In the midst of an historic pandemic, surging unemployment and growing economic uncertainty, American voters will head to the polls this fall to decide whether President Donald Trump or former Vice President Joe Biden will lead the country for the next four years. And as it has for every election since 1988, **Frontline**'s acclaimed series "The Choice" investigates the life stories of the two candidates: the moments that shaped them and the life method that has brought them to this point.

"The Choice 2020" prepares Americans not just to vote in the election, but to understand what drives the president who will be sworn in on January 20, 2021 to lead a country in crisis. Through revealing interviews with those who know Trump and Biden best, the two-hour special offers a deeply reported narrative of both candidates' lives.

"The only way you would get an acknowledgement out of Donald that he may have not done it right," Trump's personal lawyer Rudy Giuliani tells **Frontline**, "He would say, 'I think my dad would have done that differently."

## FRONTLINE

Joe Biden's sister, Valerie Biden Owens, recounts the impact of the death of Biden's wife and daughter in a car accident, shortly after his election to the Senate in 1972: "In six short weeks, we went from being on top of the world...he was the bright young hope. He went from that to being a young widower, a father of two children, and a single dad. And a man with a broken heart."

With trustworthy journalism and powerful new insights at a moment when anxious voters are being saturated with misinformation and partisanship, this clear-eyed documentary examines each man's approach to power and their visions for America's future at this pivotal juncture.

"The Choice 2020: Trump vs. Biden" on **Frontline** airs on 3-2 Tuesday, the 22nd at 8:00 p.m., Thursday the 24th at 7:00 p.m. and Sunday, the 27th at 5:00 p.m. On 3-1, it will be broadcast Friday, the 25th at 9:00 p.m.

### **Presidential & Vice Presidential Debates**

**PBS NewsHour Debate Specials** begin with the first of three proposed 2020 Presidential Debates to be broadcast on 3-2 Tuesday, the 29th at 8:00 p.m. On 3-1, the debate airs the same evening at 7:00 p.m. The proposed vice presidential debate is scheduled to be broadcast in early October.

### **Human Nature**

"Human Nature," a two-hour **Nova**, follows the discovery of CRISPR CAS-9 that has led to new approaches to treating genetic diseases. CRISPR sequences can be used to program cells to edit their own DNA, a revolutionary technology with the potential to change the course of human evolution.

Almost overnight, it became theoretically possible to change the unchangeable. This technology could be used to

cure cancer, sickle cell disease, muscular dystrophy and other devastating previously incurable genetic diseases. But it has also fueled a sharp debate over what constitutes a "normal" human being and whether we should ever seek to

change who we are by altering our genomes—or those of our children

Where do we draw the line with genetic manipulation? Whose diseases get cured? What is a disability? Do parents have a right to choose the characteristics of their children? What are the long term consequences of manipulating the human genome and changing forever the course of our evolution?

**Nova** engages the world's leading geneticists and scientists to explore the vast implications of this relatively new scientific discovery, and the difficult questions it poses.

The two-hour "Human Nature" on **Nova** will be broadcast on 3-2 Wednesday, the 9th at 7:00 p.m. and Saturday, the 12th at 10:00 p.m. Please check AtoZ on page 19 for 3-1 airdates/times.

## **Secret Mind of Slime**

**Nova** premiers "Secret Mind of Slime," a mind-blowing episode that blends science fiction, animation, the beauty of nature, humor and cutting-edge science to explore the bizarre "intelligence" of the blob, more commonly known as a slime mold. Neither animal, nor plant, nor fungus, the blob is a cunning, giant single—celled organism that has been around for a billion years. It can navigate mazes, choose between foods, create efficient networks, learn and make decisions—all without a brain.

**Nova** follows pioneering experts on an international investigation that could challenge our worldview on living matter and uncover the secrets of brainless intelligence.

"Secret Mind of Slime" airs on 3-2 Wednesday, the 16th at 8:00 p.m. and Saturday, the 19th at 10:00 p.m. Please see page 19 for 3-1 airdates/times.

## **How Writing Changed the World**

"How Writing Changed the World" is a two-part **Nova** that explores how writing has played a vital role in the expansion and domination of cultures throughout history. Writing shaped civilization itself, from the trading of goods to tales of ancient goddesses and kings. Researchers are only now uncovering the origin story to our own alphabet, which may have gotten its beginnings in a turquoise mine four thousand years ago.

Just as handwritten records changed how societies work, the printing press transformed the spread of information, igniting the Industrial Revolution. How did technologies—from pen to paper to printing press—make it all possible?

The two-part "How Writing Changed the World" airs Wednesdays at 8:00 p.m. beginning the 23rd and Saturdays at 10:00 p.m. beginning the 26th. Please check AtoZ on page 19 for 3-1 airdates/times.

