**v.**

**LOUISVILLE METRO POLICE DEPARTMENT**

**DEFENDANT**

---

**COMPLAINT**

Plaintiff, the 490 Project, brings this lawsuit under the Open Records Act (the “Act”) against the Louisville Metro Police Department to compel disclosure of public records related to complaints against its officers.

Kentucky’s Open Records Act provides for the “free and open examination of public records.” KRS 61.871. That policy is subject to only a few exemptions enumerated by the Act, which are to be “strictly construed.” *Id.*; *See Kentucky New Era, Inc. v. City of Hopkinsville*, 415 S.W.3d 76, 80 (Ky. 2013). If an agency seeks to withhold records under these exemptions, it must “include a statement of the specific exemption authorizing the withholding of the record and a brief explanation of how the exception applies to the record withheld.” KRS 61.880. The “burden of proof shall be on the agency” to prove the applicability of the claimed exemption.

Here, LMPD has withheld the requested public records without even attempting to invoke one of the Act’s exemptions. Indeed, three of the four open records requests submitted by the 490 Project remain unanswered months after they were submitted to LMPD. The fourth was denied by LMPD by claiming that the

requested records related to a citizen complaint filed against its officers do not exist. But that denial raises more questions than it answers. Louisville/Jefferson County Metro Government’s Record Retention Schedule clearly requires LMPD to retain all “formal complaints” against its officers for at least five years. (Record Retention Schedule, p. 53, **Exhibit 1**). It requires LMPD to retain “informal complaints” for at least two years. *Id.* at 12, 71. From April 1, 2020 to December 20, 2021 (the time period for which the 490 Project requested complaints against LMPD officers), LMPD’s collective bargaining agreement contained a policy that LMPD shall destroy informal citizen complaints after 90 days—directly contradicting its obligations under state record retention schedules. (June 2018 Collective Bargaining Agreement, Article 17 **Exhibit 2**). LMPD has since negotiated a new collective bargaining agreement that requires “complaint inquiry forms” taken out against its officers to be “retained pursuant to Louisville Metro’s Commonwealth approved document retention policy.” (June 2023 Collective Bargaining Agreement, Article 17, **Exhibit 3**). LMPD’s refusal to respond to the 490 Project’s request makes it impossible to determine if LMPD continues to prematurely destroy complaints against its officers in violation of state law.

If LMPD does not possess these public records as it claims, it must explain why it has not complied with state record retention laws. That is particularly true here, where LMPD has refused to produce the requested destruction certificates that it is legally obligated to create when it destroys public records. *See Record Retention Schedule* (Glossary of Terms). If LMPD has in fact unilaterally deleted these records

without documentation, it raises serious records management issues that subvert the intent of the Open Records Act and compromises LMPD's statutory duty "to provide accountability of government activities." KRS 61.8715.

Of course, the "informal" and "formal" labels created by the retention schedule have no bearing on whether the complaints must be produced under the Act. It is well-established that an agency cannot avoid its open records obligations by labeling complaints "informal." See *Kentucky State Bd. Med. Licensure v. Courier-J. & Louisville Times Co.*, 663 S.W.2d 953 (Ky. Ct. App. 1983); *Palmer v. Driggers*, 60 S.W.3d 591 (Ky. Ct. App. 2001). Rather, the Act requires release of all records that are "prepared, owned, used, in the possession of or retained by a public agency" unless subject to one of the Act's narrow exemptions. KRS 61.870(2). Because LMPD has not invoked *any* of those exemptions here, it *must* release the requested records.

### **PARTIES, JURISDICTION, AND VENUE**

1. The 490 Project is a Kentucky nonprofit corporation with its principal office address at PO Box 9, Glenview, Kentucky 40025.

2. The Louisville Metro Police Department ("LMPD") is a "[p]ublic agency" within the meaning of KRS 61.870(1) and is located at 633 West Jefferson Street, Louisville, KY 40202.

3. This action is brought pursuant to KRS 61.882 to challenge LMPD's denial of open records requests submitted by the 490 Project in violation of the Open Records Act (the "Act") and to obtain declaratory and injunctive relief requiring LMPD to disclose public records as required by the Act.

4. Jurisdiction and venue in the Court are proper because LMPD's personal place of business is in Jefferson County, Kentucky and because the public records at issue in this action are located here in Jefferson County, Kentucky.

