* NOAA/NWS is not required to transmit an RWT. Other alerts sent during the same period verify reception. If none are received during the period, NOAA audio input to the ENDEC should be checked to verify it's presence.

The individual log for KUWL / KUWY/KUWR-HD2/KUWR-HD3/ has been checked and cross-referenced for accuracy. This summary and accompanying information is located / detailed here: http://wyomingpublicmedia.org/station-eas-operational-log It been checked and verified as accurate. A signed/dated copy of this document is maintained in the WPR Engineering area.
