New Program *Are We Alone?*

Are We Alone? is a weekly hour-long radio magazine that covers a wide range of topics relevant to the new science of astrobiology. The program is hosted by the SETI Institute's Senior Astronomer, Dr. Seth Shostak and airs on WVPE at 7a.m. on Sundays.

From parallel universes to the mapping of the Neanderthal genome, this show features the latest news in genetics, paleontology, physics, evolutionary biology, cosmology and astronomy.