### **FACTS**

5. The 490 Project is a Louisville based organization that advocates for police reform and transparency.

6. As part of their work, the 490 Project submitted four open records requests to LMPD that remain unanswered or were denied in violation of the Act.

7. The First Request (No. 22-4468) was submitted on May 9, 2022. It sought all documents “pertaining to citizen complaints, whether informal, formal, or howsoever characterized, made to LMPD or about LMPD or its agents for the period of April 1, 2020 through present.” (First Open Records Request, **Exhibit 4**).

8. On May 17, 2022—beyond the five-day deadline imposed by the Act—the 490 Project had not received any response from LMPD. On that day, the 490 Project contacted LMPD to “narrow the scope” of its request to “separate informal complaints” from “formal complaints.” *Id.* The 490 Project offered to submit another request if necessary. *Id.* at 4.

9. A week later, LMPD finally contacted the 490 Project and informed it that the requested records “are in active use, in storage or not otherwise readily available.” LMPD indicated there are over 300 complaints for the relevant time period that LMPD claimed they needed to be “research[ed], review[ed], and redact[ed]” before LMPD will disclose them. LMPD represented that its response “will be available on or before the close of business July 11, 2022.” *Id.*

10. Because LMPD did not clarify whether it intended to produce both formal and informal requests, the 490 Project followed-up later that day to specifically request LMPD provide informal complaints against its officers. *Id.* at 3-4.

11. In response, LMPD informed the 490 Project that it “will be providing records for 36 formal complaints.” *Id.* at 3. LMPD did not explain the discrepancy between its initial estimate of the number of complaints and its commitment to produce only a small fraction of them.

12. Over a month later, LMPD had not yet produced a single record in plain violation of the Act and their self-imposed July 11 deadline. This delay prompted the 490 Project to follow-up asking “are these documents going to be provided? I believe July 13 was the estimated delivery date.” *Id.* at 3.

13. After another month of waiting, the 490 Project followed-up again on August 30, 2022 with no answer from LMPD. The 490 Project has yet to receive any records from LMPD or any explanation for its over three-and-a-half-month delay.

14. The Second Request (No. 22-4469) was also submitted on May 9, 2022. (Second Open Records Request, **Exhibit 5**). It sought “all records documenting or pertaining to citizen complaints, whether informal, formal, or howsoever characterized made about LMPD or its agents and/or to LMPD about officer misconduct or rule violations for the period of April 1, 2020 through present.” *Id.* at 1.

15. Three days later, LMPD responded by denying the request because LMPD believed it was “a duplicate from the same requester.” *Id.* at 43. The 490 Project followed up five times to inform LMPD that it was not a duplicate request because the First Request sought informal complaints and the Second Request sought formal complaints.

16. To date, LMPD has not provided any additional response to the 490 Project’s Second Open Records Request.

17. The Third Open Records Request (No. 22-5082) was submitted to LMPD on May 24, 2022. (Third Open Records Request, **Exhibit 4**). It sought all records related to a citizen complaint filed “by Nancy Cavalcante in August 2020 about LMPD, its agents, and/or LMPD about officer misconduct and rule violations.” *Id.* The request specifically sought all complaints filed by Ms. Cavalcante, including record of any “informal complaints” in LMPD’s possession. *Id.*

18. Almost a month later, well beyond the five-day deadline mandated by the Act and after several follow-up messages from the 490 Project, LMPD denied the request claiming that no such records exist. *Id.* at 1.

19. The 490 Project responded requesting LMPD produce the certificate of destruction that it is required to be created upon destroying any public records. That request was ignored by LMPD. Under the record retention schedule, LMPD was required to retain Ms. Cavalcante’s complaint for at least two years.

20. Still without receiving a single record from LMPD, the 490 Project submitted a Fourth Open Records Request (No. 22-5603) on June 7, 2022. (Fourth

Open Records Request, **Exhibit 5**). It sought all records “documenting or pertaining to citizen complaints, any informal, or however characterized, made to LMPD or about LMPD or its agents for the period of April 1, 2020 through May 1, 2021.”

21. LMPD responded the next day by falsely claiming the Fourth Request was a duplicate of the First Request, and therefore closed the Fourth Request. *Id.* at 2-3. LMPD did not mention its failure to respond to the First Request, now months beyond the legal deadline. And, on its face, the Fourth Request is not a duplicate because it seeks complaints against LMPD officers during a different (and shorter) time period than the First Request.

