the course of a ten-hour shift, the pace is grueling, and the content is even worse, exposing them to beheadings, child pornography, and filmed suicides.

Due to its disturbing and graphic content, PBS has designated that this program not be broadcast prior to 10:00 p.m.

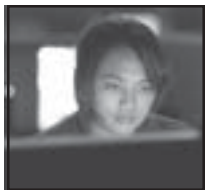

“The Cleaners” airs on 3-2 Monday, the 12th at 10:00 p.m. On 3-1, it airs Monday, the 12th at 12:00 midnight and Sunday, the 18th at 10:00 p.m.

Dawnland

The forced separation of children from their parents has a long history in America. For most of the 20th century, government agents systematically forced Native American children from their homes and placed them with white families. As recently as the 1970s, one in four Native children nationwide were living in non-Native foster care, adoptive homes, or boarding schools. Many children experienced shattering emotional and physical harm by adults who mistreated them and tried to erase their cultural identity.

“Dawnland” on **Independent Lens** reveals the untold story of Indigenous child removal in the United States through the first government-endorsed truth and reconciliation commission (TRC) in the nation, tasked with investigating the devastating impact of Maine’s child welfare practices on Native American communities. With exclusive access to this groundbreaking process, “Dawnland” bears witness to intimate, sacred moments of truth-telling and healing.

Dawnland” on **Independent Lens** airs on 3-2 Monday, the 5th at 9:00 p.m. and Sunday, the 25th at 11:00 p.m. On 3-1, it airs Sunday, the 11th at 9:00 p.m.

Blackbird: Legacy of Innovation

Blackbird: Legacy of Innovation chronicles the development of the SR-71 Blackbird strategic reconnaissance aircraft, an icon of aviation history that fundamentally changed aerospace design and dynamics. To this day, it remains the world's fastest and highest flying aircraft.

The SR-71 was designed and built in the 1960s as a classified military project by Lockheed Martin's Advanced Development Projects team. **Blackbird** examines the challenges encountered while working on the design.

Blackbird: Legacy of Innovation airs on 3-2 Thursday, the 15th at 7:00 p.m., Sunday, the 18th at 2:00 p.m., and Tuesday, the 20th at 10:00 p.m. On 3-1, it airs Monday, the 19th at 8:00 p.m.

World's Fastest Animal

See the world through the eyes of nature's fastest animal: the peregrine falcon. What's the secret behind the peregrine falcon's blistering speed, able to reach nearly 200 mph?

To find out, follow a young family of peregrines as the chicks hatch and learn from their parents to fly and hunt. And join expert falconer Lloyd Buck as he trains a captive peregrine and puts its hunting skills to the test.

Though once perilously endangered in the U.S., this spectacular predator is now thriving again in American cities and on every continent but Antarctica.
