Report on the Financial Statements

We have audited the accompanying financial statements of WKYU-FM Radio (the "Station"), a public broadcasting entity operated by Western Kentucky University, as of and for the years ended June 30, 2014 and 2013, and the related notes to the financial statements, which collectively comprise the Station's financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Station's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Station's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Station, as of June 30, 2014 and 2013, and its changes in financial position and its cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matters

As described in Note 2, the financial statements present only the Station and do not purport to, and do not, present fairly the financial position of Western Kentucky University as of June 30, 2014 and 2013 and the changes in its financial position and its cash flow for the years then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Matter

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 – 7 be presented to supplement the financial statements. Such information, although not a part of the financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the financial statements, and other knowledge we obtained during our audit of the financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

WESTERN KENTUCKY UNIVERSITY
WKYU-FM RADIO
NOTES TO FINANCIAL STATEMENTS
June 30, 2014 and 2013

NOTE 1 – NATURE OF OPERATIONS

WKYU-FM (the "Station") is a public radio station operated by and receiving support from Western Kentucky University (the "University"), Bowling Green, Kentucky. The Station is not considered a component unit but rather an operating unit of the University and is included in the financial statements of the University.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation: The Station prepares its financial statements as a business-type activity in conformity with applicable pronouncements of the Governmental Accounting Standards Board ("GASB"). The financial statement presentation provides a comprehensive, entity-wide perspective of the Station's assets, liabilities, net position, revenues, expenses, changes in net position and cash flows. The Station's financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred.

As discussed in Note 1, the financial statements of the Station are intended to present the financial position, the changes in financial position and cash flows, of only that portion of the activities of Western Kentucky University that is attributable to the transactions of the Station. They do not purport to, and do not, present fairly the financial position of Western Kentucky University as of June 30, 2014 and 2013, and the changes in its financial position and its cash flows, for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Revenue Recognition: Contributions, pledges and grants are recorded as revenue in the accompanying statements of activities. In-kind contributions, other than the contribution from the University, are recognized as revenue at the estimated fair value at the date of the gift.

The portion of the University's indirect costs attributable to the Station's operations and the value of space provided for broadcast facilities are included as revenues and expenses, and are computed in accordance with guidelines established by the Corporation for Public Broadcasting ("CPC"). Total indirect support from the University for the years ended June 30, 2014 and 2013 was \$309,353 and \$302,626, respectively.

Expenses: When an expense is incurred for which both restricted and unrestricted resources are available, the Station's policy is to allow for the flexibility to determine whether to first apply restricted or unrestricted resources based on the most advantageous application of resources in the particular circumstances.

Classification of Revenues: The Station has classified its revenues as either operating or nonoperating revenues according to the following criteria:

- *Operating revenues* – Operating revenues include activities that have the characteristics of exchange transactions, such as business and industry underwriting.
- *Nonoperating revenues* – Nonoperating revenues include activities that have the characteristics of nonexchange transactions, such as sales and services of auxiliary enterprises. Non-operating revenue includes activities that have the characteristics of non-exchange transactions, such as (1) college appropriations, (2) most federal, state, and local grants and contracts and federal appropriations, and (3) gifts and contributions.

June 30, 2014 and 2013

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Cash on Deposit With University: For administrative purposes, cash balances of the Station are included in bank accounts maintained by the University and the Western Kentucky University Foundation (the "Foundation"). Details of accounting transactions affecting cash are maintained by each entity.

The University currently uses commercial banks and the Commonwealth of Kentucky (the "Commonwealth") as depositories. Deposits with commercial banks are covered by federal depository insurance or collateral held by the University's agent in the University's name. At the Commonwealth level, the University's accounts are pooled with other agencies of the Commonwealth. These Commonwealth pooled deposits are substantially covered by federal depository insurance or by collateral held by the Commonwealth's agent in the Commonwealth's name.

The Foundation's cash is on deposit with commercial banks and is federally insured up to \$250,000 per bank by the Federal Deposit Insurance Corporation ("FDIC").

Accounts Receivable: Accounts receivable consists of business and industry underwriting and subscriptions and memberships. Accounts receivable are recorded net of estimated uncollectible amounts, if any.