## **–** Hispanic Heritage Month

## **Latino Americans**

## A 500 Year Legacy that Shaped a Nation

Latino Americans, a landmark six-hour documentary series, chronicles the rich and varied history and experiences of Latinos, who have for the past 500-plus years helped shape what is today the United States and have become, with more than 50 million people, the largest minority group in the U.S.

Latino Americans tells the story of early settlement, conquest and immigration; of tradition and reinvention; of anguish and celebration; and of the gradual construction of a new American identity from diverse sources that con-

nects and empowers millions of people today.

Survey the history and people from 1565-1880, as the first Spanish explorers enter North America, the U.S. expands into territories in the Southwest that had been home to Native Americans and English and Spanish colonies, and as the Mexican-American War strips Mexico of half its territories by 1848.

The American population begins to be reshaped by the influx of people that began in 1880 and continues into the 1940s, as Cubans, Mexicans and Puerto Ricans begin arriving in the U.S. and start to build strong Latino-American communities.

In recent decades, a second wave of Cubans arrive in Miami with hundreds of thousands Salvadorans, Nicaraguans and Guatemalans fleeing civil wars,

death squads and unrest to go north into a new land—transforming the United States

along the way. Simultaneously, the Latino influence is booming in music, sports, media, politics and entertainment. Today, the largest and youngest growing sector of the American population, Latino

Americans will determine the success of the United States in the 21st century. Latino Americans can be seen on 3-2 Mondays at 9:00 p.m beginning the 7th. It airs on

3-1, Mondays at 8:00 p.m. beginning the 7th.

## Voces on PBS "Children of Giant"

Voces on PBS "Children of Giant" explores how the making of a classic Hollywood movie transformed the lives of the residents of a small Texas town.

In the summer of 1955, it seemed as if all of Hollywood had descended on the dusty

West Texas town of Marfa as production began on the highly anticipated movie Giant. The film starred a legendary trio-Elizabeth Taylor, Rock Hudson and James Dean—along with the young actor Earl Holliman and 16-year-old Elsa Cardenas, who portrayed Juana, the Mexican-American girl who marries into the powerful Benedict ranching dynasty.

Based on Edna Ferber's controversial novel, Giant took an unflinching look at feminism and class divisions and was one of the first films to explore the racial divide between Anglos and Mexican Americans in the Southwest.

James Dean on location in Marfa, Texas, in 1955.

Now, "Children of Giant" returns to Marfa to explore the dramatic story behind the making of the film and its enduring legacy. The program combines interviews with the surviving cast and crew of Giant—including Earl Holliman and Elsa Cardenas—with the recollections of residents who participated in the production, many of whose lives mirrored the Giant's controversial themes of racism and segregation. The film's timely examination of racial prejudice is still relevant today.

Voces on PBS "Children of Giant" will be broadcast on 3-2 Sunday, the 13th at 6:30 p.m. On 3-1, it can be seen Sunday, the 20th at 9:00 p.m.

## Building the **American Dream**

Across Texas an unstoppable construction boom drives urban sprawl and luxury high-rises. Its dirty secret: abuse of immigrant labor. Building the American Dream captures a turning point as a movement forms to fight widespread construction industry injustices.

Grieving their son, a Mexican family campaigns for a life-and-death safety ordinance. A Salvadoran electrician couple owed thousands in back pay fight for their children's future. A family grieves the loss of a son, brother and father to heat illness on the job.

A story of courage, resilience and community, the film reveals shocking truths about the hardworking immigrants who build the American dream, of which they are excluded.

Building the American Dream can be seen on 3-2 Tuesday, the 15th at 8:00 p.m. Watch it on 3-1 Monday, the 21st at 7:00 p.m.

## Harbor from the Holocaust

Harbor from the Holocaust is the story of nearly 20,000 Jewish refugees fleeing Nazi-occupied Europe during World War II, to the Chinese port city of Shanghai.

The film focuses on Shanghai's complex and centuries-old association with Jewish immigrants, highlighting its welcoming of

tens of thousands of Jews desperate to flee Nazi persecution during WWII when the rest of the world had turned its back on them.

The film explores the extraordinary relationship of these Jews and their adopted city of Shanghai, even through the bitter years of Japanese occupation (1937-

Doris Fogel and her brother are shown on a trip to Shanghai, 1939.

1945) and the later Chinese civil war.

This Holocaust story of hope is told by the survivors' families and the traditions they carried on that would have been consigned to oblivion.

Harbor from the Holocaust will be broadcast on 3-2 Tuesday, the 8th at 8:00 p.m. and Sunday, the 27th at 10:00 p.m. It airs on 3-1 Wednesday, the 9th at 9:00 p.m.

