to say I don't. I do like your music programming so please don't take my rank ordering away.

I usually listen when I drive and I am doing very little driving right now. I'd usually listen to The World, so would add "international news" to the program. 30 minutes. Not opinions, just neutral facts (yes, I know I think you are doing a great job as is. Maybe add one time.... 6 pm....)

I think the Program mix is good. I think KZYX is an excellent station. It has so much to offer everyone. I really miss "City Arts & Lectures" on Friday evening. Heavyweight Sounds, Hawaiian Music, Happy with the way things are.

I feel you offer an excellent variety of programs, information and music. Classical music, but to each their own. Punk/hardcore/emo program. Hopefully, when I have more time, I'd like to host a show that was not your decision. I also much preferred On the Media at 6 pm on Sunday night rather than the new time of 7 pm.

Balanced politics. Grateful for ABC and BBC news which is no longer part of The World, but I know you can't do it all. I love Oak & Thorn! I love the mix as is. Punk/indie/alternative program. More or less is fine with your current programming, and you change in response to feedback. I do like your music programming so please don't take my rank ordering away.

I do like your music programming so please don't take my rank ordering away. Lots of local news, also more Spanish language programming. I'm happy-and listen to jukebox when I can't listen in the car etc. Grateful every day that I live in a place where I can hear it broadcast in my car. With ABC News programming, Selector J and the Redwood Soul Shakedown and the variety of music.

I think the Program mix is good. I think KZYX is an excellent station. It has so much to offer everyone.

I rely on the national and local news coverage and love ALL the jazz shows I like best. Discussion and talk about climate change, covid-19 and psyche issues. Global and local news. The World is the best. I am happy-and listen to jukebox when I can't listen in the car etc. All is good for now. No recommendations.

I am fine with your current programming, and you change in response to feedback. I would like less jazz, but I understand that you must cater to many varied tastes.

I think the Program mix is good. I think KZYX is an excellent station. It has so much to offer everyone.
Mendocino!

hear more about the agricultural, arts, and broadband developments in discussions for the remaining supervisor candidates. Would also love to Budget cut analysis, and how it will impact the community. Hosting called conspiracy theories turn out to be true, but we are told they opinions of national news organizations. For example, sometimes so-

Hartman's Friday show on Saturday morning, not Monday morning. Bring in some of the shows that are on at night, or too early. Have Thom Hartmann on before or in the morning at 7 AM? I can't really say - I think you do a stellar job of presenting an eclectic mix of news, music and talk shows.

I can't really say - I think you do a stellar job of presenting an eclectic mix of news, music and talk shows. Consolidate news shows into one time slot over the week. More diversity.

You do a good job. I'm satisfied.

AM. Same with Ralph Nader - 5 AM is absurd.

Considered, Fresh Air, Democracy Now, The World, Shortwave Report. Perfect as is - I cannot imagine it being better. I like the times & the mornings too.

More jazz...especially in late night and early hours. Like classical in the morning.

I'm very happy with the current programming. Smart rock shows like Kiss Kiss Bang Bang some years ago hosted by Jamal, Fair (real media analysis), E-Town at a reasonable hour. Consideration.

More call-in programs & more progressive early AM programs. Include International news & music programs at 1 PM.

More diversified self promotions. Our radio is on most the day. The hours are great. Don't like everything, but somebody else probably loves it. Not a fan of atonal jazz. I like featured exploration of science, art, literature, culture...but not, for example, "Living on Earth" with its highly formatted, "canned" presentation. I want less infotainment.

More health shows. We have lost a few.

KOZT does a much better round up of what's going on around the world and locally. KMUD has much more programming. KMUD has much more programming.

You do a good job. I'm satisfied. The current mix of shows, local to national, is good.

More Americana and Folk music, less Jazz. I think you have it covered in the hours I have to listen, thanks. More or less jazz shows
