You have started several times with interns or groups in locales working as news sources. Many folks have gotten their start in radio																								1	
through experience at kzyx so mixing internships with local news																								1	1

Keep up the good work! The improvements over the past year have been noticeable. It appears that Alicia Bales has had a significant																									
positive influence on the station, and she is great on the air. I don't																								1	
like some of the local programming in which I think some of the hosts tend to pontificate, and I sometimes feel impatient when																								1	
programs offer the opportunity for call-ins and people ramble on																								1	1
with their views (same thing, people pontificating), but when these programs come on, I just turn off KZYX. I understand that we all have																								1	
different tastes and preferences. And, the silent fund drive was great																								1

me into KZYX and then I enjoyed E-Town. Liking music on saturday				1																					1
night probably goes back to my youth in Wyoming when the media highlight of the week was the Grand Ol' Oprey on Satuday night,				1																					ĺ
(better even than Big John and Sparky and The Lone Ranger Saturday				1																					ĺ
morning. What are getting on KZYX these days? I like the REVEAL				1																					ĺ
show but do I really want to hear about criminal con-men ripping off drug addicts on Saturday night? How about some uplifting, lively				1																					
music on Saturday night. FAIR and Mumia? I can see where too																									1
much truth can be a burden. FAIR even dared to criticise NPR. Thanks for all your good work. I am a member anf dedicat listener.																									į l
The new leadership has greatly improved the station and Alecia is																									i I
great -smart and professional.	x			Х																				\vdash	\vdash
basically you are great Yes, kzyx has always been an Anderson Valley centric organization	X																								
and volunteers who do not live there are marginalized whether																									i I
intentional or not. This has been a longstanding issue and generally means kzyx only represents one part of the county. If you're not in																									į l
the 'AV clique' your voice is rarely heard whether it's because of the																									į l
location, where meetings or events are scheduled or simply not																									i I
being seen around on a regular basis. Because the staff is so small sometimes decisions are made w/o input from the broader base of																									i I
listeners and volunteers from whole county. So a small number of																									i I
decision makers with a lot of power but a narrow AV view that leaves those in other areas w/o their interests represented.							_																		i 1
with better funding the station could upgrade its studio location and							^																	\vdash	-
technical infrastructure. Keeping the signal up and strong is the #1																								,	(I
priority. Don't know of a way to improve	х																							_^	\vdash
I thought when I left the Bay Area that what I'd miss most was public																									
radiobut when I discovered KZYX, 25 years ago, I've been happy with it ever since. Really liking changes since Alicia has been there -																									į l
info shows in Spanish, more Native inclusion. I've appreciated the																									į l
Promise of Paradise & Sarah Reith's interviews of many homeless people. Hearing their stories humanizes them! I'd like more																									i I
interviews of local residents.	x	x																							i I
I appreciate the return of National Native News and the Pomo Hour.	Х							Х																	
Obituaries of community members done in a respectful short remembrance format Less advertising and less self advertizing.				1																					(l
Sometimes I hear a promotion for a program/show for the show																									
while it is onredundant. Improving the sound quality of shows and				1																					
recordings. Keep it going	X				×										-								X	\vdash	
The promotion of shows is really annoying. Most of us listen a lot and																									
we know when the regular shows are. We don't need to hear the promotional clips about them. Way too much of that! Thanks!																							×		1
I like the idea of a "morning dashboard" short piece (similar to the																									
weather) where there is a brief overview of COVID news and anything emergency (such as fires) could be included as well. It																									1
could be broadcast 2-3 times per day at the same time so people				1																					
know to tune in.					X																			-	\vdash
Change Ha Ha children's program to Sat mornings Keep "Sweet Smoke""Double Trouble" on Sat Poetry and Short Wave report																									
New Orleans show on Mon & Fri R& B Plays and Readings W Dan				1																					(l
Fresh Air Lot's of variation Alicia & all of you are doing a Fab job! Thank you	¥			¥																					
In my next life I might think of something! I love the station as it is!	X																								
The Program Director is too powerful. She is making arbitrary changes according to the kind of station she wants. I wish as listeners																									
we had some power. The one new program I appreciate is Dr. Drew																									
Colfax. Thank you for that.													х											\vdash	\vdash
Thank KZYX for its community service, and please keep broadcasting. wifi and smart phone service do not penetrate the mountainous part																									
of the county, yet there is a substantial population up here. KZYX has				1																					
literally been a lifeline during pandemic and wildfires.	Х																							\vdash	\vdash
Advertise the station. Sometimes I feel we are just singing to the choir. Programming seems more flexible now. I'd like to hear "51%"																									
and Ralph Nader but the hours				х																				\vdash	\vdash
Can't think of any at the moment.	Х		×																					\vdash	\vdash
Better news coverage I think, overall, you're doing a fantastic job. Thank you.	х																							\vdash	\vdash
More progressive - Less NPR. Need to reach out to the young																									\Box
population in our area - high school thru 20s and 30s. More diversity by race, age, culture, whatever.					×																				
and any any case, age, curtaine, with the control			1	1	_ ^	1

More election coverage; Biden's podcast.																									
You are doing a great job. Alicia is an amazing addition to KZYX!																									
I remain a staunch fan of KZYX.																									
I think you do a very good job of service to community. Very grateful for the effort & work that's put in.																									
I can't think of anything - I think you're already doing a great job.																									
Probably, but i am tired and "brain dead"																									
Thank you for preempting shows for live political stuff.