22. Moreover, the 490 Project felt compelled to file the Fourth Request to ensure that LMPD was including “informal complaints” in its search for records. The assurance was necessary after LMPD indicated in its response to the First Request that it was inappropriately limiting its search to “36 formal complaints.” *See* First Open Records Request.

23. LMPD has yet to produce any records responsive to any of the 490 Project’s open records requests. Nor has LMPD identified an exemption to the Open Records Act that allows it to withhold the requested public records.

#### **COUNT I – VIOLATION OF THE OPEN RECORDS ACT**

24. The 490 Project hereby incorporates and restates the allegations set forth in all preceding paragraphs of the Complaint.

25. Under the Open Records Act, the 490 Project is entitled to the release of all records in LMPD’s possession responsive to the 490 Project’s four open records requests.

26. LMPD willfully violated the Open Records Act when it refused to even invoke any of the Act's exemptions while withholding public records responsive to the 490 Project's requests.

27. Pursuant to KRS 61.882(2), the 490 Project is entitled to seek injunctive and other relief from LMPD's unexplained denials without first seeking relief from the Attorney General under KRS 61.880.

28. Pursuant to KRS 61.882(4), this action should take precedence on this Court's docket over all other actions and should be assigned for hearing or trial at the earliest practicable date.

29. Pursuant to KRS 61.882(5), the 490 Project is entitled to recover its costs, reasonable attorney's fees from this lawsuit, and statutory penalties because LMPD has willfully withheld the requested records in violation of the Open Records Act.

## **COUNT II – DECLARATORY JUDGMENT**

30. The 490 Project hereby incorporates and restates the allegations set forth in all preceding paragraphs of the Complaint.

31. LMPD previously adopted an official policy that distinguishes between formal and informal complaints for record retention purposes.

32. LMPD voluntarily agreed in its previous collective bargaining agreement with its officers to delete "informal" complaints after only 90 days—in plain violation of their own records retention schedule. It has since updated its collective bargaining agreement to bring LMPD within compliance of state open

records law, but LMPD's refusal to produce informal citizen complaints submitted after that date suggests LMPD is not following its new policy.

33. Pursuant to Kentucky Declaratory Judgment Act KRS 418.040 et. seq., the 490 Project is entitled to a declaration and finding that LMPD's policy treating "informal complaints" differently than "formal complaints" for purposes of records retention violates the Open Records Act.

34. The 490 project is also entitled to a declaration that LMPD's policy of deleting "informal" complaints sooner than the record retention schedule allows violates the Open Records Act and state record retention laws. Upon information and belief, LMPD has prematurely deleted citizen complaints that the 490 Project has a reasonable basis to know were filed.

WHEREFORE, the 490 Project respectfully requests the following relief:

1. An injunction ordering LMPD to immediately disclose the requested records;
2. A declaratory judgment as requested in Count II;
3. An award to the 490 Project of its costs, including reasonable attorneys' fees, in connection with this matter pursuant to KRS 61.882(5);
4. An award to the 490 Project of statutory penalties pursuant to KRS 61.882(5); and
5. The 490 Project is also entitled to a declaration that LMPD's policy of deleting "informal" complaints sooner than the records retention schedule allows violates Kentucky law, including the Open Records Act.

6. All other relief to which the 490 Project may be entitled.

Respectfully submitted,

## Records Retention Schedule

Prepared by the Local Records Branch  
Archives and Records Management Division  
Approved by the State Libraries, Archives, and Records Commission