## FRONTLINE

## United States of Conspiracy

In "United States of Conspiracy," Frontline investigates the alliance among conspiracy theorist Alex Jones, longtime Trump associate Roger Stone and the president and their role in the deepening battle over truth and lies. The documentary examines how once-fringe conspiracy theories came to be wielded as a tool at the highest levels of American politics.

A key player in that trend is Jones—who for years had been pushing a message that "elites" and "globalists" are part of a secret conspiracy that controls the world. The film pinpoints a pivotal moment in the mainstreaming of conspiracy theorist thought: then-candidate Donald Trump's appearance on Jones' *InfoWars* show during the 2016 campaign, a move that was brokered by frequent *InfoWars* guest and longtime GOP operative Stone.

"It was a signal to Jones' literally millions of followers that Trump was the man to support in the Republican primary," Stone tells **Frontline**.

The calculation paid off for all three men: "Roger delivers legitimacy to Alex Jones, and Alex Jones delivers to Trump disaffected voters that Trump needed to bring to the polls, in order to win," says Morgan Pehme, co-director of *Get Me Roger Stone*.

The three men built a template for American politics relying on chaos, conflict and conspiracy. Jones' methods and messages came to be echoed by Trump—sometimes verbatim—in campaign speeches and interviews.

Lenny Pozner, father of a child killed in the Sandy Hook shooting, today lives in hiding due to harassment from Jones' supporters who claim the massacre was staged. A man brought an assault rifle to a D.C. pizza shop where Jones claimed that Hillary Clinton and other "elites" were running a Satanic pedophile ring.

Gripping and revealing, this is the story how the idea of truth itself became part of America's divide, and what that means for the future of our democracy.

"United States of Conspiracy" on **Front-line** airs on 3-2 Tuesday, the 1st at 10:00 p.m. and Sunday, the 20th at 6:00 p.m. On 3-1, it airs Tuesday, the 22nd at 9:00 p.m.

## **Hacking Your Mind**

Hacking Your Mind, a four-part series, brings to life the new scientific discoveries being made about how we make decisions in every aspect of our lives—decisions as basic as what to eat, whether or not to buy something, who to mate with, and for whom to vote.

Though we imagine that our conscious minds make most of the decisions, in reality we go through most of our lives on autopilot. Our decisions are both predictable and also often far more irrational than we imagine.

New discoveries show how our "predictably irrational" decision-making is leading to new techniques that are "weapons of influence"—available to employers, advertisers, politicians and many others who want to influence our decisions. Leading experts explain this scientific revolution and the impact these discoveries can have on our lives.

Hacking Your Mind airs on 3-2 Wednesdays at 9:00 p.m. beginning the 9th and Sundays at 11:00 p.m. beginning the 13th. It airs on 3-1 Wednesdays at 8:00 p.m. beginning the 9th and Tuesdays at 7:00 a.m. beginning the 15th.

## 18 Voices Sing Kol Nidre

The Kol Nidre is the most sacred prayer in Judaism and begins its holiest day of Yom Kippur (September 27th–28th). **18 Voices Sing Kol Nidre** asks how did a prayer that doesn't even mention God become so important to one people, the Jews—and then to the world? The answer arrives when 18 storytellers share their tales about the prayer.

Each tells his or her story about the haunting melody: a renowned holocaust survivor remembers her Yom Kippur in Auschwitz when 1000 women accompanied the chant; a composer who demonstrates how the chant was adapted by non-Jewish musicians from Beethoven to Johnny Mathis to the Electric Prunes; and a film critic who shows how the Kol Nidre burst onto the general pop scene with the first talking film, "The Jazz Singer" in 1927, which included, among the first words ever heard on film, the Kol Nidre.

**18 Voices Sing Kol Nidre** airs on 3-2 Sunday, the 6th at 10:00 a.m. and Sunday, the 13th at 10:00 p.m. It airs on 3-1 Monday, the 7th at 7:00 p.m. and Tuesday, the 8th at 7:00 a.m.

## Michael Johnathon's WoodSongs Old-Time Radio Hour

WoodSongs is a live audience celebration of the music of America's "front porch." Different from other great shows like Mountain Stage and Live from Here, WoodSongs is music and conversation, giving the audience a rare look into the behind-the-scenes lives and stories of a diverse range of artists from Sweet Honey in the Rock to The Mavericks, from Judy Collins to Roger McGuinn, and from Bela Fleck to Tommy Emmanuel, and many more.

**WoodSongs** recently celebrated the production of its one thousandth show with Grammywinning Riders in the Sky, which premieres on KENW-FM Saturday, September 19th at 4:00 p.m.

The first hour will be a current production and the second hour at 5:00 p.m. will be a program from the **WoodSongs'** archives.