Capital Assets: Capital assets are recorded at cost at the date of acquisition, or fair value at the date of donation if acquired by gift. Depreciation is computed using the straight-line method over the estimated useful life of each asset and is not allocated to functional expense categories. Equipment with an estimated useful life of greater than one year and a cost of \$5,000 is capitalized and depreciated with one-half year's depreciation taken during the year of purchase or donation. Construction in progress is capitalized when incurred. Routine repairs and maintenance are charged to operating expense in the year in which the expense was incurred or when the project was closed and is identified as projects less than \$100,000. The Station continues to track equipment with a cost of \$500 or more for insurance purposes consistent with applicable Kentucky Revised Statutes but does not capitalize items at these lower thresholds. The following estimated useful lives are being used by the Station:

- | | |
|--|---------------|
| • Buildings and building improvements | 15 - 40 years |
| • Furniture, fixtures and equipment | 3 - 15 years |
| • Land improvements and infrastructure | 20 years |

Unearned Revenue: Unearned revenue includes grant funding received from the Corporation of Public Broadcasting ("CPB") that has not been expended at the end of the fiscal year. CPB provides funds to the Station at the beginning of a funding period. Thus, any unspent CPB funds at the end of the fiscal year are recorded as unearned revenue until qualifying expenses have been incurred.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenses and other changes in net position during the reporting period. Actual results could differ from those estimates.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Recent Accounting Pronouncements Adopted/Implemented:

- GASB Statement No. 67, *Financial Reporting for Pension Plans – an amendment of GASB Statement No. 25*, issued June 2012. The provisions of this Statement are effective for periods beginning after June 15, 2013. This Statement is intended to improve financial reporting by state and local governmental pension plans. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for pensions with regard to providing decision-useful information, supporting assessments of accountability and inter-period equity, and creating additional transparency. This Statement is not directly applicable to the Station, but applies to the defined benefit pension plans that the Station participates in through the University, which are described in Note 4.
- GASB Statement No. 70, *Accounting and Financial Reporting for Non-exchange Financial Guarantees* - In April 2013, the objective of this Statement is to improve accounting and financial reporting by state and local governments that extend and receive non-exchange financial guarantees. This Statement requires a government that extends a non-exchange financial guarantee to recognize a liability when qualitative factors and historical data, if any, indicate that it is more likely than not that the government will be required to make a payment on the guarantee. This liability should be reported until legally released as an obligor. This Statement also requires a government that is required to repay a guarantor for making a payment on a guaranteed obligation or legally assuming the guaranteed obligation to continue to recognize a liability until legally released as an obligor. When released as an obligor, the government should recognize revenue as a result of being relieved of the obligation. This Statement also provides additional guidance for intra-entity non-exchange financial guarantees involving blended component units by specifying the information required to be disclosed by governments that extend non-exchange financial guarantee as well as new information to be disclosed by governments that receive non-exchange financial guarantees. Adoption of this Statement did not have a material impact on the Station's financial statements.

Recent Accounting Pronouncements: As of June 30, 2014, the GASB has issued the following statements not yet implemented by the Station.

- GASB Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27*, Issued June 2012. The provisions for this statement are effective for fiscal years beginning after June 15, 2014. This statement is intended to improve accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. The Station's management is working with the Kentucky Teachers Retirement System and the Kentucky Employees Retirement System to determine the impact of this pronouncement on the Station's financial statement.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

- GASB Statement No. 69, *Government Combinations and Disposals of Government Operation* - In January 2013, this Statement establishes accounting and financial reporting standards related to government combinations and disposals of government operations. This Statement requires the use of carrying values to measure the assets and liabilities in a government merger. This Statement also requires measurements of assets acquired and liabilities assumed generally to be based upon their acquisition values. This Statement also provides guidance for transfers of operations that do not constitute entire legally separate entities and in which no significant consideration is exchanged. This Statement defines the term operations for purposes of determining the applicability of this Statement and requires the use of carrying values to measure the assets and liabilities in a transfer of operations. This Statement provides accounting and financial reporting guidance for disposals of government operations that have been transferred or sold. This Statement requires disclosures to be made about government combinations and disposals of government operations to enable financial statement users to evaluate the nature and financial effects of those transactions. The provisions of this Statement are effective for the Station's fiscal year ended June 30, 2015. Management has not determined what impact, if any, this GASB statement might have on its financial statements.
- GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date* – In November 2013, the objective of this Statement is to address an issue regarding application of the transition provisions of Statement No. 68, *Accounting and Financial Reporting for Pensions*. The issue relates to amounts associated with contributions, if any, made by a state or local government employer or nonemployer contributing entity to a defined benefit pension plan after the measurement date of the government's beginning net pension liability. The provisions of this Statement are required to be applied simultaneously with the provisions of Statement 68. The provisions of this Statement are effective for the Station's fiscal year ended June 30, 2015. Management has not determined what impact, if any, this GASB statement might have on its financial statements.

NOTE 6 – RISK MANAGEMENT

The Station and University are exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; business interruption; errors and omissions; employee injuries and illnesses; natural disasters and employee health and accident benefits. Commercial insurance coverage is purchased for claims arising from such matters other than those related to workers' compensation, employee health and certain natural disasters. Settled claims have not exceeded this commercial coverage in any of the three preceding years.

In 2006, the University opted out of the Kentucky public entity risk pool and began self-insuring workers' compensation claims. The University contracts with a third-party administrator for administration services related to workers' compensation claims.