Kentucky Department for Libraries and Archives

## GLOSSARY OF TERMS

### For Records Retention Schedules

<b>Permanent (P)</b>	Denotes records appraised as having historical, informational or evidential value that warrants preserving them permanently (forever) beyond the time needed for their intended administrative, legal or fiscal functions. These records may be destroyed <b>only</b> after the written permission is given by the State Archivist and after they are microfilmed according to specifications published by the Department for Libraries and Archives.
<b>Confidential (C)</b>	Records deemed unavailable for review by the public after applying the state's Open Records Law (KRS 61.878) and other state and federal statutes and regulations with specific restrictions. The (C) is added to appropriate record series descriptions as a reminder to agency personnel and does not bear any legal status. <b>It is important to note that the local government head has the responsibility of knowing all the appropriate confidentiality laws, statutes and regulations that apply to the records maintained in their office and to see that they are enforced.</b> Even though a record series may or may not be marked confidential on a records retention schedule, contradictory laws or regulations that are approved after the retention schedule has been completed may not be reflected but must be honored.
<b>Vital Record (V)</b>	Records that are essential to the continued functioning of the local government during and after an emergency, as well as those records that are essential to the protection of the rights and interests of that local government and of the individuals for whose rights and interests it has a responsibility. Local Government should have a plan in place to identify those records and provide for their protection in case of a disaster (fire, flood, earthquake, etc.).
<b>Duplicates</b>	Duplicate records that have not been assigned a retention period and function solely as reference and informational material may be destroyed when no longer useful. If the duplicate is considered the "copy of record", it must be retained according to the retention period on the schedule.
<b>Destruction Certificate</b>	A destruction certificate should be used to document the destruction of public records and may be found, along with the instructions at the Kentucky Department for Libraries and Archives website ( <a href="http://www.kdla.ky.gov">www.kdla.ky.gov</a> ). It should be used when destroying records according to the appropriate records retention schedule. No record created or maintained by a local government agency may be destroyed unless it is listed on the retention schedule and a destruction certificate completed and the original copy sent to the Department for Libraries and Archives (Department).
<b>After Audit</b>	A term used in the disposition instructions to denote a records series that shall only be destroyed after the retention period has expired and an official audit has been performed. Example: 3 years and audit: This means that the record series must be kept for 3 years after last activity or date in a file. The record must have gone through the annual audit before it can be destroyed.

Series	Records Title and Description	Function and Use
L6243	<b>Official Correspondence</b>	This record series documents the major activities, functions, events and programs of Metro Government and in addition helps in the establishment of an administrative history. It provides a record of policy evolution and formulation, how and why decisions are made, and how these decisions impacted the local government and the public at large. This series is usually created by the chief administrative officer of the local government and also by administrative heads of official departments, commissions, boards and agencies within the local government. The series provides adequate and proper documentation of agency matters, as required in KRS 171.640. Official correspondence has traditionally been in paper format (handwritten or typed) but is increasingly found in electronic format such as email.
	<b>Access Restrictions</b>	None
	<b>Contents</b>	Official correspondence is incoming and outgoing correspondence that may consist of: letters, notes, memoranda, directives, policy statements, and other information commonly found in the body of the message and/or any attachments to the message. Electronic mail messages also contain transactional information (sender, recipient, date, subject, etc.) in the header of the message and in the properties field of the electronic file.
	<b>Retention and Disposition</b>	Retain permanently.
L6244	<b>Routine Correspondence</b>	This series can be found at all levels of an organization and documents business related correspondence that is not crucial to the preservation of the administrative history of an agency. It consists of correspondence that is of a non-policy nature and deals only with the day-to-day, general operations of an agency. General correspondence has traditionally been in paper format (handwritten or typed) but is increasingly found in electronic format such as email.
	<b>Access Restrictions</b>	None
	<b>Contents</b>	Routine correspondence is incoming and outgoing correspondence that may consist of: letters, notes, postcards, memoranda, announcements, or other information commonly found in the body of an e-mail message and/or any attachments. Electronic mail messages also contain transactional information (sender, recipient, date, subject, etc.) in the header of the message and in the properties field of the electronic file. Routine correspondence does not include: non-business related messages, spam and junk mail.
	<b>Retention and Disposition</b>	Retain 2 years, then destroy.
L6245	<b>Nonbusiness Related Correspondence</b>	This series represents paper correspondence and email that is commonly found at all levels of an organization and is not related to agency business. It consists of messages of a purely personal nature, spam, and other unsolicited correspondence. (See contents for more detailed descriptions.) Agency staff should destroy or delete these records upon receipt because they are not business-related, and because agencies may be required to produce them under legal orders or open records requests. This type of correspondence is problematic for many reasons: SPAM and unsolicited messages (1) tend to exist in tremendous quantities, which can overwhelm an email system; (2) are usually unwanted; (3) can be offensive; and (4) are potentially virus laden. Personal messages (1) take away from an employee's work time; (2) may be interspersed with business related email, making management difficult and exposing the agency to potential embarrassment and legal risk; and (3) may be a violation of the agency's email and Internet acceptable use policy. Given the nature of email, the existence of this type of correspondence is inevitable and agencies are encouraged to train employees to delete it as soon as possible. See "Guidelines for Managing Email in Kentucky Government"(KDLA Website) for more information on managing email correspondence.
	<b>Access Restrictions</b>	None
	<b>Contents</b>	Nonbusiness related correspondence is incoming and outgoing correspondence that may consist of: Paper records that may be personal, unsolicited and unwanted that has nothing to do with agency business. Email that may be: (1) Personal messages: While a certain amount of personal material maybe acceptable, abuse of the system can lead to disciplinary action and even dismissal. All agencies should have an appropriate use policy that determines the amount of personal messages acceptable on the system. (2) SPAM is the term for electronic junk mail. It is completely unsolicited and unwanted. It can be offensive in nature, can carry viruses and is sent as a way of disrupting normal business operations. (3) Unsolicited messages are email that may be unwanted, but is somewhat business related such as advertising from vendors and non-work related email from coworkers such as jokes and forwards, miscellaneous news articles, non-work related announcements, etc.
	<b>Retention and Disposition</b>	Destroy all nonbusiness related records and delete all non business related email immediately.

