

**Annual EEO Public File Report Form**  
**KETR-FM**  
**Annual EEO Public File Report**

The purpose of this EEO Public File Report (“Report”) is to comply with Section 73.2080(c)(6) of the FCC’s 2002 EEO Rule. This Report has been prepared on behalf of KETR-FM and is required to be placed in the public inspection files of this station and posted on its website, if it has a website.

The information contained in this Report covers the time period beginning April 1, 2009 to and including March 31, 2010 (the “Applicable Period”).

The FCC’s 2002 EEO Rules require that this Report contain the following information:

1. A list of all full-time vacancies filled by the Station during the Applicable Period;
2. For each such vacancy, the recruitment source(s) utilized to fill the vacancy (including, if applicable, organizations entitled to notification pursuant to Section 73.2080(c)(1)(ii) of the EEO Rules, which should be separately identified), identified by name, address, contact person, and telephone number;
3. The recruitment source that referred the hiree for each full-time vacancy during the Applicable Period;
4. Data reflecting the total number of persons interviewed for full-time vacancies during the Applicable Period and the total number of interviewees referred by each recruitment source utilized in connection with such vacancies; and
5. A list and brief description of the initiatives undertaken pursuant to sections 73.2080(c)(2) of the FCC Rules.

Appendices 1, 2, and 3, which follow, have been designed, in the aggregate, to provide the required information. Please note that the numbers listed on Appendix 2 under the column entitled “Full-time Positions for Which This Source Was Utilized” refer to the number of the full-time jobs listed on Appendix 1.

For purposes of this Report, a vacancy was deemed “filled” not when the offer was extended, but when the hiree accepted the job offer. A person was deemed “interviewed” whether he or she was interviewed in person, over the phone, or by email.

**Appendix 1 to Annual EEO Public File Report**

Covering the Period from April 1, 2009 to and including March 31, 2010

Station: KETR-FM

Section 1: Vacancy Information

Job Title	Recruitment Source of Hiree	Total Number of Interviews from All Sources for Position

There were no vacancies during the applicable period.

### **EEO Job Notification Resource List**

KETR contacts the following organizations whenever it seeks to hire new, full-time employees. In addition, it notifies all current employees of any new, full-time job openings that they may want to apply for. Organizations can request to be added to this notifications list by contacting Coletta Wright at 903-886-5668 or by email at [coletta.wright@tamuc.edu](mailto:coletta.wright@tamuc.edu). KETR, as a wholly-owned service of Texas A&M University-Commerce, is an Equal Opportunity Employer and encourages women and minorities to apply for positions.

## **Appendix 3 to Annual EEO Public File Report Form**

Covering the Period from April 1, 2009 to and including March 31, 2010

Station: KETR-FM

### **Section 3: Supplemental (Non-Vacancy Specific) Recruitment Activities Undertaken by KETR**

#### **Description of the Activities:**

##### **Job Fair:**

Each Spring and Fall, our host University's office of Career Development will conduct a "Career Fest" that will feature professionals from a wide variety of fields. KETR-FM generally participates in at least one of these fairs during each Applicable Period, where University students and the wider local community can learn about employment opportunities and the necessary skillsets and requirements for success the radio field, as well as hear real-life stories from our interns and staff about their experiences.

Our host university also welcomes and encourages KETR's participation each summer on multiple dates for the 'vendor fair' portion of new student orientation. The fair is designed to give incoming students an opportunity to learn about the various organizations that might provide a service to them during their involvement with the university. In the process, KETR has an opportunity to recruit students to become broadcasters and eventually employees.

KETR also has an involved presence at any and all "College preview days" on campus, where high school students are brought to the University to learn about what they may want to learn in preparation for their careers.

##### **On-Air Announcements:**

KETR-FM ran on-air announcements stating that the station is an Equal Opportunity Employer and that any organization wishing to be placed on the mailing list to learn of future job vacancies can contact the Station, as well as how to do so. KETR-FM ran these on-air announcements on a regular basis during varied time slots throughout the schedule for this reporting period.

##### **Practicum (Academic) Program:**

KETR-FM offers college and university students the opportunity to learn the day-to-day process and working of radio stations for school credit. Those who do not qualify for school credit are paid a stipend for their intern services. Additionally, academic coursework for Texas A&M University-Commerce's Radio and Television Broadcasting program majors and minors requires a semester of practicum with KETR-FM. The practicum typically lasts 14-15 weeks depending on a student's availability and the academic calendar. Participants may work as few as four or as many as 15 hours per week. The practicum program provides an opportunity for the

students to learn how to record and produce promotional, public service, and underwriting announcements, coordinate promotional events, be responsible for the control room board, work with broadcast talent, hone their skills as a web and radio journalist, and various other activities which teach interns the skills necessary for employment in the broadcasting industry. 30 students participated in the internship program during the reporting period.

**Educational Outreach:**

KETR-FM will periodically host local Boy Scout and Girl Scout troops for tours of the facility with Station professionals – twice each year at minimum. These tours often focus on the nature of and the science behind radio broadcasting, but will generally include discussions of different employment opportunities in the radio industry, and the types of education and training required to be successful in those positions.