L6218	<b>Program Delegation Records (V)</b>	The Federal government may delegate the primary responsibility for implementing a federal program at a state level pursuant to 40 CFR. To receive program delegation, the agency must implement a program that is at least as stringent as the federal program and be able to demonstrate that it has the capacity to maintain oversight of the program. If the federal government concurs with this request, the state is given primacy to implement the program and the federal government retains a oversight role to ensure the agency maintains its responsibilities under the delegations. The Kentucky Legislature established this process to encourage staff to routinely evaluate their facility's compliance and take steps to correct any areas that do not meet the regulatory standards. This record series documents the evaluation conducted by the facility, the finding of non-compliance, and then documents the processes implemented by the facility to correct the violations.

L6265	<b>State Implementation Plan (SIP) (V)</b>	This record series is used to document air quality standards mandated by federal guidelines. Under the federal Clean Air Act, each state must develop a plan describing how it will attain and maintain national ambient air quality standards (NAAQS), which is how it will clean up polluted areas and keep them clean. This plan is called a state implementation plan (SIP). The state must involve the public in approving the plan before it is submitted to the US EPA. If the EPA finds a plan unacceptable, it can promulgate and enforce a Federal Implementation Plan (FIP) in that state. The Air Pollution Control Board (APCD), as the only local air pollution control agency in Kentucky, has developed and maintains its own SIP (a portion of the Kentucky SIP), made up of all the key regulations, permits and programs that have been determined to be necessary and appropriate for Louisville/Jefferson County to achieve compliance with the federal standards for certain pollutants—currently for ozone and particulates and in the past for carbon monoxide and sulfur dioxide. The details of the SIP are decided by the Air Pollution Control Board based on recommendations by District staff and stakeholder groups. This is continually updated as federal regulations change. This function of developing and maintaining an adequate and federally approvable SIP is one of the agency's most complex and important functions. On a continuous basis, the SIP staff track federal SIP requirements, identify necessary and appropriate strategies to make progress toward achieving compliance with federal air quality standards and help seek the adoption of those strategies whether through new programs, regulations, permits or other effective means.

  - c) Handle the complaint in an informal manner. In these cases, no investigative paperwork is entered into a Member's personnel file.
- ix. The complaint inquiry form shall be maintained solely and exclusively by the PSU. The contents of this information shall be transmitted to the Chief or his designee for appropriate handling. The interrogation shall be conducted while the officer is on duty. The police officer may be required to submit a written report of the alleged incident if the request is made by the department no later than the subject officer's next tour of duty after the tour of duty during which the department initially was made aware of the charges. A Member required to submit a written report shall be informed in writing of the nature of the alleged misconduct or rule violations.

- D. All statements or interrogations of Members, complainants and other witnesses shall be electronically recorded. Statements obtained from complainants, either sworn or otherwise, shall be transcribed and sworn to. - L. If a police officer is under arrest, or likely to be arrested, or a suspect in a criminal investigation, he shall be afforded the same constitutional due process rights that are accorded to any civilian, including, but not limited to, the right to remain silent and the right to counsel, and shall be notified of those rights before any questioning commences. Nothing in this section shall prevent the suspension with or without pay or reassignment of the police officer pending disposition of the charges.

### Section 3: Disposition of Investigation

The disciplinary action taken should be determined by the seriousness of the misconduct and by the extent of the wrongdoing or injury to the victim. It shall also be commensurate with the circumstances surrounding the total incident and with the Member's service record and prior sustained complaints.
- D. No previous discipline against a Member may be considered by Metro Government or the Chief as the basis for any subsequent discipline or an involuntary transfer except as follows:
  - i. A previous written reprimand may be considered for one (1) year following the issuance of the reprimand.
  - ii. A previous suspension of seventy-two (72) hours or less, or an involuntary transfer may be considered for three (3) years following the issuance of the suspension.

  - iii. If any hearing is based upon a complaint of an individual, the individual shall be notified to appear at the time and place of the hearing by certified mail, return receipt requested;
  - iv. If the return receipt has been returned unsigned, or the individual does not appear, except where due to circumstances beyond his control he cannot appear, at the time and place of the hearing, any charge made by the individual shall not be considered by the hearing authority and shall be dismissed with prejudice;
  - v. The accused police officer shall have the right and opportunity to obtain and have counsel present, and to be represented by the counsel;
  - vi. The appointing authority, legislative body, or other body as designated by the Kentucky Revised Statutes shall subpoena and require the attendance of witnesses and the production by them of books, papers, records, and other documentary evidence at the request of the accused police officer or the charging party. If any person fails or refuses to appear under the subpoena, or to testify, or to attend, or produce the books, papers, records, or other documentary evidence lawfully required, the appointing authority, legislative body, or other body as designated by the Kentucky Revised Statutes may report to the Circuit Court or any judge thereof the failure or refusal, and apply for a rule. The Circuit Court, or any judge thereof, may on the application compel obedience by proceedings for contempt as in the case of disobedience of the requirements of a subpoena issued from the court;
  - vii. The accused police officer shall be allowed to have presented, witnesses and any documentary evidence the police officer wishes to provide to the hearing authority, and may cross-examine all witnesses called by the charging party;

Section 2. Custody and Review

- B. Members on military leave that appear on active Louisville Metro Police Merit Board promotional eligibility lists, shall be considered for promotional vacancies consistent with Police Merit Board rules and Kentucky law.

## ARTICLE 17 - DISCIPLINARY PROCEDURE AND BILL OF RIGHTS

Section 1: The parties acknowledge that KRS 67C.326, commonly known as "The Police Bill of Rights", will apply to matters of discipline administered by LMPD. To that end, references to KRS 67C.326, have been incorporated into various provisions throughout this Article. If KRS 67C.326 is altered, changed, amended, or removed, as set out in Article 3 Subrogation, during the term of this agreement, then, in that event, the parties agree that any provisions in this Article which conflict with such changes shall automatically be applied so as to be consistent with them. Violations of KRS 67C.326 shall be subject to the grievance and arbitration procedure of this labor agreement.

### Section 2: **Receipt of Complaints**

The following procedures apply for processing the complaint:

- a) The complaint procedure as defined in KRS 67C.326 and this Agreement shall be explained to the complainant by a LMPD commanding officer or Professional Standards Unit (PSU) investigator.
- b) If the complainant elects to file a formal complaint, the complaint shall be taken in the form of an affidavit, signed and sworn to by the complainant. If, after the completion of an investigation, it is determined by the Chief of Police or his/her designee that a complainant filed a false affidavit in violation of KRS 523.040 or falsely reported a criminal incident in violation of KRS 519.040, the affected Member may be afforded a meeting with the Special Investigations Division (SID) Commander and other appropriate personnel, as designated by the SID Commander.
- c) If the complainant declines to file a formal complaint, a complaint inquiry form shall be completed. The commanding officer or the PSU investigator shall record as many specifics as possible. When a complaint inquiry form is completed the PSU shall do one of the following:

- i. Forward to the Chief's Office if the allegations involve criminal activity.
- ii. Determine if there is information independent of that obtained from the citizen substantiating the allegations of misconduct.
- iii. Handle the complaint in an informal manner. In these cases, no investigative paperwork is entered into a Member's personnel file.

The complaint inquiry form shall be maintained solely and exclusively by the PSU. The contents of this information shall be transmitted to the Chief or his/her designee for appropriate handling. If the Chief or his/her designee directs an investigation, the procedures outlined in KRS 67C.326 and this Agreement shall be followed. The complaint inquiry form will be retained pursuant to Louisville Metro's Commonwealth approved document retention policy.

### **Section 3: Suspension Without Pay Pending**

- A. This Section is intended to apply only where an officer has been suspended "without pay pending," as permitted by KRS 67C.326 and shall not apply to disciplinary proceedings and appeals where that has not occurred.
- B. The Chief of Police may suspend an officer without pay pending completion of administrative investigation and before imposition of formal disciplinary charges and penalty (herein "without pay pending"), only under extraordinary circumstances. Examples of such circumstances include, but are not limited to instances where:
  - a) The Chief is in possession of evidence of a disciplinary violation warranting termination, which evidence eliminates genuine doubt regarding what conduct has occurred. Examples, by way of illustration but not limitation, may include video or audio recordings, or photographs, unmistakably establishing facts or events constituting a disciplinary offense.
  - b) The officer conduct in question also constitutes a felony under applicable criminal law, or is wrongful conduct that is so outrageous as to create a genuine threat to the public peace and order.
  - c) The conduct clearly constitutes an offense for which, if disciplinary charges should be sustained, the Chief will terminate the officer, barring mitigating circumstances.
  - d) The offense is so extreme in degree that it is shocking to reasonable minds and compels immediate action such as extreme violence, or sexual abuse of a child; or,
  - e) Where the conduct constitutes use of force, the force involved must be plainly and obviously unjustified and would warrant termination.
- C. A suspension "without pay pending" may not exceed thirty 8-hour work days. If the Louisville Metro Police Merit Board ("LMPMB"), after a hearing on formal disciplinary charges and penalty fails to sustain termination, or if the charges and penalty imposed by the Chief are less than termination, then the time the officer was suspended "without pay pending" shall be deemed time served toward any suspension finally imposed, and should the final penalty be less than a suspension equal in length to the time already served, the officer shall be made whole.
- D. When an officer is suspended "without pay pending," the officer shall be advised in writing of the reasons for the suspension within 24 hours of being suspended.

- E. Consequently:
- a) A decision by the Chief not to suspend an officer "without pay pending" shall not constitute a waiver of the right to impose formal disciplinary charges and discipline, and shall not be deemed to reflect on the merits of any such charges or penalty.
  - b) An officer suspended "without pay pending" shall have the right to appeal to the LMPMB from such suspension subject to the following:
    - i. Election not to appeal until imposition of formal disciplinary charges and penalty shall not be deemed waiver of any right to appeal from formal written charges, and the time limit for appeal to the LMPMB from formal charges shall begin to run only upon the imposition of such charges and penalties.
    - ii. If an officer who has already appealed from a suspension "without pay pending" later appeals from formal written charges regarding the same occurrence that triggered the suspension "without pay pending," the two appeals shall be merged to avoid duplicated LMPMB hearings.
- F. A violation of the above terms shall be subject to the grievance and arbitration provisions of the Collective Bargaining Agreement.

#### **Section 4: Manner of Investigation**

- A. The parties recognize the rights provided to the police officer in KRS 67C.326 as it currently exists or may be amended.
- B. All investigators assigned to SID will be required to complete a minimum of 40 hours KLEC approved training or the equivalent certification, similar or equivalent to the Southern Police Institute's Internal Affairs Policy, Practice & Legal Considerations course, covering topics of investigation techniques, human dynamics and memory, specifically as they relate to police/citizen interactions prior to being assigned as lead investigator on a case. Those currently assigned shall complete within 6 months of execution of this agreement.
- C. A Member required to submit a written report shall be informed in writing of the nature of the alleged misconduct or rule violations.
- D. The written notice of interrogation shall be served to the police officer in a private setting and include a copy of the complaint before a member is subjected to interrogation in a departmental matter alleging misconduct on his or her part. In the event a written complaint does not exist, the notice shall include other written information sufficient to advise the Member of the specific allegations of misconduct.
- E. All statements or interrogations of Members, complainants and other witnesses shall be electronically recorded. Statements obtained from complainants, either sworn or otherwise, shall be transcribed and sworn to. Non-recorded statements may be taken from a civilian witness who refuses to give a recorded statement.
- F. Upon request of the Member under investigation or his representative, the Member shall be provided a copy of the transcript of the recorded interrogation, if one has been made, and a copy of the recording. The Member shall provide the Professional Standards Unit (PSU) with an audiotape, or technological equivalent at his expense.
- G. Metro Government shall provide the Member any written or recorded statements in the possession of the department in connection with any disciplinary action taken against the Member except for attorney work product. Likewise, the Member and the Lodge shall provide Metro Government with statements or other information regarding any disciplinary action that has been taken against a Member except for attorney work product. The written statement

shall be provided to the Member or Metro Government within ten (10) days after a written appeal is filed with the Louisville Metro Police Merit Board.

- H. If discipline is imposed and the Member files a timely written appeal with the Louisville Metro Police Merit Board, Metro Government shall make available to testify at the hearing all current Members requested by the appealing Member or his counsel.
- I. The Professional Standards Unit (PSU) shall complete its investigation within a reasonable period of time of the Chief's directive or complaint.
- J. All complaints and PSU directed investigations begun after the effective date of this Agreement not involving criminal allegations shall be completed and forwarded to the Chief or his designee for review and disposition within one hundred and eighty (180) days of the complaint, initiation of the PSU investigation or a return of the case by the Chief or designee to PSU, whichever is later in time. In the event that Metro Government needs additional time to complete an investigation, prior to the expiration of the one hundred and eighty (180) days, Metro Government shall provide a written explanation to the Member and FOP setting forth the specific reasons for the need for additional time.
- K. The PSU shall provide a status update of its investigation in a timely manner upon request of the affected Member. This update will include an estimated completion date.
- L. The parties recognize the Civilian Review and Accountability Board and the Office of Inspector General and their powers and duties as a government entity according to Chapter 36 of LMCO, or as later addressed by Statute.

#### **Section 5: Disposition of Investigation**

- A. If a complaint is investigated by the PSU, the complaint, resulting investigation, and the Member's annual performance evaluation and letters of commendation, will be forwarded to the Chief or his/her designee (here and after known as "Chief"). The Chief upon receiving the investigative findings and recommendations will review all complaints forwarded to their office and will handle the complaint in one of the following ways:
  - a) Unfounded
  - b) Exonerated
  - c) Closed by Exception
  - d) Not Sustained
  - e) Sustained.
- B. On complaints where the Chief believes no misconduct has occurred, he/she will communicate in writing to the complainant and the Member that their review of the facts does not indicate any misconduct by the Member and will advise both parties of their intentions to dismiss the complaint.
- C. If after reviewing the complaint investigation, the Chief concludes the Member is guilty of misconduct or violations of the rules, regulations or procedures, the Chief may impose disciplinary action from a verbal or written reprimand to suspension to demotion to dismissal by providing in writing to the Member with particularity, the reasons therefore. The disciplinary action taken should be determined by the seriousness of the misconduct and by the extent of the wrongdoing or injury to the victim. It shall also be commensurate with the circumstances surrounding the total incident and with the Member's service record and prior sustained complaints.

- D. No previous discipline against a Member may be considered by Metro Government or the Chief as the basis for any subsequent discipline or an involuntary transfer except as follows:
  - a) A previous written reprimand may be considered for one (1) year following the issuance of the reprimand.
  - b) A previous suspension of seventy-two (72) hours or less, or an involuntary transfer may be considered for three (3) years following the issuance of the suspension.
  - c) A previous suspension of over seventy-two (72) hours may be considered for five (5) years following the issuance of the suspension.
  - d) Reprimands, suspensions or terminations involving excessive use of force, sexual misconduct, bias, criminal activity, and truthfulness warrant permanency.

Are these formal complaints or informal complaints?

At this time, I am seeking informal complaints.

notes of conversations,  
recordings of conversations,  
investigatory paperwork,  
communications, responses,  
findings – both substantiated  
and unsubstantiated, letters,  
intake records, notes, texts,  
officer's notes, complaint  
entry case numbers; early  
warning system entries;  
complaint summaries;  
complainants' interviews,

### Due Date Changed

Staff Only

07/11/2022 (was 05/17/2022).  
Need time for scanning, review  
and redactions.

The public records you seek  
are in active use, in storage  
or not otherwise readily  
available. The records are  
not available because there  
were @ 300 complaints. This  
will require research, review  
and redactions.

A response will be available  
on or before close of  
business July 11, 2022.

If possible, I would like to modify this request to narrow the scope. I meant to separate informal complaints vs formal complaints.

If I need to submit another request, please close this one, and let me know to resubmit.

Also, I am now aware that ORRs have 5 business days to respond, and not 3 days.

Thank you

Hi, it's been a week. Is anyone going to acknowledge this or respond?

I am unsure if PSU is the custodian of informal/citizen complaints. Nancy filled out an LMPD complaint form via the Wufoo city website. We are wondering where that complaint exists.

If it does not exist, we believe a record of destruction should be supplied.

L5990 is what I believe this falls under. or L6262

Call me if you have questions. Thanks!
